PureAg Foliar Feeder is an extremely effective colloidal green chemistry surfactant and emulsifier solution. Due to the very small nanometer molecular size, PureAg Foliar Feeder is able to diffuse fertilizers into the plants cells, providing energy and nourishment to the plant cell, which in turn increases the level of sugar production as it photosynthesizes. When higher sugar levels are achieved, overall plant health is improved, and plant production increases.

Principal Functioning Agents: 65%
- Alkyl Polyglucoside
- Ammonium Laureth Sulfate
- Sodium Lauryl Sulfate
- Coconut Fatty Acid

Constituents Ineffective as Spray Adjuvants: 35%

Total Ingredients: 100%

Manufactured by PureAg LLC, SLC, UT

STORAGE: Store in a cool, well ventilated area. Avoid low temperatures.

WARNING: Keep out of reach of children. Avoid contact with skin, eyes and clothing. Use protective eyewear, gloves, and clothing. IF IN EYE: Flush with cool water for five minutes. If wearing contact lenses, remove and continue flushing. If eye irritation persists, seek medical attention.

DISPOSAL: Triple rinse container and control rinsate properly. Do not reuse container. Please recycle. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.acrecycle.org. Dispose of contents/containers in accordance with local/national regulations.

USES: General purpose agricultural surfactant, which can be used with most insecticides, fungicides, herbicides, acaricides, defoliants, desiccants and wettable powders to improve performance of the active spray ingredient by giving them more uniform distribution and better wetting of the plant surface. Designed for indoor and outdoor use. Can be used in greenhouses and nurseries on ornamentals, perennials, annuals, vegetables, herbs, fruits, trees and shrubs. Not for aquatic use.

Directions: This product is a concentrated and must be blended with water. Dilution is 1 part concentrate up to 200 parts water. Spray, drench, mist or fog as needed. When used in conjunction with pesticides, PureAg Foliar Feeder should not exceed more than 30% of the formulation.
