Controls algae in swimming pools and improves filter operation.

CONCENTRATED ALGAESTROY 50

ROBELLE

everything for your swimming pool

ACTIVE INGREDIENTS:
- Algaestroy 50% (Dichlorophenol Indophenol) 50.0%
- TRIS (Tris(hydroxymethyl)amino methane) 10.0%
- Sodium Chloride 3.4%
- Other Ingredients 36.6%

ITEM NO. 2150 L10031FF

KEEPS OUT OF REACH OF CHILDREN

DANGER
See back panel for First Aid and additional precautionary statements. Read all instructions carefully before use.

1 QUART

This product is compatible with most chemicals used in pool water and will not damage tile, ceramics, metal or plastics.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Swimming Pool and Outdoor Spas: Add this product directly to the pool water along edges where filter and pump are in operation. To provide for even distribution in the pool water, before adding, mix water using a minimum of 10 minutes. After the addition of this product, begin filtering.

For Total Treatment of Clear Water and algae, add 5 to 8 fluid ounces of this product for every 10,000 gallons of water (3 to 3.5 ppm active chlorine). Maintenance additions of 2 to 4 fluid ounces per 10,000 gallons (1.5 to 2 ppm active chlorine) should be added every 7 days, or after frequent exposure to sun and/or wind. A booster dose of 2 fluid ounces per 10,000 gallons (0.75 ppm active chlorine) should be provided after each rain.

For pools and spas with visible algae, add 10 fluid ounces of this product for every 10,000 gallons of water (5 ppm active chlorine) after 48 hours, remove dead algae by brushing, if algae is still present, repeat dosage as necessary.

For Hot Tubs:
1. This product can aid in the prevention of algae in swimming pools during the winter months, when the pool is out of service.
2. Use water for freshness, acidity, pH and the presence of metals. Take corrective action if necessary.
3. Superchlorinate the pool prior to an OPA (organophosphate alkaline shock treatment). Follow the manufacturer's label instructions.
4. Apply this product directly to the pool water, before adding the edges of the pool. Use 1 fluid ounce per 10,000 gallons of water (0.5 ppm active chlorine) and allow to circulate 2 to 6 hours. Pools without covers may need a booster treatment in cold weather as just prior to freezing.
5. Swim pool playing and filter in geographical areas that experience freezing, drain pool equipment are and plumbing lines, or use all antifreeze recommended for conserving pool equipment and equipment.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

DANGER: Contains Sodium Hydroxide. Sodium hydroxide can be very irritating to skin and eyes. Do not store in unlocked drawers, cabinets, or basements that can be accessed by children or individuals with sensory impairments. Store in a cool, dry place where it cannot be accessed by children.

Inhalation: Inhaling the smoke or dust can cause irritation of the respiratory tract. In severe cases, pulmonary edema can result. Immediate medical attention should be sought. Do not inhale vapors or smoke.

Ingestion: Ingestion of the product can cause chemical burns to the mouth and throat. Do not inhale vapors or smoke.

Contact: Contact with the skin or eyes can cause chemical burns and irritation. Do not inhale vapors or smoke.

Skin: Skin irritation may occur with prolonged exposure. Avoid contact with the skin and eyes.

Eye: Irritation or chemical burns can occur with prolonged exposure. Avoid contact with the skin and eyes.

OSHA HAZARDOUS MATERIALS REGULATIONS

Hazard Class: None

UN Class: None

SARA Title III:

Acute Toxicity (LD50): Inhalation-200 mg

SARA Title IV:

Acute Toxicity (LC50): Inhalation-200 mg

UN Number: None

Agricultural Use:

This product is toxic to fish. Do not discharge effluent containing the product into live streams, ponds, reservoirs, lakes or other waters unless compliance with all state, federal, and local laws and regulations are maintained. Do not discharge effluent containing the product into storm water systems without provisions being made to ensure that storm water systems will not be damaged.

ENVIRONMENTAL HAZARDS:

This product is toxic to fish. Do not discharge effluent containing the product into live streams, ponds, reservoirs, lakes or other waters unless compliance with all state, federal, and local laws and regulations are maintained. Do not discharge effluent containing the product into storm water systems without provisions being made to ensure that storm water systems will not be damaged. Do not discharge effluent containing the product into storm water systems without provisions being made to ensure that storm water systems will not be damaged.

STORAGE AND DISPOSAL:

Store in original container in a cool, dry, well-ventilated area. Do not re-container. Do not reuse, refill, or store this container.

Waste container and put in trash or offer for recycling, if available.
