ClearView Copper Strike

For Controlling Mustard Algae Growth in Swimming Pools

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Harmful if swallowed, absorbed through the skin, or inhaled. Avoid breathing vapors or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and aquatic organisms. This product has been shown to be effective in controlling a broad range of algae. The triethanolamine complex used in this product prevents the precipitation of the copper with the carbonate or bicarbonate in water.

STORAGE AND DISPOSAL

Keep this product in original, tightly closed container in an area inaccessible to children and persons unfamiliar with its use. Nonrefillable container. Do not re-use or refill this container. If Empty: Offer for recycling or waste securely in several layers of newspaper and discard in trash. If Partially Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

This product is toxic to fish and aquatic organisms. Do not contaminate water, food or feed by storage or disposal. Pesticide Storage: Keep this product in original, tightly closed container in an area inaccessible to children and persons unfamiliar with its use. Store in a cool, dry, well-ventilated area. Keep out of reach of children, pets and open flame. Pesticide Disposal: Wastes resulting from the use of this product must be disposed of on-site or at an approved waste facility. Container Handling: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent). Then, offer for recycling or waste securely in several layers of newspaper and discard in trash.

PHYSICAL AND CHEMICAL HAZARDS

Do not mix with any other chemicals. Do not use in pools where minerals present a problem.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is specifically designed to control algal growth in all types of swimming pools. Its long-lasting action will control existing algae. Subsequent doses will control recolonization by algae. Treated water can be used immediately; no waiting is required. This product comes concentrated. Dilute with at least nine parts of water before applying. Pour required amount of this product into plastic watering can. Fill with water and sprinkle around edge of pool. Apply initial treatment to a fresh filled pool or at first visible signs of algal growth. This product is compatible with non-chlorine pool/spa pools.

WINTER DIRECTIONS

Use 4 fl. oz. for 10,000 gallons (8 fl. oz. for 20,000 gallons, 16 fl. oz. for 40,000 gallons) of pool water. Pour the required amount into a plastic watering can, fill with water, and sprinkle the dish product around the edge of the pool. For best results, the mixture must be distributed around the pool.

Add this product to your pool prior to closing. During the winter season check pool periodically for visible signs of algae and reapply this product if necessary.

KEEP OUT OF REACH OF CHILDREN

CAUTION

See side panel for first aid and additional precautionary statements.

ACTIVE INGREDIENT:

Copper triethanolamine complex* 23.21%

INERT INGREDIENTS - 76.79%

TOTAL - 100.00%

*Nasical copper equivalent, 7.00%

Contains 0.75 lbs. of elemental copper per gallon.

NET CONTENTS: 32 FL OZ (946ml)
