**PRECAUTIONARY STATEMENTS**

**Hazard to Humans and Domestic Animals and Pets**

All handlers (including applicators) must wear shoes plus socks, and waterproof gloves. Any person who handles carcasses or unused bait following application of the product must wear waterproof gloves.

**User Requirements**

Follow manufacturer’s instructions for cleaning/preparing PPE. Do not use in rain or wet conditions. Only protected handlers can be in the area during application. Only protected handlers can be in the area during application. Keep and wash PPE separately from other laundry. Follow manufacturer’s instructions for cleaning/maintaining PPE. If reconditioning; or puncture and dispose of in a sanitary landfill; or by incineration. In most states, burning is not allowed.

**RESTRICTEUS USE PESTICIDE DUE TO HAZARD TO NONTARGET ORGANISMS**

For retail sale and to use only by Certified Applicators or persons under their direct supervision and only for those uses covered by the Certification’s Certification.

**CALIFORNIA GROUND SQUIRRELS**

**USE RESTRICTIONS:** For control of California Ground Squirrels (Spermophilus beecheyi) in industrial, commercial, and residential areas in California:

- Product must be used in a secured, tamper-resistant bait station at the following sites: vineyards, fruit tree orchards (stone fruit and pome), nut orchards, and pome and stone fruit orchards in the states listed below*.
- Do not apply broadcast baiting in non-bearing phase or bearing phase (see use restrictions).
- The use is restricted to agricultural areas not adjacent to public water supply systems.

**BURROW BAITING:** Identify surface trails and the mounds of holes leading to underground burrows systems. Place 1 oz (2 tablespoons) into each active burrow. (See use restrictions).

**GROUND BROADCAST BAITING:** Broadcast by hand or commercial spreader to cover 100 feet of a man-made structure or in commercial or residential areas. Where watergaps are located between residential structures, broadcast up to 0.2 lb per acre may be required. Do not exceed 0.2 lb per acre per year. Use only after frost has ceased. Do not apply with or near tree canopies, fruit trees, and softwood or hardwood forests. Use only after frost has ceased. Do not apply with or near tree canopies, fruit trees, and softwood or hardwood forests.

**FRUIT TREE ORCHARDS (DORMANT)**

Use restrictions: For control of meadow voles (Microtus pennsylvanicus) and pine voles (M. pinetorum) in stone fruit or citrus trees in the states listed below:

- Application is only permitted in the following states where vole is listed next to the state name:
- In most states, burning is not allowed.
- Do not apply in an accessible area or non-target areas. Do not apply in a manner that will contact workers or other persons, either directly or through drift. Only protected handlers can be in the area during application.

**Baits and Materials:**

- Place 2 lb of bait in a tamper-resistant bait station in areas frequented by opossums (near surface trails and burrows).

**Meadow and Pine Voles**

**INDUSTRIAL, COMMERCIAL, AND RESIDENTIAL AREAS**

**USE RESTRICTIONS:** For control of meadow voles (Microtus pennsylvanicus) and pine voles (M. pinetorum) in industrial, commercial, and residential areas:
