SPECTRUM™ RX9100 microbiocide agent

ACTIVE INGREDIENTS:
1.5-Disobenzyl-3-azoniapropane-1,3-diol  5.0%
2. Ethoxylated Alkylphenol  1.5%
3. Siloxane-Oxyhydrating Agents  2.0%
TOTAL  10.0%

INERT INGREDIENTS  90.0%

Contains: Lipid
Formulated to: 9.0 (T9F)

SAFE STORING AND DISPOSAL:
Do not add to the system while in operation. The product should be stored in a dry place away from fire, heat, water, and sharp objects. When disposing of the product, follow local regulations for the proper disposal of waste materials.

PRODUCT OFFERED FOR USE:
This product is offered for use in water treatment systems and for the preservation of paper, plastic, metal, wood, and other materials that come into contact with water. The product is designed to kill and prevent the growth of microorganisms in water systems.

INSTRUCTIONS FOR USE:
Use this product as directed. Do not exceed the recommended dosage. The product is effective against a wide range of microorganisms, including bacteria, fungi, and algae.

PRECAUTIONS:
Do not use in the presence of fuels, solvents, or other chemicals that may react with the product.

ENVIRONMENTAL CONCERNS:
This product is biodegradable and does not pose a threat to the environment. However, it should be treated as hazardous waste if it is disposed of improperly.

USER SAFETY RECOMMENDATIONS:
Avoid contact with eyes, skin, or clothing. If contact occurs, wash with大量水 thoroughly. In case of ingestion, call a doctor immediately.

DIRECTIONS FOR USE:
For use in swimming pools, spas, and hot tubs. The recommended dosage is 0.5 to 1.0 gallons per 1,000 gallons of water. Apply the product at once and continue to monitor the system for any signs of growth.

DISPOSING OF EXCESS PRODUCT:
Do not dispose of excess product in the environment. Follow local regulations for the proper disposal of excess product.
