FOR ORGANIC GARDENING
BT BACILLUS THURINGIENSIS READY TO USE

✓ Controls worms and caterpillars on Fruit, Vegetables, Ornamentals and Shade Trees in and around the home garden.

✓ For Organic Gardening
DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FOR USE: Apply this product when worms or caterpillars are first noticed, then repeat at five (5) to seven (7) day intervals while they are active. Apply more frequently to control heavy infestations. Apply thoroughly to top and bottom of foliage. Reapply after heavy rains.

This product must be eaten by worms or caterpillars to be effective. After ingesting the insecticide, they immediately stop feeding though they may otherwise appear to be unaffected for several days. Best results are obtained by treatments when worms are small; they must be actively feeding on treated, exposed foliage. You must apply this product up to and on the day of harvest.
HOW TO APPLY

Always **SHAKE** this product thoroughly before use.
Spray leaf surfaces thoroughly, top and bottom, for complete control. Shake regularly while spraying.

FRUITS AND VEGETABLES

Spray all plant foliage. Apply at first sign of infestation and repeat at weekly intervals when needed to insects in the fruit and vegetable garden:

Cabbage Looper, Armyworms, Hornworms, and other Lepidopteran (moth) pests on broccoli, cauliflower, collards, kale, mustard greens, turnip greens, cabbage, celery, lettuce, pepper, eggplant, melons, and tomatoes.
Spray at first sign of infestation and repeat at weekly intervals when needed to maintain control. Apply to thoroughly cover all foliage surfaces of shade trees and ornamentals for control of the following leaf-feeding worms:

- Bagworm
- Fall Cankerworm
- Tent Caterpillar
- Fall Webworm
- Spring Cankerworm
- Gypsy Moth*
- Elm Spanworm

*Apply when buds swell, but before leaves are fully open. If eggs hatch over a long period of time or reinfestation occurs, spray about 14 days after application.
STORAGE AND DISPOSAL

Pesticide Storage: Store in a cool place. Activity may be impaired by storage at temperatures above 90°F.

Pesticide Disposal and Container Handling: Nonrefillable container. Do not reuse or refill this container.

If empty: Place in trash or offer for recycling, if available.

If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

FIRST AID

If Swallowed:
- Call a poison control center or doctor immediately for treatment advice.
- Do not give any liquid to the person.
- Do not induce vomiting unless told to by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.
### PRECAUTIONARY STATEMENTS

**Hazards to Humans and Domestic Animals**

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Avoid breathing vapors or spray mist. Wash thoroughly with soap and water after handling.

### ENVIRONMENTAL HAZARDS

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.
For information on pesticide products (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800- 858-7378.
