KEEP OUT OF REACH OF CHILDREN
See Safety Data Sheet (SDS) for more information.

NOT FOR AQUATIC USE

DIRECTIONS FOR USE
WARRAW™ improves the performance of certain fungicides and insecticides. The product contains small amounts of inert-based pH buffers that maintain constant pH of the ready-to-use solution in the spray tank and when applied to the foliage.

May be used on agricultural, forestry, turf and ornamental, industrial, structural and non-foamable sites.

APPLICATION RATE
Use WARRAW™ at a rate of 1 part concentrate to 50 parts to 500 parts of tank load. Pesticide solution unless an alternative recommendation is noted on the pesticide label.

mixing
To reduce foaming, add the full quantity of the WARRAW™ when spray tank is nearly full. Mix thoroughly.

COMPATIBILITY
WARRAW™ is compatible with fungicide and insecticide containing formulations, technical grade Propiconazole, Telomarazole, permethrin and other agriculturally important fungicides/insecticides. However, if the desired combination has not been previously tested, compatibility test is recommended.

All ingredients utilized in WARRAW™ are approved as inert/ by the U.S. Environmental Agency (EPA) for inclusion in registered pesticide formulations and tank blends.

Always consult pesticide product labels for proper rate.

LIMIT OF WARRANTY AND LIABILITY
We warrant this material to comply with our published specifications and to be of good merchantable quality and such as is regularly sold in the trade for goods within the description, and further warrant such goods to be fit for the normal purposes for which such goods are used. We assume no responsibility that the goods contained in this contract will be fit for any particular purpose for which they are being bought outside of the general purposes of goods of the description.

WARRIANTY

Activator Adjuvant

Liquid Concentrate

This adjuvant product must be tank blended only with EPA-registered fungicides/insecticides products to enhance the performance of the active ingredients of those products into plants using low pressure spray application methods.

Principal Functioning Agents:
Cyclo-dimethylamine oxide, potassium bicarbonate, potassium carbonate

Constituents Ineffective as Spray Adjuvant:

Total

Ingredients exempt from the requirements of the Toxic Substances Control Act (TSCA): 0.00%

Read Warranty on side panel before buying or using. If such terms are not acceptable, return at once unopened.

DANGER!
HAZARDS
Causes skin irritation

Causes serious eye damage

General Advice:
Show this safety data sheet to the doctor in attendance.
When symptoms persist or in all cases of dizziness, seek medical attention.

STORAGE & DISPOSAL

Protected from freezing and extreme heat. To avoid waste, use all material in this container by application according to label directions. It wastes cannot be avoided, send remaining product to a waste disposal facility.

Keep container tightly closed in a dry and well-ventilated place. Keep in properly labeled containers. Keep away from food, drink and animal beverages. Keep from freezing. Keep container tightly closed.

Precautionary Statements:

PREVENTION: Wash face and any exposed skin thoroughly after handling.

Personal Protective Equipment (PPE): Wear protective gloves/protective clothing/potassium bicarbonate protection. Safety glasses with side shields. Wear impervious gloves and clothing if needed to prevent contact with the material. Ruber/fabrics/overalls or other suitable chemical resistant gloves. If exposure limits are exceeded or irritation is experienced, NOX/HMFA approved respiratory protection should be worn.

FIRST AID:
If In Eyes: Immediately flush with plenty of water. After initial flushing, remove any corneal lens and continue flushing for at least 15 minutes. Call a physician or poison control center immediately.

If On Skin: Wash off immediately with soap and plenty of water for at least 15 minutes while removing all contaminated clothing and shoes. Call a poison control center or doctor for treatment advice. Remove and wash contaminated clothing before reuse.

If Inhaled: Remove victim to fresh air. Apply artificial respiration if victim is not breathing. Call a physician or poison control center immediately.

If ingested: If swallowed, DO NOT induce vomiting unless directed to do so by medical personnel. Gently wash or throw the inside of the mouth with water. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.
