FIRST AID

HAVE LABEL WHEN OBTAINING TREATMENT ADVICE

If Inhaled:

- Move person to fresh air.
- If not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
- Call a poison control center or doctor; or 1-800-488-5743 immediately for treatment advice.

If Swallowed:

- Call a Poison Control Center, doctor; or 1-800-488-5743 immediately for treatment advice or transport the patient to the nearest hospital.
- Do not give any liquid to the patient.
- Do not administer anything by mouth.
- Do not induce vomiting unless told to do so by the poison control center or doctor.

If in Eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center, doctor, or 1-800-488-5743 immediately for treatment advice.

If on Skin or on Clothing:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center, doctor, or 1-800-488-5743 immediately for treatment advice.

NOTE TO PHYSICIAN: Contains petroleum distillate. Vomiting may cause aspiration pneumon ia.

For 24-hour emergency information on this product, call 1-800-488-5743 (US & Canada) or 1-886-521-0308 (all other areas).

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wear long sleeved shirt and long pants, socks and shoes.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticides to enter or run off into storm drains, drainage ditches, gutters, or surface waters. Applying this product in cain weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticides off the treatment area.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticides off the treatment area.

APPLICATIONS WITHIN FOOD/FEED AREAS:

Do not use or store near heat or open flame.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Loaders applicators and other handlers must wear the following: Long-sleeved shirt, long pants, shoes and socks.

User Safety Requirements

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions or washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions, restrictions and precautions.

PRECAUTIONS AND USE RESTRICTIONS:

For Occupational (Commercial, Industrial, Farm) Use -

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in treatment area during treatment.

All outdoor applications must be limited to spot or crack and crevice treatments only, except for the following permitted uses:

1. Treatment to soil or vegetation around structures,
2. Applications to lawns, turf and other vegetation,
3. Application to building foundation, up to a maximum height of three (3) feet.

Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications only.

Do not make outdoor applications during rain. Do not water the treated area to the point of run-off.

Aerial applications are prohibited. Applications with power duster equipment are prohibited.

Do not apply as a spot treatment to areas no greater than 3 feet by 3 feet per room.

Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use.

Do not use in aircraft.

When used in dairy barns or facilities, close milk bulk lids to prevent contamination from spray and from dead or falling insects. Remove or cover milking utensil before application. Wash hands of animals before milking.

Do not use in occupied rooms. Allow people to enter treated areas only after application is completed.

Except when applying to sewers or drains as instructed on this label, do not apply directly into sewers or drains or to any area like a gutter where drainage to storm sewers, water bodies or aquatic habitat can occur.

For Occupational (Commercial, Industrial, Farm) Use

APPLIED WITHIN FOOD/FEED AREAS:

Do not use in food/feed areas of food/feed handling establishments, restaurants or other areas where food/feed is commercially prepared or processed while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held.

Food/Feed processing plants and warehouses, bakeries, beverage and bottling plants, restaurants, schools, kitchens, supermarkets, meat and poultry processing plants, hotels, motels, hospitals, milking areas, meat, poultry and other livestock areas. Applications of this product in the food/feed areas of food/feed handling establishments, restaurants or other areas where food/feed is commercially prepared or processed while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held.

Food/Feed processing plants and warehouses, bakeries, beverage and bottling plants, restaurants, schools, kitchens, supermarkets, meat and poultry processing plants, hotels, motels, hospitals, milking areas, meat, poultry and other livestock areas.

Applications of this product in the food/feed areas of food/feed handling establishments, restaurants or other areas where food/feed is commercially prepared or processed while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held.

LIMIT TO CRACK AND CREVICE TREATMENT ONLY.

Using a bulbous, or mechanical duster apply a small amount of material directly into cracks and crevices such as expansion joints between different elements of construction...
or between equipment bases and the floor, wall voids, motor housing, junction boxes or switch boxes, conduit or hollow equipment legs where listed insects hide. Do not deposit this product onto exposed surfaces and do not introduce the material into the air. Do not contaminate food or food processing services.

