Obvious®
Fungicide Seed Treatment

For commercial and on-farm use
A suspension concentrate for control of various seedborne diseases in dried shelled pea and bean (crop subgroup 6C), including but not limited to lentils, field pea, chickpeas and dry beans; rapeseed (crop subgroup 20A), including but not limited to canola, *Brassica juncea*, and canola oil quality mustards and flax

Active Ingredients:
- fluxapyroxad*: 1H-Pyrazole-4-carboxamide, 3-(difluoromethyl)-1-methyl-N-[3',4',5'-trifluoro[1,1'-biphenyl]-2-yl]-............. 1.58%
- pyraclostrobin**: (carbamic acid, [2-[[[1-(4-chlorophenyl)-1H-pyrazol-3-yl]oxy]-methyl]phenyl]methoxy-, methyl ester) ............................................................................................................................. 1.58%
- metalaxyl***: N-(2,6-dimethylphenyl)-N-(methoxyacetyl) alanine methyl ester.................................................................... 1.26%

Other Ingredients:......................................................................................................................................................... 95.58%

Total: ............................................................................................................................................................................... 100.00%

* Contains 0.139 lb of the active ingredient fluxapyroxad per U.S. gallon
** Contains 0.139 lb of the active ingredient pyraclostrobin per U.S. gallon
*** Contains 0.111 lb of the active ingredient metalaxyl per U.S. gallon

EPA Reg. No. 7969-371

KEEPS OUT OF REACH OF CHILDREN
CAUTION/PRECAUCION
Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand this label, find someone to explain it to you in detail.)

See inside booklet for complete First Aid, Precautionary Statements, Directions For Use, Conditions of Sale and Warranty, and state-specific crop and/or use site restrictions.

In case of an emergency endangering life or property involving this product, call day or night 1-800-832-HELP (4357).

Net Contents: 2.5 gallons

BASF Corporation
26 Davis Drive
Research Triangle Park, NC 27709

EPA Est. No. 51036-GA-001

Product of U.S.A.

Group 4 7 11 Fungicide
Precautionary Statements

Hazards to Humans and Domestic Animals

CAUTION. Harmful if swallowed, absorbed through skin, or inhaled. Causes moderate eye irritation. Avoid breathing spray mist or contact with skin, eyes, or clothing.

Personal Protective Equipment (PPE)

Applicators and other handlers must wear:

- Long-sleeved shirt and long pants
- Shoes plus socks
- Chemical-resistant gloves, such as barrier laminate, butyl rubber ≥ 14 mils, nitrile rubber ≥ 14 mils, neoprene rubber ≥ 14 mils, natural rubber* ≥ 14 mils, polyethylene, polyvinyl chloride (PVC) ≥ 14 mils, or viton ≥ 14 mils
* Includes natural rubber blends and laminates

Follow the manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

FIRST AID

If swallowed

- Call a poison control center or doctor immediately for treatment advice.
- DO NOT induce vomiting unless told to by a poison control center or doctor.
- DO NOT give anything to an unconscious person.

If in eyes

- Hold eyes open and rinse slowly and gently with water for 15 to 20 minutes.
- Remove contact lenses, if present, after first 5 minutes; then continue rinsing.
- Call a poison control center or doctor for treatment advice.

If on skin or clothing

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 to 20 minutes.
- Call a poison control center or doctor for treatment advice.

If inhaled

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance; then give artificial respiration, preferably by mouth to mouth, if possible.
- Call a poison control center or doctor for further treatment advice.

HOTLINE NUMBER

Have the product container or label with you when calling a poison control center or doctor or going for treatment. In case of medical emergency involving this product, call BASF Corporation at 1-800-832-HELP (4357) or dial 911.

NOTE TO PHYSICIAN

No specific antidote is available. Treat symptomatically.

USER SAFETY RECOMMENDATIONS

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Environmental Hazards

This pesticide is toxic to fish and aquatic invertebrates. DO NOT apply directly to water, or to areas where surface water is present, or intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. DO NOT contaminate water when cleaning equipment or disposing of equipment washwaters or rinsate. DO NOT discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing before discharge.

If treated seed is spilled outdoors or in areas accessible to birds or endangered species, promptly clean up and dispose of (cover or collect) spilled treated seed to prevent ingestion. Dispose of all excess treated seed by burying seed away from bodies of water.

Directions For Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling. This labeling must be in the possession of the user at the time of fungicide seed treatment application.

DO NOT APPLY this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your state or tribe, consult the agency responsible for pesticide regulation.

DO NOT mix or allow coming in contact with oxidizing agent. Hazardous chemical reaction may occur.

