GENERAL INFORMATION
Alligare Water Conditioner is a low-use-rate, ammonium sulfate replacement product that combines water conditioning agents and ammonium ions in a convenient premix formulation. Alligare Water Conditioner is designed to effectively replace the need for ammonium sulfate with weak acid herbicides such as glyphosate, dicamba and phosphates by sequestering antagonistic hard water ions and providing ammonium ions to ensure enhanced uptake of certain pesticides.

FOR USE WITH PESTICIDES REGISTERED FOR AGRICULTURAL, FORESTRY, INDUSTRIAL, MUNICIPAL, NON-CROPLAND AND RIGHTS-OF-WAY.

DIRECTIONS FOR USE
Always mix and apply this product in accordance with the instructions found on the pesticide label regarding adjuvants. In the absence of specific instructions follow the application and mixing guidelines below.
