HAZARD STATEMENTS: Harmful if swallowed. May cause an allergic reaction. Causes serious eye damage. May cause respiratory irritation. Very toxic to Aquatic life.

PRECAUTIONARY STATEMENTS: Avoid breathing mist/vapors/spray. Use only outdoors or in a well-ventilated area. Wash thoroughly with soap and water after handling. Do not eat, drink or smoke after using this product. Take off contaminated clothing and wash it before reuse. Contaminated work clothing should not be allowed into the workplace. Specific treatment see First Aid section on this label or Safety Data Sheet. Store locked up. Dispose of contents/container according to instructions in the Storage and Disposal section on the label.

PERSONAL PROTECTIVE EQUIPMENT: Wear protective eyewear (goggles or face shield), protective clothing, protective gloves.

FIRST AID:

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a poison control center if you feel unwell.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing if eye irritation persists get medical advice/attention.

IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs, get medical advice/attention. Call a poison control center / doctor if you feel unwell.

IF SWALLOWED: Call a poison control center / doctor if you feel unwell. Rinse mouth. Do not induce vomiting.

ENVIRONMENTAL HAZARDS:
Use this product only as specified on label. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS:
The same precautions should be observed in equipment stored after use.

GENERAL INFORMATION: Cado MAX™ acts as a deposition agent when used with Herbicides, Desiccants, Foliar nutrients, Insecticides, Fungicides, Miticides, acaricides, insect growth regulators and Plant growth regulators. Cado MAX™ induces more spray droplets into the ideal size droplets. It enhances a more accurate spray pattern by providing a more appropriate overlap. The number of droplets and extra large droplets are reduced. Proper judgment and sound application technology must always be followed when spraying pesticides. Cado MAX™ act as a volatility reducing agent.

DIRECTIONS FOR USE: USE THIS PRODUCT ONLY AS SPECIFIED ON LABEL. Cado MAX™ should be added to the spray mixture after all other spray components have been added to the spray mixture. Cado MAX™ adjuvant can be used at rates of 1-4 pints (pts)per 100 gallons of spray mixture in most agricultural uses. Most applications with Aqueous Solution (AS), glyphosate, use rate 2 pts/100 gallons of spray solution. Dry Flowables (DF) and Wettable Powder (WP) Wettable Powder (WP) work well with 2 pts/100 gallons of spray solution. Emulsifiable Concentrate (EC) use rates can be increased to 2pts/100 gallons of spray solution. Most crops have shown excellent safety to this product. However, before treating a large area of a horticultural crop test a small area first for crop safety.

NOT FOR AQUATIC USE.

STORAGE AND DISPOSAL: DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL. STORAGE: Do not store at temperatures above 140°F. DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. CONTAINER DISPOSAL: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrecyle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

CONDITIONS OF SALE AND WARRANTY 1. Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated when used in accordance with the use directions under normal conditions. Seller neither makes, nor authorizes any agent or representative to make any other warranty of FITNESS or of MERCHANTABILITY, guarantee or representation, express or implied concerning this material. 2. Critical and unforeseeable factors beyond the Seller control prevent it from eliminating all risks in connection with the use of this material. Such risks include, but are not limited to damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated herein and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability resulting from handling, storage, and use of this material (except those assumed in 1 above). Seller shall not be liable for incidental or consequential damages.
