ENVIROIMENTAL HAZARDS
This pesticide is toxic to fish and wildlife. Do not discharge effluent containing this
product into lakes, streams, ponds, estuaries, oceans or public waters unless this
product is specifically identified and addressed in an NPDES permit and the
permitting authority has been notified in writing prior to discharge. Do not
discharge effluent containing this product to sewer systems without previously
notifying the sewage treatment plant authority. For guidance contact your State
Water Board or Regional Office of the EPA. Do not contaminate water by cleaning
of equipment or disposal of waste. Apply this pesticide only as specified on this
label.

STORAGE AND DISPOSAL
Do not contaminate food or feed by storage, disposal or cleaning of equipment.
STORAGE DISPOSAL: Do not store or transport in unlined metal containers.
Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of
excess pesticide or rinsate is a violation of Federal Law. If these wastes cannot be
disposed of by use according to label instructions, contact your State Pesticide or
Environmental Control Agency or the Hazardous Waste representative at the
nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL
Non-refillable container. Do not reuse or refill this container. Triple rinse
container promptly after emptying. Triple rinse as follows: [For containers ≤ 5
gallons in size] - Empty the remaining contents into application equipment or a
mix tank and drain for 10 seconds after the flow begins to drip. Fill the container
¾ full with water and recap. Shake for 10 seconds. Pour rinsate into application
equipment or a mix tank or store rinsate for later use or disposal. Drain for 10
seconds after the flow begins to drip. Repeat this procedure two more times.
[For containers > 5 gallons in size] - Empty the remaining contents into application
equipment or a mix tank. Fill the container ¾ full with water. Replace and tighten
 closures. Tip container on its side and roll it back and forth, ensuring at least one
complete revolution, for 30 seconds. Stand the container on its end and tip it back
and forth several times. Turn the container over onto its other end and tip it back
and forth several times. Empty the rinsate into application equipment or a mix
tank or store rinsate for later use or disposal. Repeat this procedure two more
times. Then offer for recycling if available or puncture and dispose of in a
sanitary landfill, or by other procedures approved by state and local authorities.

GENERAL: CONSULT FEDERAL, STATE OR LOCAL DISPOSAL AUTHORITIES
FOR APPROVED ALTERNATIVE PROCEDURES.

CONDITIONS OF SALE AND WARRANTY
Thor GmbH warrants that the product conforms to its chemical description and is
reasonably fit for the purpose stated on the label only when used in accordance
with label directions under normal conditions of use. THOR GMBH MAKES NO
OTHER EXPRESS OR IMPLIED WARRANTIES EITHER OF MERCHANTABILITY
OR FITNESS FOR A PARTICULAR USE. Handling, storage and use of the
product by Buyer or User are beyond the control of Thor GmbH and Seller. Risks
such as ineffectiveness or other unintended consequences resulting from, but not
limited to, failure to follow label directions will be assumed by the Buyer or User.
IN NO CASE WILL THOR GMBH OR SELLER BE HELD LIABLE FOR
CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE
HANDLING, STORAGE OR USE OF THIS PRODUCT.

ACTICIDE® OTD 45
ACTIVE INGREDIENT: 2-n-Octyl-4-isothiazolin-3-one 46.5%
INERT INGREDIENTS: 53.5%
TOTAL: 100.0%

KEEP OUT OF REACH OF CHILDREN
DANGER - PELIGRO
See Side panel for additional precautionary statements

FIRST AID
If Swallowed:  1- Call a poison control center or doctor immediately for treatment advice.
            2- Have person sip a glass of water if able to swallow.
            3- Do not induce vomiting unless told to do so by the poison control center or doctor.
            4- Do not give anything by mouth to an unconscious person.

If on Skin:  1- Take off contaminated clothing.
            2- Rinse skin immediately with plenty of water for 15-20 minutes.
            3- Call a poison control center or doctor for further treatment.

If Inhaled:  1- Move person to fresh air.
            2- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably
by mouth-to-mouth, if possible.
            3- Call a poison control center or doctor for further treatment.

If in Eyes:  1- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
            2- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
            3- Call a poison control center or doctor for treatment advice.

Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage.

Precautionary Statements:
Hazards to Humans and Domestic Animals

DANGER
CORROSIVE. CAUSES PERMANENT, IRREVOCABLE EYE DAMAGE AND SKIN BURNS. MAY CAUSE ALLERGIC SKIN REACTION. MAY BE FATAL IF SWALLOWED. HARMFUL IF ABSORBED THROUGH SKIN OR INHALED. PROLONGED OR REPEATED OVEREXPOSURE CAN CAUSE CENTRAL NERVOUS SYSTEM EFFECTS AND KIDNEY AND LIVER DAMAGE. DO NOT GET IN EYES, ON SKIN, ON CLOTHING. WEAR GOGGLES OR FACE SHIELD, WEAR PROTECTIVE CLOTHING AND RUBBER GLOVES. AVOID BREATHING VAPOR OR MIST. KEEP CONTAINER CLOSED. USE WITH ADEQUATE VENTILATION. DO NOT TAKE INTERNALLY. WASH THOROUGHLY WITH SOAP AND WATER AFTER HANDLING AND BEFORE EATING, DRINKING, OR USING TOBACCO.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

*ACTICIDE® OTD 45 is an industrial microbiocide to be used for the protection of paint films; coatings; including wood coatings and wood coating solutions including sapstain control; adhesives; building materials including sealants; mastics; caulks; joint cements; spackling; stucco; grouts; applied film/wet state of adhesives, tackifiers, paints, coatings and other building materials; hides; leather; textiles; fibers; fabrics; plastic/ PVC/vinyl products; metalworking fluids; hydraulic fluids against bacteria, mold, and fungus. READ AND FOLLOW THE DIRECTIONS FOR USE ON THE ACCOMPANYING INFORMATION SHEET.

