**Active Ingredients:**

- Imidacloprid: 9.10%
- Pyriproxyfen: 0.46%
- Other Ingredients: 90.44%
- Total: 100.00%

**Precautionary Statements**

**Hazards to Humans:**

- Caution: Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and warm water after handling. Keep out of reach of children. Do not breathe vapors or dust. Do not contaminate feed or food.

**Hazards to Domestic Animals:**

- For external use only. For use only on cats or kittens 8 weeks and older and weighing over 9 lbs.

**Directions for Use**

1. Remove one applicator tube from the package.
2. Hold applicator tube in an upright position facing away from you and your pet’s face and eyes. Pull cap off tube.
3. Twist the cap and turn it until the cap is in place and then cap is off.
4. Twist cap to break seal, then remove cap from tube.
5. Part the hair on the neck at the base of the skull until the skin is visible.
6. Place the tip of the tube on the skin and squeeze the tube to expel the treatment solution onto the skin. Do not get this product or your pet’s eyes, or allow your pet to ingest this product.

**Side Effects (Cats):**

- Monitor your cat after application. Side effects, such as vomiting or diarrhea have also been reported. If these or other side effects (such as salivation) persist or become more severe consult your veterinarian immediately. If your cat is on medication, consult your veterinarian before using this product on debilitated, aged, pregnant or nursing cats. Individual sensitivities, while rare, may occur after using any pesticide product for cats. If signs persist, or become more severe consult a veterinarian immediately. If your cat is on medication, consult your veterinarian before using this or any other product.

**Storage and Disposal**

- Store in a cool, dry place inaccessible to children and pets.

**Pesticide Storage and Container Handling:**

- Store container out of reach of children. Place in trash or offer for recycling if available. If partly filled, place tight cap on the container and place it in the trash. Do not reuse or refill this container. Place the empty container, or表述, in the trash or offer for recycling if available. Do not incinerate.
Finished product that was not shown a proof will not be accepted.

When calling a poison control center or doctor, have the product container or label with you.

First Aid

How to Apply

1. Remove one applicator tube from the package.

2. Hold applicator tube in an upright position facing away from you and your pet's face and eyes.

3. Turn the cap around and place other end of cap back on tube.

4. Twist cap to break seal, then remove cap from tube.

5. Pull cap off tube.

6. Place the tip of the tube on the skin and squeeze the tube to expel the entire contents directly on the skin.

7. Under normal conditions this product is effective for a month.

However, in case of severe flea infestation, retreatment may be necessary earlier than four (4) weeks.

On cats, do not retreat for a short time if the pet licks the product immediately after treatment.

Disposal Section.

This product is bitter tasting and salivation may occur immediately after application. Side effects, although very rare, may include signs of skin irritation such as redness, scratching, or other signs of discomfort.

Monitor your cat after application. If any unusual signs such as lethargy occur, consult your veterinarian or call 1-855-844-4375.

Gastrointestinal signs such as hypersalivation, vomiting or diarrhea may occur after using ANY pesticide product for cats. If signs persist, consult your veterinarian before using this product on debilitated, aged, pregnant or nursing cats.

Individual sensitivities, while rare, may occur later than one week after application. If signs persist, consult your veterinarian immediately. If your pet becomes unconscious, do not attempt to give him water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling.

RESTRICTIONS

Do not apply more than one (1) tube to any other product.

Do not apply to cats or kittens under 8 weeks of age or weighing less than 9 lbs.

Consumer Questions Call 1-855-844-4375.

Do not get this product in your pet's eyes, or allow your pet to ingest

Flea control may be more effective if the pet licks it immediately after treatment. Do not allow the product to run off.

Flea control will be more effective if the cat is not allowed to lick the product immediately after treatment.

Treatment at the base of the skull will minimize the opportunity for the cat to lick the product.

The product is bitter tasting and salivation may occur immediately after application.
Caution

Keep out of reach of children.