Unless otherwise directed in supplemental labeling, all applicable directions, restrictions, precautions, and Conditions of Sale and Warranty are to be followed.
Agricultural Use Requirements

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and the restricted-entry intervals. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

DO NOT enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 24 hours.

Exception: If the seed is treated with the product and the treated seed is soil-injected or soil-incorporated, the Worker Protection Standard, under certain circumstances, allows workers to enter the treated area if there will be no contact with anything that has been treated. PPE required for early entry to treated areas permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is:

- Coveralls
- Socks and shoes
- Chemical-resistant gloves made of any waterproof material

Personal Protective Equipment (PPE)

DO NOT contaminate water, food, or feed by storage or disposal.

Pesticide Storage

Store in original container. Keep container closed and in a secure place. Store in an area that is out of reach of children and animals, away from food, feedstuffs, fertilizers and seed. Protect from frost and freezing.

Pesticide Disposal

Wastes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility.

Container Handling

Nonrefillable Container. DO NOT reuse or refill this container. Triple rinse or pressure rinse container (or equivalent) promptly after emptying; then offer for recycling, if available, or reconditioning, if appropriate, or puncture and dispose of in a sanitary landfill, or by incineration, or by other procedures approved by state and local authorities.

Triple rinse containers small enough to shake (capacity ≤ 5 gallons) as follows: Empty the remaining contents into application equipment or mix tank and continue to drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinseate into application equipment or a mix tank, or store rinseate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

Triple rinse containers too large to shake (capacity > 5 gallons) as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinseate into application equipment or a mix tank, or store rinseate for later use or disposal. Repeat this procedure two more times.

Storage and Disposal (continued)

Pressure rinse as follows: Empty the remaining contents into application equipment or mix tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or mix tank, or collect rinseate for later use or disposal. Insert pressure rinsing nozzle in the side of the container and rinse at about 40 PSI for at least 30 seconds. Drain for 10 seconds after the flow begins to drip.

Refillable Container. Refill this container with pesticide only. DO NOT reuse this container for any other purpose. Triple rinse the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller.

Triple rinse as follows: To clean the container before final disposal, empty the remaining contents from this container into application equipment or mix tank. Fill the container about 10% full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinseate into application equipment or rinseate collection system. Repeat this rinsing procedure two more times.

When this container is empty, replace the cap and seal all openings that have been opened during use; return the container to the point of purchase or to a designated location. This container must only be refilled with a pesticide product. Prior to refilling, inspect carefully for damage such as cracks, punctures, abrasions, worn-out threads and closure devices. Check for leaks after refilling and before transport. DO NOT transport if this container is damaged or leaking. If the container is damaged, or leaking, or obsolete and not returned to the point of purchase or to a designated location, triple rinse emptied container and offer for recycling, if available, or dispose of container in compliance with state and local regulations.

In Case of Spill

In case of a large-scale spill of this product, call:
- CHEMTREC 1-800-424-9300
- BASF Corporation 1-800-832-HELP (4357)

In case of medical emergency regarding this product, call:
- Your local doctor for immediate treatment
- Your local poison control center (hospital)
- BASF Corporation 1-800-832-HELP (4357)

Steps to take if this material is released into the environment or spilled:

- Wear Personal Protective Equipment (PPE) and avoid exposure when managing a spill. (See Precautionary Statements section of this label for required PPE.)
- Dike and contain the spill with inert, absorbent material (e.g., sand, earth) and transfer liquid and solid dripping material to separate containers for disposal. Small-scale spills of this product (that can be cleaned up with a typical spill kit) may be applied to labeled sites.
- Remove contaminated clothing, and wash affected skin areas with soap and water. Change clothing before reuse.
- Keep spill out of all sewers and open bodies of water.
Use Restrictions

- **DO NOT** use treated seed for food, feed or oil processing.
- **DO NOT** store Obvius® Fungicide Seed Treatment near feed or foodstuffs.
- **DO NOT** contain feed or foodstuffs.
- **DO NOT** contain domestic or irrigation waters.
- **DO NOT** plant any crop not listed on this label within 30 days after planting Obvius treated seed.
- **DO NOT** use the same auger or other seed treatment equipment for treating seed that will handle commercial or feed grains unless these have been thoroughly cleaned.
- **DO NOT** store leftover treated seed where it could be mixed with untreated seed. Store treated seed in cool, dry conditions.

