**IN CASE OF FIRE:**
Used in accordance with the manufacturer’s instructions. Signs may be removed only after the vapor level drops below 0.75 ppm as determined by an OSHA approved method.

**ENVIRONMENTAL HAZARDS:**
This product is nontoxic to aquatic life. It is toxic to fish. Users should be aware of the occupational exposure standard PEL (Permissible Exposure Limit) of 0.75 ppm.

**Risks of Notes:**
1. This product is toxic to fish. 2. Users should be aware of the occupational exposure standard PEL (Permissible Exposure Limit) of 0.75 ppm.

**FIRST AID:**
If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if person is not able to drink, or give 2 to 4 tablespoons of liquid sugar or syrup if person is able to swallow.

**KEEP OUT OF REACH OF CHILDREN:**

Active Ingredient:
Formaldehyde

Other Ingredients:
- Water
- Sodium hydroxide
- Potassium permanganate

Total:
- 100%

**PHYSICAL AND CHEMICAL HAZARDS:**
Do not use near open heat or open flame. In case of fire, use dry chemical or foam-type fire extinguishers.

**IN CASE OF SPILL:**
Class 3 incompatible. Take leaking containers to well-ventilated area. Eliminate ignition source. Use water spray to cool leaking containers, bear in mind that hot Formaldehyde will react vigorously with water creating large volumes of hydrogen gas.

**IN CASE OF CONTACT:**
Wash skin thoroughly with soap and water. If eye contact occurs, flush eyes with water for 15 minutes. If irritation develops, contact a physician.

**IN CASE OF INHALATION:**
Get person into fresh air. If person is unconscious, move to a fresh air place. Do not give anything by mouth. Call a physician immediately.

**IN CASE OF FIRE:**
Do not use water. Small fires may be extinguished with a dry chemical fire extinguisher. Large fires should be fought by trained personnel only. Do not attempt to fight fire without proper training and equipment. For greater protection, contact your local Fire Department or other governmental fire agencies.

**storage and disposal:**
Storage:
Do not store near fire or heat. Store in accordance with State, Local, and Federal Regulations.

Disposal:
Do not dispose of pesticides in bay or sewer. Wash down equipment with water and wash in accordance with best practice procedures. If pesticide residues remain, do not allow access into aerator treated areas by any person unless formaldehyde vapor level has been determined to be below 0.75 ppm as determined by an OSHA approved method.

**Precautionary Statements:**
**DANGER/Poison:**
Use with extreme caution. May cause death or serious injury. Read and follow label instructions carefully. Do not allow access into treated areas by any person unless formaldehyde vapor level has been determined to be below 0.75 ppm as determined by an OSHA approved method.

**Aldesan Microbiocide**

For use in hatcheries as a fumigant. For use in poultry and swine confinement buildings, mushroom houses, citrus facilities, and for use in disinfecting and fumigating rooms and railroad cars. For use by formulators in preparation of formulated products. *Not for use in California*
