PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Wash immediately with soap and water. Avoid breathing dust. Keep out of reach of children. Use only as directed.

WARNING: Avoid contact with skin, eyes, and clothing. Wash immediately with soap and water. Use only as directed.

HAZARDS TO DOMESTIC ANIMALS: Dispose of containers and packaging in accordance with regulations.

HAZARDS TO OTHER CLASSIFICATION: Disposal to ground waters may be hazardous.

HAZARDS TO WILDLIFE: This product contains chlorine which may harm wildlife.

HOW TO APPLY TO POOLS:

1. **Before Shock Treatment:**
- Lift the skimmer basket and lower the filter or valve to catch any remaining debris.
- Use a vacuum to remove floating or splashing debris from the pool.
- Use a pool brush to loosen particles and loosen clinging particles. Submerge the empty bag in the pool to eliminate any residue, then place bag in trash for disposal.
- Do not mix this product with other chemicals, including any other pool chemicals of any kind, such as other disinfectants or “shock” products. Mixing could cause a fire or explosion.
- Never add water to this product. Never add water to any other pool product. Never add water to the product to dissolve the product. Do not mix this product with any other chemicals, including any other pool chemicals of any kind.

2. **Before Superchlorination:**
- After shocking, maintain the pH levels of the pool. The ideal pH range is 7.2 to 7.4. If the pH is too high, adjust it downward to 7.2 to 7.4.
- Use a pool brush to distribute the product evenly.
- Use a pool test kit to check the level of available chlorine.

3. **After Shock Treatment:**
- Do not shock the pool more than once a month.
- Use a pool test kit to check the level of available chlorine.

4. **After Superchlorination:**
- Do not shock the pool more than once a month.
- Use a pool test kit to check the level of available chlorine.

5. **Apply the Product:**
- Use the提供的 application method for the specific pool condition.
- Ensure that the pool is clear of all debris before applying the product.
- Use the provided application method for the specific pool condition.

6. **Follow-Up:**
- After applying the product, monitor the pool levels and adjust as necessary.
- Use a pool test kit to check the level of available chlorine.

7. **Safety Precautions:**
- Always wear gloves and protective eyewear when handling the product.
- Avoid contact with skin, eyes, and clothing.
- Keep out of reach of children.
- Use only as directed.

EPA REGISTRATION:
The product is registered with the EPA under the registration number 7929-1-23.

STORAGE AND DISPOSAL:
- Store the product in a cool, dry place.
- Do not mix the product with any other chemicals, including any other pool chemicals of any kind, such as other disinfectants or “shock” products. Mixing could cause a fire or explosion.
- Never add water to the product.
- Never add water to any other pool product.
- Never add water to the product to dissolve the product.
- Do not mix this product with any other chemicals, including any other pool chemicals of any kind.

DANGER

Do not mix with any other chemicals, including any other pool chemicals of any kind. Mixing with other chemicals could cause a fire or explosion. Always add product to large quantities of water to fully dissolve product. Do not pour water into product, always add product to water. See additional precautionary statements on back label.

FIRST AID

CONTACT 1-304-455-6882 or your poison control center for 24-hour emergency medical treatment information. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES:

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING:

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF SWALLOWED:

Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED:

Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage.

LIMITED WARRANTY:

The Manufacturer warrants, for a period of 1 year from purchase, that when this Product is stored and used, all in accordance with label directions, it will be fit for its intended purpose. THE MANUFACTURER EXPRESSLY DISCLAIMS ALL OTHER EXPRESS OR IMPLIED WARRANTIES TO THE EXTENT THIS DISCLAIMER IS PROHIBITED BY APPLICABLE LAW. ANY IMPLIED WARRANTIES ON THIS PRODUCT ARE LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY. If this Product fails to conform to the Limited Warranty, the Manufacturer will refund your purchase price or furnish you with replacement product, at Manufacturer’s option. This is the Manufacturer’s sole liability and in no event will Manufacturer be liable for direct, indirect, special, incidental or consequential damages. To make a claim under this Limited Warranty, contact the store/dealership where you purchased this Product. This Limited Warranty gives you specific legal rights, and you may also have other legal rights which vary from state to state.
PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or going to the toilet. Remove and wash contaminated clothing and shoes before reuse. May be fatal if swallowed. Irritating to nose and throat. Avoid breathing dust.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