**TREATED SEED MUST BE LABELED AS FOLLOWS:**

- This seed has been treated with Obvius® Fungicide Seed Treatment containing fluazinam, prochloraz, and metalaxyl.
- **DO NOT** use treated seed for food, feed, oil processing, or any other purpose except planting.
- **DO NOT** store treated seed away from feed or foodstuffs.
- **DO NOT** allow children, pets, or livestock to have access to treated seeds.
- **DO NOT** use the same auger or seed treatment equipment for treating seed that will handle commercial or feed grains unless these have been thoroughly cleaned.
- **DO NOT** plant any crop not listed on the label within 30 days of planting Obvius-treated seed.
- **DO NOT** apply directly into a planter box.
- Wear long pants, long-sleeved shirt, shoes plus socks, and chemical-resistant gloves made of any waterproof material when opening this bag or handling (e.g., loading, pouring) treated seed.
- After treated seed has been planted, **DO NOT** enter or allow worker entry into areas planted with treated seeds during the restricted-entry interval (REI) of 24 hours. EXCEPTION: Workers may enter these areas without restriction if there will be no worker contact with the soil/media subsurface.
- **DO NOT** allow children, pets, or livestock to have access to treated seeds.
- **DO NOT** store treated seed exposed on soil surfaces. Treat seed exposed on soil surfaces with a surfactant to make it more water-soluble.
- **DO NOT** contaminate bodies of water when disposing of planting equipment or other seed treatment equipment.
- **DO NOT** allow children, pets, or livestock to have access to treated seeds.

### Resistance-Management Recommendations

**Mode of Action**

Obvius contains three active ingredients from different fungicide groups that have distinct modes of action.

- Pyraclostrobin is classified as a Target Site of Action Group 11 fungicide.
- Fluxapyroxad is classified as a Target Site of Action Group 7 fungicide.
- Metalaxyl is classified as a Target Site of Action Group 4 fungicide.

Due to the minimal amount of Obvius applied to the seed that relocates to the upper parts of the plant and the multiple modes of action, the potential for development of resistance is extremely low. Seed treatments of Obvius can therefore be followed by foliar use and resistance management guidelines of foliar use fungicides containing the same modes of action as specified on the respective labels.

**Resistance Management**

Obvius contains three active ingredients with three distinct modes of action. Any fungal population may contain individuals naturally resistant to Obvius, and other Group 4, Group 7, and Group 11 fungicides. A gradual or total loss of pest control may occur over time if these fungicides are used repeatedly in the same fields. Other resistance mechanisms that are not linked to site of action but specific for individual chemicals, such as enhanced metabolism, may also exist. Appropriate resistance-management strategies should be followed.

To delay the development of fungicide resistance:

1. **Applications** - Adhere to the label use directions regarding the consecutive use of Obvius or other target site of action Group 4, Group 7, and/or Group 11 fungicides that have a similar site of action on the same pathogens.

2. **Integrated Pest Management (IPM)** - Integrate Obvius into an overall disease and pest management program. Follow cultural practices known to reduce disease development. Consult your local extension specialist, certified crop advisor and/or BASF Corporation for additional IPM strategies established for your area. Obvius may be used in Agricultural Extension advisory (disease forecasting) programs, which recommend application timing based on environmental factors favorable for disease development.

3. **Monitor** - Monitor efficacy of all fungicides used in the disease management program against the targeted pathogen and record other factors that may influence fungicide performance and/or disease development.

4. **Reporting** - If a Group 4, Group 7, and/or Group 11 target site fungicide, such as Obvius, appears to be less or no longer effective against a pathogen that it previously controlled or suppressed, contact a BASF representative, local extension specialist, or certified crop advisor to assist in determining the cause of reduced performance.

### Application Method

**Seed** should be well conditioned and free of chaff before treating with Obvius. Uniform seed coverage and proper application equipment calibration is essential for good disease control. Weather conditions (hot or cold), seed type and surface, and equipment used all have a bearing on the uniformity of coverage. When applied at the indicated rate(s), dilution with water is not necessary unless recommended by the manufacturer of the seed treatment application equipment. Consult a seed treatment specialist for calibration and operation procedures of the seed treatment equipment being used. Obvius may be applied using standard commercial seed treatment equipment (such as, but not limited to, spoon or mid-type equipment) or on-farm seed treatment equipment. Obvius may also be used in on-the-go type air seeder treatment systems. **DO NOT** apply directly into a planter box.

**Product Information**

Obvius is a liquid broad-spectrum fungicide seed treatment that provides preventive seed and seedling protection from several seed-borne and soil-borne diseases.

Obvius contains an EPA-approved dye that imparts an unnatural color to the treated seed to prevent its accidental use as a food or feed for animals. Refer to 21 CFR, Part 225. Refer to the Diseases Controlled by Obvius® Fungicide Seed Treatment table for approved crops and associated diseases controlled by Obvius.

