For use ONLY on Dogs and Puppies 7 weeks and older weighing 21 - 55 lbs.

PetLock for Dogs

STARTS WORKING THROUGH CONTACT

ACTIVE INGREDIENTS:
Imidacloprid 9.10%
Pyriproxyfen 0.46%
Other Ingredients 90.44%
Total 100.00%

CONTAINS THE SAME ACTIVE INGREDIENTS USED IN ADVANTAGE® II

How to Apply
1. Remove one applicator tube from the package.
2. Hold applicator tube in an upright position facing away from you and your pet’s face and eyes. Roll cap off tube.
3. Use roll tip around and place each end of roll cap on tube.
4. Twist cap to break seal, then remove cap from tube.
5. The dog should be standing for easy application. Apply the active contents of the tube evenly to the side of the dog.

DIRECTIONS FOR USE
If your dog is one of those dogs who doesn’t like to have things put on them, you can avoid your pet pulling the solution off the skin. Part the hair until the skin is visible. Place the tip of the tube on the skin and gently squeeze to expel a portion of the solution on to the skin. Do not apply an excessive amount of solution at any one spot that could cause some of the solution to run off the side of the dog. Do not get this product in your dog’s eyes or allow your dog to ingest this product.

Side Effects
Monitor your dog after application. Side effects, although very rare, may include signs of skin irritation such as scratching, biting or rubbing. If signs of irritation develop, discontinue use and consult vet immediately.

Pesticide Disposal and Container Handling:
Non-refillable container.
Do not reuse or refill this container. Place in trash or offer for recycling if available. If partly filled: To prevent waste, use in a non-primary area until completely dry.

For more information call our experts at 1-888-845-4921.
Side Effects: Monitor your dog after application. Side effects, although very rare, may include signs of skin irritation such as redness, scratching, or other signs of discomfort. Gastrointestinal signs such as vomiting or diarrhea have also been reported. If these or other side effects (such as lethargy) occur, consult your veterinarian or call 1-855-844-4375.

DO NOT USE ON CATS.
Keep cats away from treated dogs for 24 hours. If applied to a cat or ingested by a cat, contact your veterinarian immediately.

HOW TO APPLY
1. Remove one applicator tube from the package.
2. Hold applicator tube in an upright position facing away from you and your pet’s face and eyes. Pull cap off tube.
3. Turn the cap around and place other end of cap back on tube.
4. Twist cap to break seal, then remove cap from tube.
5. The dog should be standing for easy application. Apply the entire contents of the tube evenly to three or four spots on the top of the back from the shoulder to the base of the tail. At each spot, part the hair until the skin is visible. Place the tip of the tube on the skin and gently squeeze to expel a portion of the solution on the skin. Do not apply an excessive amount of solution at any one spot that could cause some of the solution to run off the side of the dog. Do not get this product in your dog’s eyes or allow your dog to ingest this product.
6. Discard empty tube as described in the Storage and Disposal section.
7. Under normal conditions the product is effective for a month. However, in case of severe flea infestation, retreatment may be necessary earlier than four weeks. Do not re-treat more often than once every seven (7) days. After flea control is obtained, return to a monthly retreatment schedule.

STORAGE AND DISPOSAL
PESTICIDE STORAGE: Store in a cool, dry place inaccessible to children and pets.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:
Non-refillable container. If empty: Do not reuse or refill this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-888-845-4921 for disposal instructions. Never place unused product down any indoor or outdoor drain.
