CONTENTS: 25 TAGS

2-piece ear tag system to guard against flies, ticks, and lice

Guaranteed against loss due to tag or button failure*
Guaranteed against breakage for up to five months*
Two tags per animal gives season-long control of face flies, susceptible horn flies and Gulf Coast ticks
May be used on lactating dairy cows
Helps reduce aggravation caused by flying pests
No withdrawal time required

GUARANTEE
*This guarantee is a limited guarantee, limited to the replacement of tags only, if the tags failed, after being properly applied, to remain in the animal’s ear for a five (5) month period due to tag breakage or separation from button.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For control of susceptible horn flies, attach one tag to one ear of each animal. Tags remain effective up to 5 months. For season-long control of Gulf Coast ticks and face flies, attach two ear tags per animal (one in each ear). Apply when flies first appear in spring. Replace as necessary. Apply with the Y-TEX two-piece latching system.

STEP 1
Place female tag under clip. Collar on tag must be pointing away from pin.

STEP 2
Seal male button firmly on pin, press down and give a slight twist. Disinfect piers and tags before application.

STEP 3
Position applicator over ear and squeeze the handles together.

The ideal position for male stud is between the second and third radial cartilage as shown.

SUPERIOR DESIGN
Patented Snap-Lok® collar for guaranteed retention*
Ribbed design for season-long durability
Longer taper and rounded edges for durability

For use on dairy (lactating and non-lactating) and beef cattle and calves to control susceptible horn flies, face flies, Gulf Coast ticks, spinose ear ticks and as an aid to control lice, stable flies and houseflies. Gulf Coast Ticks, Guios Ear Ticks and flies in the control of lice.