Conditions of Sale and Warranty

The Directions For Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as the presence of other or untested or unapproved materials, seed of low quality or low vigor or low germination, use of the product in a manner inconsistent with its labeling, misapplication of the product, or weather conditions at planting or environmental conditions during seed storage, all of which are beyond the control of BASF CORPORATION (“BASF”) or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions For Use, subject to the inherent risks, referred to above.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER’S EXCLUSIVE REMEDY AND BASF’S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.

BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
Obvis®

Fungicide Seed Treatment

For commercial and on-farm use

A suspension concentrate for control of various seedborne diseases in dried shelled pea and bean (crop subgroup 6C), including but not limited to beans, field pea, pearl millet, sorghum, and canola. Includes oil quality mustard and flax.

Active Ingredients:
- fluxapyroxad*: 1H-Pyrazole-4-carboxamide, 3-[(fluorometoxyl)-1-methyl-N-(3',4',5'-trifluoro[1,1'-biphenyl]-2-yl)]……. 1.58%
- pyraclostrobin**: (carbamic acid, [2-[(1-(4-chlorophenyl)-1-methyl-N-(3',4',5'-trifluoro[1,1'-biphenyl]-2-yl)]...... 1.58%
- metaxyl* ≤ (2R,3R)-dimethylaminophenol-N-(methoxycarbonyl)alanine methyl ester) 1.26%
- Other Ingredients: .......................................................... 96.58%

Total: 100.00%

**Contains 0.11 lb of the active ingredient fluxapyroxad per U.S. gallon
* Contains 0.13 lb of the active ingredient fluxapyroxad per U.S. gallon
** Contains 0.13 lb of the active ingredient pyraclostrobin per U.S. gallon
*** Contains 0.11 lb of the active ingredient metaxyl per U.S. gallon

Environmental Hazards:
- No specific antidote is available. Treat symptomatically.
- This pesticide is toxic to fish and aquatic invertebrates.

FIRST AID: If swallowed:
- Hold eyes open
- If in eyes:
- Take off contaminated clothing
- Rinse eyes immediately for 15 to 20 minutes
- If on skin or clothing:
- Take off contaminated clothing
- Rinse skin immediately with plenty of water

If inhaled:
- Move person to fresh air
- If not breathing, give artificial respiration
- If consciousness is lost, give nothing by mouth

If on skin:
- Wash thoroughly with soap and water

HOTLINE NUMBER:
- Have product container or label with you when calling a poison control center or doctor for treatment advice

CAUTION/PRECAUTION:
- Harmful if swallowed, absorbed through skin, or inhaled. Causes moderate eye irritation. Avoid breathing spray mist or contact with skin, eyes, or clothing.
- KEEP OUT OF REACH OF CHILDREN

Refillable Container.

DO NOT DISCHARGE EFFLUENT CONTAINING THIS PRODUCT TO SEWERS WITHOUT PREVIOUSLY NOTIFYING THE LOCAL SEWAGE TREATMENT PLANT RESPONSIBLE. FOR QUESTIONS CONTACT YOUR STATE WATER BOARD OR THE REGIONAL OFFICE OF THE EPA.

STORAGE AND DISPOSAL:
- DO NOT contaminate water, food, or feed by storage or disposal.
- Pesticide Storage: Store in original container. Keep container closed and in a secure place. Store in an area that is out of reach of children and animals, away from food, feedstuffs, fertilizers, and seed. Protect from frost and freezing.
- Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility.
- Container Handling: Nonrefillable container. DO NOT reuse or refill this container.
- Triplet rinse contains small enough to shake (capacity ≤5 gallons) as follows:
- Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinse into application equipment or a mix tank, or store rinse for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

In case of medical emergency involving this product, call day or night 1-800-832-HELP (4357).

Dilute no entiendo la etiqueta, busque a alguien que sepa el idioma para que le explique a usted en detalle. (If you do not understand this label, find someone to explain it to you in detail.)

Precautionary Statements: Hazards to Humans and Domestic Animals. CAUTION. Harmful if swallowed, absorbed through skin, or inhaled. Causes moderate eye irritation. Avoid breathing spray mist or contact with skin, eyes, or clothing. Fahrenheit (F)
- CAUTION.
- DO NOT
- Give anything to an unconscious person.

NOTE TO PHYSICIAN: No specific antidote is available. Treat symptomatically.

Environmental Hazards: This pesticide is toxic to fish and aquatic invertebrates. DO NOT apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. DO NOT contaminate water when cleaning equipment or disposing of equipment washwaters or rinsate. DO NOT discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing before discharge.