NON-FOOD/NON-Feed AREAS:

Non-food/feed areas of food/feed areas such as garbage rooms, lavatories, floor drains (to sewer, entries and vestibules), office, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning bottling).

Cockroaches (Spiny Shoes, Cockroaches, Brown Banded Cockroaches, German Cockroach, American Cockroach, Australian Cockroach, Oriental Cockroach), Waterbugs, Palmetto Bugs, Crickets, Firebrat, Silverfish, Booklice, Scorpions, Spiders, Centipedes, Saw bugs, Pillbugs, Earwigs, Clover Mites, Lice and Milipedes.

Distribute Sure Kill Dia-Py Insecticide dust at a rate of 1.8 ounces per 100 square feet of surface area. Apply a continuous visible film to hiding place such as cracks and crevices, behind and beneath sinks, stove, refrigerators, around garbage cans, cabinets, along baseboards, door frames, floors and roofs, around drains, pipes, plumbing, behind bookcases, storage and other utility installations. Repeat as necessary.

FOR USE ON STORED PRODUCTS:

EXPOSED STACKS of Flour Beetles, Caddisfly, Rice Weevils, Pot Grain Beetles, Cigarette Beetles, Drugstore Beetles, Lesser Grain Borer, Merchant Grain Beetle, Grass Mites, Cheese Mites, Grain Insects and Mealworms. First and destroy infested packages (pods). Remove all other items from pantry, shelves, and drawers. Thoroughly treat floors, walls and other surfaces in bins, storage and handling areas, shelves, drawers, cabinets, processing and handling equipment, around curvatures and containers and other areas where these insects tend to congregate. Do not exceed two (2) ounces of product per 10 square feet of surface area. Repeat as necessary.

FOR USE IN STORAGE SITES:

This product can be used in warehouse bins and trucks, cargo ships, mills, bin hoppers, elevators and conveying equipment and other listed sites as a clean-up prior to using them for storage. In mills and elevators, remove all grain infested accumulations from bin hoppers. Thoroughly clear all storage and conveying equipment by sweeping out the washer grain, cobwebs and other debris from the walls and rafters as well as on the floor and door frames with special attention to material lodged in the cracks and crevices. Remove as dispose of all of the debris in outside trash. Repeat as necessary.

ON FARMS:

Pay particular attention to cleaning up around the used feed and grain bags, grain residues from wagon, harvesting equipment and feed troughs. Do not place newly harvested grain in the same bin with carry over grain and fumigate or carry over grain that are not treated with grain protectant. Perform these cleaning operations within two or three weeks before harvest.

After above sanitation measures have been employed, dust all areas prior to use for storage. Apply dust to floors, ceilings and partition boards of bins, paying close attention to cracks and crevices. Do not exceed two (2) ounces of product per 100 square feet of surface area. Repeat as necessary.

FOR USE IN UNOCCUPIED ANIMALS QUARTERS:

Barns, Cemeteries, Milking Parcels, Milking Rooms, Poultry Houses, and other listed animal areas. Use in cracks, crevices, walls (into between stalls, floors and other areas where pests may hide). Do not contaminate feed, feedstuffs, and milking equipment. Repeat as necessary.

PRECAUTIONS AND USE RESTRICTIONS:

For Residential Use -

Do not apply to soil, furniture, bedding, cooking utensils, clothes, or toys. Do not apply to food or food processing equipment. Do not place newly harvested grain in the same bin with carry over grain and fumigate or carry over grain that are not treated with grain protectant. Perform these cleaning operations within two or three weeks before harvest.

Sure Kill Dia-Py Insecticide dust is intended for use as a contact Insecticide during the growing season. Treat only when insects are present and repeat as required to maintain control. Apply dust uniformly to upper and lower leaf surfaces.