* Not approved for these uses in the State of California
ACTICIDE® OTD 45
INFORMATION SHEET

THIS ACTICIDE® OTD 45 INFORMATION SHEET MUST ACCOMPANY EACH SHIPMENT OF ACTICIDE® OTD 45

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**DRY FILM PRESERVATIVE FOR BUILDING MATERIALS INCLUDING:**

- *SEALANTS*  
- *MASTICS*  
- *CAULKS*  
- *JOINT CEMENTS*  
- *SPACKLING*  
- *STUCCO*  
- *GROUTS*  
- **CONCRETE ADMIXTURES**

The amount of ACTICIDE® OTD 45 needed to protect dry and the applied/wet-states of building materials varies with the type of formulation and exposure conditions of the film (e.g., indoor vs. tropical climates). The Thor Specialties Technical Department will assist in the determination of the optimum quantity required by your product. This facility is especially helpful where a formulation has a greater than usual susceptibility to microbiological spoilage and/or is to be used in an area where the environmental conditions are particularly conducive to fungal growth.

*Not approved for these uses in the state of California*

**APPLIED FILM / WET STATE PRESERVATIVE**

Control of bacteria and fungi in the applied film/wet state of adhesives, tackifiers, paints, coatings and building materials (such as fire-proofing and sound-proofing coatings) for the purpose of protecting the applied film/wet state prior to a full cure.

*Not approved for this use in the state of California*

**LEATHER PRESERVATION**

Prevention of bacterial and fungal growth on wet leather stock such as pickled, chrome-tanned and vegetable-tanned hides and leather, including wet-blues. The optimum use concentrations will depend on the manufacturing process, the required properties of the product and the environment to which it will be exposed. Levels will be particularly affected by natural fat content, skin thickness, storage time and tannery conditions.

*Not approved for this use in the state of California*
**ACTICIDE® OTD 45**

**INFORMATION SHEET**

THIS ACTICIDE® OTD 45 INFORMATION SHEET MUST ACCOMPANY EACH SHIPMENT OF ACTICIDE® OTD 45

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

---

**METALWORKING FLUID PRESERVATION**

Control of fungi in the manufacture and use of soluble, synthetic, and semi-synthetic metalworking fluids. ACTICIDE® OTD 45 is not recommended for use in systems or fluids which are subject to foaming or systems with high levels of tramp oil. ACTICIDE® OTD 45 should be directly dispensed into the metalworking concentrate or use-dilution metalworking fluid using a metered pump or other point-of-use device and uniformly dispersed throughout the liquid. Greatly contaminated systems must be cleaned before treatment is begun.

**FLUID CONCENTRATES**

ACTICIDE® OTD 45 should be added to the metalworking concentrate at a level to ensure that the final use-dilution fluid will contain 55-167 ppm of product (25-75 ppm active ingredient).

**USE-DILUTION FLUID**

For a noticeably fouled system, add 0.47-1.44 pounds of ACTICIDE® OTD 45 per 1,000 gallons of emulsion. This will provide 25-75 ppm active ingredient. Repeat until control is achieved. For maintenance of a non-fouled system, add 0.09-0.58 pounds of ACTICIDE® OTD 45 per 1,000 gallons of emulsion every 4 weeks. This will provide 5-30 ppm active ingredient. A higher dose range and/or increased frequency of treatment may be required, depending upon rate of dilution of the preservative with the makeup fluid, the nature and severity of contamination, level of control required, filtration effectiveness, system design, etc.

*Not approved for this use in the state of California*

---

**HYDRAULIC FLUID PRESERVATION**

Preservative in the manufacture and use of soluble oils, high water-based and emulsion hydraulic fluids. ACTICIDE® OTD 45 should be directly dispensed into the hydraulic concentrate or use-dilution hydraulic fluid using a metered pump or other point-of-use device and uniformly dispersed throughout the fluid. Greatly contaminated systems must be cleaned before treatment is begun.

**FLUID CONCENTRATES**

ACTICIDE® OTD 45 should be added to the hydraulic fluid concentrate at a level to ensure that the final use-dilution fluid will contain 55-167 ppm of product (25-75 ppm active ingredient).

**USE-DILUTION FLUID**

For a noticeably fouled system, add 0.47-1.44 pounds of ACTICIDE® OTD 45 per 1,000 gallons of emulsion. This will provide 25-75 ppm active ingredient. Repeat until control is achieved. For maintenance of a non-fouled system, add 0.09-0.58 pounds of ACTICIDE® OTD 45 per 1,000 gallons of emulsion every 4 weeks. This will provide 5-30 ppm active ingredient. A higher dose range and/or increased frequency of treatment may be required, depending upon rate of dilution of the preservative with the makeup fluid, the nature and severity of contamination, level of control required, filtration effectiveness, system design, etc.
