DORMANCY BREAKING:
1-4 pints per 100 gallons of spray mixture when used as surfactant/
Regulators:
scale application.
Acaracides, Foliar Nutrients, Fungicides, Insecticides, Plant Growth

GENERAL USE (air or ground):
Ornamental and Industrial Spraying:
have been found acceptable; however, not all species have been tested.

DRIFT REDUCTION:
with the recommended rate of dormancy-breaking product. To reduce
the risk of phytotoxicity, use lower rates under the following conditions:
young trees, low-chill varieties, high rates of rest-breaking agents, and
highly active rest-breaking agents.

GENERAL USE (air or ground):
Defoliants, Desiccants, Herbicides: Use
1-4 pints per 100 gallons of spray mixture when used as a surfactant/
penetrant. Use 12 fl.oz.-2 pints per acre when used in place of crop oils.
Acaracides, Foliar Nutrients, Fungicides, Insecticides, Plant Growth
Regulators: Use 1/2-2 pints per 100 gallons of spray mixture. Turf,
Ornamental and Industrial Spraying: Use 1-3 fl.oz. per 5 gallons (1-4
pints per 100 gallons) of spray mixture. For hand-held and backpack
sprayers use 1 fl. oz. per gallon of water. Plant sensitivities to this product
have been found acceptable; however, not all species have been tested.
Before treating a large area, test on a small area and observe prior to full
scale application.

Principal Functioning Agents:
Modified vegetable (seed) oil, Lecithin and
Alcohol ethoxylate ........................................... 99%
Constituents ineffective as spray adjuvant .............. 1%
Total ...................................................... 100%
CA Reg No. 48813-50012-AA

DIRECTIONS FOR USE
BRANDT TORPEDO is a non-ionic, low foam surfactant that may be used to
enhance the activity and effectiveness of herbicides, defoliants,
desiccants, plant growth regulators, insecticides, fungicides and
acaracides. This product provides more uniform coverage by decreasing
surface tension of spray solutions, thus aiding in penetration. It will
improve deposition and retard, but not eliminate, drift by producing a
more uniform spray pattern. This product may be used on agricultural,
aquatic, forestry, turf and ornamental, industrial and non-cropland sites.

NOT FOR AQUATIC USE IN WASHINGTON
Read and follow the precautions, restrictions and recommendations on
the labels of pesticides used with BRANDT TORPEDO. Use according to
the most restrictive label directions for each product in any tank mix.

COMPATIBILITY: BRANDT TORPEDO is compatible with most pesticides.
However, if the desired combination has not been previously used, a
compatibility test is recommended.

MIXING: Shake well before using. Fill spray tank 1/2 full of water and begin
agitation. Add recommended amount of BRANDT TORPEDO. Add products
as directed by label or in the following sequence and continue filling tank:
(1) Dry flowables or water dispersible granules, (2) Wettable powders,
(3) Flowables, (4) Solutions, (5) Emulsifiable concentrates. Continue
agitation until spray solution is completely mixed. Continuous agitation
of finished spray is recommended. If spray solution has been allowed to
stand, thoroughly agitate and remix before application.

RECOMMENDATIONS: Specific use rates will vary with conditions of
application such as water hardness, application method, equipment, spray
droplet size, condition of foliage, etc. Also, higher rates than those below
may be used if recommended by pesticide labeling. Follow pesticide label
directions. However, do not add this product at a rate which exceeds 5%
of the finished spray volume.

DRIFT REDUCTION: Apply 1 to 2 quarts per 100 gallons of spray mixture.
DORMANCY BREAKING: Apply a volume/volume solution of 0.5 to 2.0%
with the recommended rate of dormancy-breaking product. To reduce
the risk of phytotoxicity, use lower rates under the following conditions:
young trees, low-chill varieties, high rates of rest-breaking agents, and
highly active rest-breaking agents.

KEEP OUT OF REACH OF CHILDREN

WARNING

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
WARNING: Causes skin irritation and serious eye irritation. Wear protective
eyewear, long sleeved shirt, long pants, shoes plus socks and chemical
resistant gloves made of any waterproof material when mixing or handling
concentrate. Wash thoroughly with soap and water after handling and
before eating, drinking, chewing gum, using tobacco, or using the toilet.

ENVIRONMENTAL HAZARDS
Do not contaminate water when cleaning equipment or disposing of
equipment washwaters.

FIRST AID
Have the product container or label with you when calling a poison control
center or doctor or going for treatment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove
contact lenses, if present and easy to do. Continue rinsing. If eye irritation
persists, get medical attention.

IF ON SKIN: Wash with plenty of water. If skin irritation occurs, get
medical attention.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in original container away from children, animals, foods,
feeds, seeds and incompatible materials. Handle in accordance with
Precautionary Statements. In the event of spillage or leakage, soak up the
material with absorbent clay, sand, sawdust or other absorbent material.
Scrape up and dispose in accordance with Product Disposal.

PRODUCT DISPOSAL: Dispose of waste and residues in accordance with
local authority requirements.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this
container. Triple rinse (or equivalent) during mixing and loading. Recycling
decommissioned containers is the best option of container disposal. The
Agricultural Container Recycling Council (ACRC) operates the national
recycling program. To contact your state or local ACRC recycler, visit the
ACRC web page at www.acrcycle.org. Decontaminated containers may
also be disposed of in a sanitary landfill.

WARRANTY: Seller warrants that the product conforms to its chemical description and is
reasonably fit for the purpose stated on the label when used in accordance with directions
under normal conditions of use; but neither this warranty nor any other warranty of
merchantability or fitness of a particular product expressed or implied, extends to the use of
this product contrary to label conditions, or under conditions not reasonably foreseeable to
the seller; and buyer assumes the risk of any such use.

Manufactured under a license of Platte Chemical Company; covered under US Patent 6797673.
