**BIOSPERSE™ CN7539 Microbiocide**

**KEEP OUT OF REACH OF CHILDREN**

**DANGER PELIGRO**

DANGER: Can be inhaled or ingested and is not water-soluble. Keep out of reach of children. The product is not water-soluble and can be absorbed through the skin. It may cause burns, blindness, vision problems or death if ingested or inhaled in large quantities. Contact an emergency medical team immediately if exposure occurs.

**APPLICATIONS**

This product is intended for use in industrial, commercial, and institutional water systems as a biocidal treatment to control bacterial populations in and on equipment. The product is also effective in controlling fungal and algal growth in equipment that is not equipped with a biocidal treatment system. The product is recommended for use in cooling water systems, process water systems, and other water systems that require biocidal treatment. The product is effective against a wide range of microorganisms, including bacteria, fungi, and algae. It is also effective in controlling the growth of biofilms and scaling in water systems. The product is designed to be used in conjunction with other biocidal treatments to provide comprehensive water system treatment.

**CONCENTRATIONS FOR USE**

The product is available in a 5%, 10%, and 20% concentration. The recommended concentration for use is 10% for most applications. For specific applications, consult the manufacturer for the recommended concentration.

**Dosing Rates and Usage**

Dosing rates will vary depending on the specific application and the size of the water system. Generally, the product is dosed at a rate of 10 to 50 parts per million (ppm) depending on the size of the water system and the specific requirements. For detailed dosing instructions, consult the manufacturer's guidelines.

**STORAGE**

The product should be stored in a cool, dry place. Exposure to prolonged high temperatures can affect its effectiveness. The product is sensitive to freezing and should not be stored in a frozen state.

**HALAL AND KOSHER CERTIFICATION**

The product is certified as Halal and Kosher by the appropriate certifying bodies. It is suitable for use in applications where Halal and Kosher compliance is required.

**EMERGENCY CONTACT**

For emergency contact, call the manufacturer's emergency number or contact your local emergency service provider.

**SAFETY DATA SHEET**

The product is compliant with all relevant safety and health regulations. The Safety Data Sheet (SDS) is available upon request from the manufacturer. It contains detailed information on safety measures, health effects, and first-aid procedures.
