INSECTICIDE EAR TAGS

- Guaranteed against loss due to tag or button failure
- Guaranteed against breakage for up to five months
- Two tags per animal gives season-long control of face flies, susceptible horn flies and Gulf Coast ticks
- May be used on lactating dairy cows
- Helps reduce aggravation caused by flying pests
- No withdrawal time required

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For control of susceptible horn flies, attach one tag to one ear of each animal. Tags remain effective up to 5 months. For season-long control of Gulf Coast ticks and face flies, attach two ear tags per animal (one in each ear). Apply when flies first appear in spring. Replace as necessary. Apply with the Y-TEX two piece tagging system.

STEP 1
Place female tag under clip. Collar on tag must be pointing away from pin.

STEP 2
Seal male button firmly on pin, press down and give a slight twist. Disinfect pliers and tags before application.

STEP 3
Position applicator over ear and squeeze the handles together.

GUARANTEE
"This guarantee is a limited guarantee, limited to the replacement of tags only. If the tags fail, after being properly applied, to remain in the animal's ear for a five (5) month period due to tag breakage or separation from button.

SUPERIOR DESIGN
Snap-Lock® clip for guaranteed retention
Ribbed design for season-long durability
Larger taper and rounded edges for durability
Large surface area for insecticide effectiveness
Flat surface may be marked with Y-TEX logo mark
