VENDOR NOTE: COLOR ACCURATE PROOF REQUIRED.

Finished product that was not shown a proof will not be accepted.

Do not proceed to print without a signed proof from Hartz Mountain.

Successful treatment of fleas is dependent on application of the correct dosage and consistent treatment of each cat as directed at the correct intervals.

Consistent application of treatment is needed to maintain efficacy. It is important to have each cat treated at the same time every month.

Do not apply more than one tube for a single treatment per cat.

Application:

1. Part the hair on the neck at the base of the skull until the skin is visible. Place the tip of the tube on the skin and squeeze the tube to expel the entire contents directly on the skin.

2. Hold applicator tube in an upright position. Twist cap to break seal, then remove cap from tube.

3. Turn the cap around and place other end of cap back on tube. Pull cap off tube.

4. Twist cap to break seal, then remove cap from tube. Hold applicator tube in an upright position.

5. Part the hair on the neck at the base of the skull until the skin is visible. Place the tip of the tube on the skin and squeeze the tube to expel the entire contents directly on the skin.

Use only on cats or kittens 8 weeks of age or weighing less than 9 lbs. For external use only. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and warm water after handling. Keep out of reach of children.

HARMFUL IF SWALLOWED. CAUSES MODERATE EYE IRRITATION.

DIRECTIONS FOR USE

1. Each application of Advecta is considered a single treatment.

2. Advecta is effective against flea stages of Ctenocephalides felis and Ctenocephalides canis for at least 30 days, provided the cat continues to be treated monthly.

3. Advecta is also effective against ear mite stages of Otodectes cynotis for at least 30 days, provided the cat continues to be treated monthly.

4. Part the hair on the neck at the base of the skull until the skin is visible. Place the tip of the tube on the skin and squeeze the tube to expel the entire contents directly on the skin.

5. Do not get this product in your pet's eyes, or allow your pet to ingest it. If signs persist, consult your veterinarian immediately. If your pet shows signs of skin irritation such as redness, scratching, or other signs of discomfort. Do not get this product in your pet's eyes, or allow your pet to ingest it.

6. Discard empty tube as described in the Storage and Disposal section.

7. Under normal conditions this product is effective for a month. If partly filled, return to a monthly treatment schedule.

8. Do not apply more than one (1) tube for a single treatment per cat.

9. Recombinant anti-pest enzymes such as Bacillus thuringiensis var. israelensis and Bacillus sphaericus repel fleas and are environmentally safe for non-target organisms.

10. Fipronil is used to combat fleas, ticks, ear mites, and lice. It is bitter tasting and salivation may occur. Place the tip of the tube on the skin and squeeze the tube to expel the entire contents directly on the skin.

11. Treatment at the base of the skull will minimize the opportunity for the cat to lick the product. Do not allow the product to run off.

12. Make sure you and your pet's face and eyes are free of pet hair before applying product.

13. The product is bitter tasting and salivation may occur immediately after the product is applied. If signs persist, consult your veterinarian or call, 1-855-844-4375.

14. Gastrointestinal signs such as hypersalivation, vomiting or diarrhea may also be reported. If these or other side effects (such as lethargy) occur, consult your veterinarian or call, 1-855-844-4375.

15. Individual sensitivities, while rare, may include signs of skin irritation such as rashes, redness, scratching, or other signs of discomfort. Do not apply to cats or kittens under 8 weeks of age or weighing less than 9 lbs.

16. Consult your veterinarian before using this product on debilitated, aged, pregnant or nursing cats.

17. Do not allow children to apply product. It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply more than one (1) tube for a single treatment per cat.

18. Do not allow children to apply product. It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply more than one (1) tube for a single treatment per cat.

19. Do not apply to cats or kittens under 8 weeks of age or weighing less than 9 lbs. For external use only.

20. Do not contaminate feed or food. Soap and warm water after handling. Keep out of reach of children.

21. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and warm water after handling. Keep out of reach of children.

22. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and warm water after handling. Keep out of reach of children.

23. Do not apply to cats or kittens under 8 weeks of age or weighing less than 9 lbs. For external use only.