PHYSICAL AND CHEMICAL HAZARDS: Strong oxidizing agent! Mix only with water. Do not mix this product with any other chemicals, including any other pool chemicals of any kind, such as other disinfection or “shock” pool products. Always add product to large quantities of water to dissolve product. Do not pour water into product. Do not add this product to any dispensing device containing remnants of any other product or pool chemical. Such use may cause violent reaction leading to fire or explosion. Contamination with moisture, acids, organic matter, other chemicals (including, but not limited to cleaning chemicals and other pool chemicals), petroleum or paint products or other easily combustible materials may start a chemical reaction with generation of heat, liberation of hazardous gases and possible violent reaction leading to fire or explosion. If product becomes contaminated or decomposes do not reseal container. If possible isolate container in open air or well-ventilated area. Flood with large volumes of water, if necessary, to fully dissolve product.

USE WHOLE BAG IN ONE APPLICATION.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SWIMMING POOL USE: Pool water is subject to a build-up of a wide variety of organic contaminants including swimmer wastes, such as perspiration, ammonia compounds, and natural and synthetic oils and lotions. If left untreated, the build-up of these contaminants can lead to the development of noxious odors, irritating water, and unsightly water clarity problems. These organic wastes serve as nutrients for bacteria, algae, and other organisms, and should be removed from the pool on a regular basis to prevent their build up. This product will effectively reduce organic contamination in swimming pool water resulting in increased water clarity.

USE DIRECTIONS: For any application method you choose: No one can be in the pool when chemicals are being added directly to the pool. Do not mix this product with other chemicals, including any other pool chemicals of any kind, such as other disinfection or “shock” products. Mixing could cause a fire or explosion. Always add this product to large quantities of water to fully dissolve. Never add water to product. Make sure to keep the pump and filter running during application and for at least 6 to 8 hours after application to allow for the best product dispersion. For best results, test your pool water prior to addition of this product and maintain pool water parameters in the ranges noted below.

This product will raise the pH of pool water. For best results, test your pool water prior to addition of this product. If your pH measures 7.4 or higher, adjust it downward so that it is between 7.2 to 7.4. This will help avoid clouding of water and allow for faster dispersion of the product.

This product can be added by broadcasting the dry granules over the pool water surface at the deepest end of the pool while the pump is running. Should any granules settle at the bottom of the pool, use a pool brush to disperse them. Take care to not tear the liner in above ground pools (or any pool with a liner) while brushing.

HOW TO APPLY TO POOLS:

REMINDER: Never add water to product. Always add product to large quantities of water to fully dissolve. Maintain operation of your pump and filter. Treatment should be done at night or during a period when the pool is not in use.

Shock Treatment/Superchlorination: Adjust pH between 7.2 and 7.4 prior to shocking or superchlorination. Add this product at night or when the pool is not in use. To prevent pool water problems, shock at least once per week during periods of heavy use or when water temperatures are above 80°F and once every two weeks in residential pools receiving normal usage. Maintain operation of the pump and filter. Do not enter the pool until the free chlorine residual has dropped to 4.0 ppm or less as measured using a suitable test kit. Between treatments with this product, continue to maintain the proper water balance and sanitizer level in your pool as recommended on the label of your normal pool sanitizer.

STORAGE AND DISPOSAL:

Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

PESTICIDE STORAGE: Keep this product dry in a tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding this container.

PESTICIDE DISPOSAL: Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse or pressure rinse container (or equivalent) promptly after emptying. Completely empty bag into pool by shaking and tapping sides and bottom to loosen clinging particles. Submerge empty bag in pool to eliminate any residue, then place bag in trash for disposal.
LIMITED WARRANTY: The Manufacturer warrants, for a period of 1 year from purchase, that when this Product is stored and used, all in accordance with label directions, it will be fit for its intended purpose. THE MANUFACTURER EXPRESSLY DISCLAIMS ALL OTHER EXPRESS OR IMPLIED WARRANTIES. TO THE EXTENT THIS DISCLAIMER IS PROHIBITED BY APPLICABLE LAW, ANY IMPLIED WARRANTIES ON THIS PRODUCT ARE LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY. If this Product fails to conform to this Limited Warranty, the Manufacturer will refund your purchase price or furnish you with replacement product, at Manufacturer’s option. This is the Manufacturer’s sole liability and in no event will Manufacturer be liable for direct, indirect, special, incidental or consequential damages.
