- Controls multiple stages of flea lifecycle.
- Kills fleas within 24 hours of application.

READ ENTIRE LABEL BEFORE EACH USE
USE ONLY ON DOGS AND PUPPIES 7 WEEKS OF AGE OR OLDER.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS. CAUTION: Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash hands thoroughly with soap and warm water after handling, drinking, chewing gum, using tobacco, or using the tablet.

HAZARDS TO DOMESTIC ANIMALS. For external use only. Individual sensitivity, while rare, may occur after using any pesticide product for dogs. Do not treat your dog with more than one pesticide product at a time. Over dosing your dog can result in serious illness and even death. Consult a veterinarian before using this product on medicated, debilitated, aged, pregnant or nursing dogs.

FIRST AID

If swallowed: Call a poison control center or doctor immediately for treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER: Have the product container or label with you when calling a poison control center or doctor for treatment advice. You may also contact 1-888-996-TICK (9425) for emergency medical treatment information.

NOTE TO PHYSICIAN: Treat the patient symptomatically.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

TO PREVENT HARM TO YOU AND YOUR DOG, READ ENTIRE LABEL BEFORE EACH USE.

FOLLOW ALL DIRECTIONS AND PRECAUTIONARY STATEMENTS CAREFULLY.

Restrictions:
- DO NOT ALLOW CHILDREN TO APPLY PRODUCT.
- DO NOT USE ON ANY OTHER ANIMALS.
- DO NOT ALLOW YOUR DOG TO INGEST THIS PRODUCT.
- DO NOT USE MULTIPLE TUBES ON ONE DOG.

How to Open:
1. Remove product tube from the package.
2. Separate one tube from the others. Hold the tube with the tip facing down and pointing away from the face and body. Use scissors to cut off the narrow end at the notch along the line.
3. Insert tube over dog and use open end to part dog's hair.
4. Squeeze tube firmly and apply all of the solution to the dog's skin as a spot to the dog's back between the shoulder blades.

Only For Dogs Weighing 11-20 lbs. Do not apply to dogs weighing less than 11 lbs. Apply one tube 1.5 ml (0.054 fl oz) directly to skin as a spot to the dog's back between the shoulder blades.

PRECAUTIONS OF APPLICATION

Use this product monthly for control of flea infestations. Studies show that this product kills fleas within 24 hours of application and lasts for up to 4 weeks. This product kills reinfesting fleas within 2 hours and prevents further infestations of fleas. Apply monthly for flea control. This product is waterproof and remains effective, even after bathing, swimming, or exposure to sunlight or rain.

Do not apply for more than 30 days.

Side Effects: Monitor your dog after application. Some dogs may experience temporary skin effects when any product is applied. Dogs may experience some temporary irritation at the site of product application such as redness, scratching, or other signs of discomfort. If signs of sensitivity occur, bathe your dog with a mild soap and rinse with large amounts of water. If these or other side effects occur, consult your veterinarian or call 1-888-996-TICK (9425). If your dog has an unusual reaction to the initial application, consult a veterinarian before repeating application. The most common signs of accidental ingestion are excessive salivation and frothing at the mouth. If these symptoms occur, immediately feed your dog and continue to monitor your dog for the next 24 hours.

DO NOT USE ON CATS. Keep cats away from treated dogs for 24 hours. Contact your veterinarian if applied to a cat or ingested by a cat.
