**IF IN EYES:** Hold eye and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes. Continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when you call a Poison Control Center or doctor, or when going for treatment.

**Risks to Physician:** Possible mucosal damage may contribute to the one of gastric lumen. If breathing has stopped or is difficult, administer artificial respiration or oxygen as indicated. SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

### IN CASE OF TRANSPORTATION EMERGENCY CALL: 1-800-434-8360 (CHEMTREC)

FOR NON-TRANSPORTATION EMERGENCIES CALL: 1-800-241-4861

**EPA Reg. No. 83977-10**

**MANUFACTURED FOR:**
- Viance LLC
- 6301 I-85 North
- Charlotte, NC 28209

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is to be used for treatment of wood products. Do not attempt to use without having the necessary safety equipment. (measure treatment of wood products small units water solutions having concentrations from 0.1 percent to 5.0 percent (on a copper plus other active ingredient basis) by weight. Pressure Impregnation procedures must comply with the current specifications of Viance, LLC, or the American Wood Preservatives Association. Such procedures used to apply Copper Acids formulations shall leave no visible surface deposits (presenting a surface residue or crystallization) on the treated wood. Small labeled or intentionally small chemical or inorganic types of chemical on otherwise clean wood shall be allowed.) This product may also be used as a surface applied treatment for utility poles and other treated wood products. For such applications, it may be necessary and used at concentrations of up to 54 percent (on a copper plus other active ingredient, basis) by weight.

Treatment of wood products with this Copper Acids wood preservative provides wood with protection against termites, white rot, brown rot, alkali, and dry rot.

### STORAGE AND DISPOSAL:

**STORAGE:**
- Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

**PESTICIDE DISPOSAL:**
- Pesticide waste is acutely hazardous. Improper disposal of excess product, spills, or chemical is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative of the nearest EPA Regional Office for guidance.

### CONTAINER DISPOSAL:

**Containers:** 5 gallons or more
- Nonrefillable Container. Do not fill or reuse container. Triple Reed as follows: Fill container 1/4 full with water. Tip container on its side and roll it back and forth, ensuring at least one complete revolution for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over once or twice and roll it back and forth several times. Empty the contents into the application equipment or into tank or storage vessels for later use or disposal. Repeat this procedure two more times. Then offer for recycling or reconditioning, if not available, puncture and dispose in a sanitary landfill.

**Containers less than 5 gallons**
- Nonrefillable Container. Do not fill or reuse container. Triple Reed as follows: Fill container 1/4 full with water. Shake for 10 seconds. Empty the contents into the application equipment or into tank or storage vessels for later use or disposal. Puncture this procedure two more times. Then offer for recycling or reconditioning. If not available, puncture and dispose in a sanitary landfill.