ON VEGETABLES:

Asparagus (Asparagus Beetle), Beans (Leafhoppers, White Fly, Mexican Bean Beetles), Broccoli, Cabbage, Brussels Sprouts, Cauliflower (Cabbage Lopper, Cross-Striped Cabbage Worm, Diabrotica Balthsh Lawna, Flea Beetles, Harlequin Bug, Imported Cabbageworm), Celery (Cabbage Lopper, Leaf Tint), Corn (Corn Earworm, Cornworm), Eggsplants (Colorado Potato Beetle), Lettuce (Cabbage Lopper, Diamondback Moth Larvae), Peppers (Colorado Potato Beetle, Leafhoppers), Radish (Flea Beetles), Spinach (Cabbage Lopper, Webworm), Tomatoes (Colorado Potato Beetle, Flea Beetle).
ON ORNAMENTALS:
African Violets, Asters, Azaleas, Begonias, Camellias, Carnations, Chrysanthemums, Dahlias, Dogwood, Geraniums, Gladiolas, Marigolds, Roses (Flea Beelles, Leafhoppers)

ANTS:
Pharaoh Ants, Carpenter Ants:
Treat doors, around window frames, ant trails and hills, cracks and crevices and other areas of entry. Repeat as necessary.

BEDBUGS:
Take bed apart. Dust into joints and channels. If hollow, such as square or round tubing, see that the interior of the framework is well dusted. Dust mattresses, especially tufts, folds and edges. Dust pictures frame molding and all cracks and crevices in the room. Repeat as necessary.

FOR USE IN LISTED PET AREAS
Remove and destroy or wash pet’s bedding. To reduce infestation, dust animals bedding, sleeping quarters, kennel, around baseboards, window and door frames, wall cracks, floor, carpeting and other resting places. Dust entire inside surface of dog houses. Put fresh bedding in pet quarters. Repeat as necessary.

For best results, to protect your pet against and to minimize reintroduction of adult flea form outdoors, use EPA registered flea and tick products in conjunction with this application and prior to re-entry. Repeat as necessary.

Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use.

LICE, FLEAS AND TICKS ON DOGS AND CATS:
Liberally apply dust to the animal, rubbing thoroughly to the skin. Begin with the neck and include the underbody, legs, feet and the base of the tail. Some temporarily drying of the animal’s skin may occur. Repeat as necessary. DO NOT TREAT KITTENS OR PUPPIES LESS THAN EIGHT (8) WEEKS OF AGE.

DRYWOOD TERMITES:
To protect against entrance, using a hand operated rotary duster, distribute SureKill Dia-Py Insecticide dust through an entry, crack hole into attic and crack pace of building at a rate of 12 ounces per 1000 square feet. Close all vents and blowers located on the windward side. Contact all wood surfaces. In case of localized infestations, probe to locate galleries and drill holes to inject SureKill Dia-Py Dust into the galleries. If a reasonably heavy infestation is suspected, use a professional treatment. Repeat as necessary.

BEES, HORNETS, VALOW JACKETS AND WASPS:
It is generally advisable to treat nests in the evening when insects are less active and have returned to the nest. Using hand or power duster or other suitable means, with extension tubes, if necessary, thoroughly dust nest and entrance and surrounding areas where insects alight. Nests in wall voids can be located by listening with your ear against the wall. To treat, drill a hole in the area. For best results, check nests carefully one or two days after treatment to ensure complete kill. Then remove and destroy nest(s) to prevent emergency or newly hatched insects. If removal is not feasible, retreat the nest, if necessary. Do not use this product to treat overhead nests.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.
PESTICIDE STORAGE: Store in a cool, dry place away from children, preferably a secure storage area.
PESTICIDE DISPOSAL & CONTAINER HANDLING:
Do not puncture or incinerate!
If Empty: Place in trash or offer for recycling, if available.
If Partially Filled: Call your local solid waste agency for disposal instructions.

DISCLAIMER
To the extent permitted by applicable law, seller makes no representation or warranty, either expressed or implied, for results due to misuse, improper handling or improper storage of this material. Nor does Seller assume any responsibility for injury to persons, crops, animals, soil or property arising out of misuse, improper handling or improper storage of this material.
