GENERAL INFORMATION

ORO-HSMSO is an adjuvant with a unique blend of methylated seed oil and a surfactant for use with a broad range of herbicides. It is compatible with most pesticides.

DIRECTIONS FOR USE

Prior to use, read all directions on this label and on the labels of the manufacturers’ pesticides or nutrients being used with this product. The manufacturers’ labels for specific usage and restrictions has precedence over directions for use on the ORO-HSMSO label.

Conduct a jar test to confirm compatibility with the specific products to be tank mixed. Always test new tank-mix combinations before widespread use. If unsure, check with the manufacturers or contact your local State Extension Service if you have questions. To ensure thorough mixing, it is suggested that you recirculate mini tanks and bulk tanks or shake containers before using. Do not combine with other surfactants.

Residues in tanks and spray lines, from previous chemicals sprayed, may be dissolved by ORO-HSMSO, releasing them into the mix about to be sprayed. Prior to the first use of ORO-HSMSO, pre-rinse all tanks, spray lines or containers thoroughly before adding ORO-HSMSO. Add 20 ounces of ORO-HSMSO to 20 gallons of water, circulate thoroughly for 20 minutes, and spray to waste.

PRECAUTIONS

- Due to the high surfactant content DO NOT USE between V10 and VT stages on corn.
- FOR USE WITH HERBICIDES REGISTERED FOR AGRICULTURAL, FORESTRY, INDUSTRIAL, NON-CROP, RIGHTS OF WAY.
- NOTE: To avoid flocculation with paraquat formulations add a minimum of 1% - 2% solution of 100% Ammonium Sulfate concentrate to the tank prior to adding other materials.
- NOTE: NOT FOR AQUATIC USE.

MIXING

Shake well before use. In the absence of specific mixing instructions found on the pesticide label, fill spray or mix tank 1/2 to 2/3 with water. Commence agitation and continue throughout the whole mixing and spraying process. Add pesticides and/or other tank mix components. Complete filling of tank with water. Add ORO-HSMSO last.

ORO-HSMSO can be applied by ground and aerial applications.

NOTE: Test stability and pH of the tank mix before adding any buffer or other adjuvants.

RECOMMENDED RATES

ORO-HSMSO should be applied at a rate of 1-3 quarts per 100 gallons (0.25 – 0.75% v/v)

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food or feed by storage, disposal or cleaning of equipment.

STORAGE: Store in original tightly closed container. Store away from incompatible materials. Handle in accordance with Precautionary Statements. In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent materials. Scrape up and siphose in accordance with Product Disposal.

PRODUCT DISPOSAL: Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

CONTAINER DISPOSAL: Triple rinse container and pour rinsate into spray tank. Do not reuse container. Recycling decontaminated containers is the best option of container disposal. Dispose of contents/container in accordance with local/national regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.acrecycle.org.

NOTICE OF WARRANTY

CONDITIONS OF SALE-LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES: Read the Conditions of Sale-Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions on this label are believed to be reliable and should be followed carefully. Insufficient control of pests and/or injury to the crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of Oro Agri, Inc. (the “Company”) or seller. In addition, failure to follow label directions may cause injury to crops, animals, man or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at Company’s election, one of the following: 1. Refund of the purchase price paid by buyer or user for product bought, OR 2. Replacement of the product used. To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company and the seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
