NET 1 GALLON (128 FL OZ)
PATENT PENDING

WA Reg. No. 999500-16001
GENERAL INFORMATION
Cann-Care™ Mite/Mildew Blitz Concentrate is a dual action contact insecticide that provides rapid mortality of susceptible insects and prevents powdery mildew. Cann-Care™ Mite/Mildew Blitz Concentrate prevents powdery mildew growth by forming a protective coating on plant surfaces. The net effect of this unique dual action results in:
1. The prompt termination of mites.
2. Powdery mildew never has a chance to become problematic.

Effective Against:
Mites, Adelgids, Aphids, Crickets, Earwigs, Lace Bugs, Leaf Feeding Caterpillars and Beetles, Leafhoppers, Mealybugs, Psyllids, Sawfly Larvae, Plant Bugs, Scale Crawlers, Thrips, Wooly Aphids, Whiteflies, and other pests.

Preventative for powdery mildew species (Podosphaera spp, Erysiphe spp, Golovinomyces spp, Sphaerotheca spp, and Oidium spp; Ucinula necator, Oidiopsis taurica, Leveillula taurica).

DIRECTIONS FOR USE
*SHAKE WELL BEFORE USE*
1. This product can be applied with all types of hand or power sprayers. Read and carefully follow the instructions for the type of sprayer you use.
2. For best results, use freshly mixed solution.
3. Mix one part Cann-Care™ Mite/Mildew Blitz Concentrate with 64 parts water, or 2 fl. oz. per gallon unless otherwise noted.
4. THOROUGH coverage of both the tops and bottoms of leaves and stems is important. Saturate to the point of run-off.

When to Apply:
Cann-Care™ Mite/Mildew Blitz Concentrate provides best control when insects are newly hatched. Repeat applications every 2 to 3 days for prevention. If infestation present, apply 4 fl. oz. per gallon every 2 to 3 days. Heavy infestation may require removal of leaves and buds followed by drenching in order to return plant to health.

Note:
As a precautionary trial, apply to and observe a few leaves for 2 days after application of Cann-Care™ Mite/Mildew Blitz Concentrate. Discontinue use if signs of burning are present. Do not use on newly planted cuttings or on plants stressed by drought. Avoid application when temperature exceeds 90°F (32.2°C). Cann-Care™ Mite/Mildew Blitz Concentrate may be used up to and including day of harvest, and is useful as a component of Integrated Pest Management (IPM) programs.

WARRANTY
Seller warrants that this product complies with the specifications expressed in this label. To the extent consistent with applicable law, Seller makes no other warranties, and disclaims all other warranties, express or implied, including but not limited to warranties of merchantability and fitness for the intended purpose. To the extent consistent with applicable law, Seller’s liability or default, breach or failure under this label shall be limited to the amount of the purchase price. To the extent consistent with applicable law, Seller shall have no liability for consequential damages.

HAZARDS TO HUMANS & DOMESTIC ANIMALS
WARNING: Keep out of reach of children & animals. Harmful if swallowed. Causes skin irritation. Causes serious eye irritation. Harmful to aquatic life with long-lasting effects. Avoid contact with eyes, skin, or clothing. If in eyes, flush with water for at least 15 minutes. If on skin, wash with plenty of soap and water. Get medical attention if irritation persists.

STORAGE AND DISPOSAL
Pesticide Storage:
Store Cann-Care™ Mite/Mildew Blitz Concentrate in a dry area inaccessible to children and pets. Protect from freezing and heat. Store in original container only. Keep container tightly closed when not in use to prevent evaporation.

Pesticide Disposal:
Non-refillable container. To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility.

If Partially Filled:
Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
