FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

For Emergency Medical Information call Toll Free: 1-800-222-1222.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

WARNING. Causes substantial but temporary eye injury. Do not get in eyes or on clothing. Wear protective eyewear such as goggles, face shield, or safety glasses. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS: This product contains an oxidizing agent. Avoid contact with other sanitizers, cleaners or organic substances.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to birds, fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without appropriate dilution.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in original containers in a cool, dry area, away from direct sunlight. Do not allow product to become overheated in storage. Avoid prolonged storage temperature above 40°C, 104°F. This may cause increased degradation of the product, which will decrease product effectiveness. In case of spill, flood area with large quantities of water.

DISPOSAL: Wastes resulting from the use of this product must be disposed of onsite or at an approved waste disposal facility.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. If empty, wrap container and put in trash or offer for recycling, if available. If partly filled, call your local solid waste agency for disposal instructions.

Effective against a wide range of bacteria, viruses and fungi including:

**Bactericidal (2 minutes):** Enterobacter aerogenes (ATCC 13048); Listeria monocytogenes (ATCC 19111); Pseudomonas aeruginosa (ATCC 15442); Salmonella typhimurium (ATCC 13311); Staphylococcus aureus (ATCC 6538); Vibrio cholerae (ATCC14035); Salmonella enterica (ATCC 10708); Acinetobacter baumannii (ATCC 19606); Campylobacter jejuni (ATCC 29428); E. coli O157:H7 (ATCC 35150); E. coli ESBL (ATCC BAA-196); Enterococcus faecalis-Vancomycin Resistant (VRE) (ATCC 51299); Enterococcus hirae (ATCC 10541); Haemophilus influenzae (ATCC 19418); Klebsiella pneumoniae (ATCC 4352); Legionella pneumophila (ATCC 33153); Proteus vulgaris (ATCC 27973); Serratia marcescens (ATCC 13880); Shigella sonnei (ATCC 11060); Methicillin Resistant Staphylococcus aureus (MRSA) (ATCC 33592); Community Acquired - Methicillin Resistant Staphylococcus aureus (CA-MRSA) (Genotype 300), Streptococcus pneumoniae - Penicillin Resistant (PRSP) (ATCC 700671), Streptococcus pyogenes (ATCC 19615)

**Tuberculocidal (5 minutes):** Mycobacterium bovis

**Virucidal* (2 minutes):** Hepatitis B virus, Avian influenza virus A (H3N2) (ATCC VR-2072); Human coronavirus (ATCC VR-740); Adenovirus, Type 2 (ATCC-846); Avian influenza virus H5N1 (NIBRG-14); Herpes simplex virus, Type 1 (ATCC VR 260); Herpes simplex virus, Type 2 (ATCC VR 734); Human immunodeficiency virus Type 1 (HIV-1, Zeptometrix Corp.), Influenza virus, Type A (ATCC VR 544); Influenza A (H1N1) (ATCC VR 1469, Strain A/PR/8/34); Influenza virus, Type B (ATCC VR 823); Norovirus (F. Calicivirus) (ATCC VR 782); Poliovirus Type 1 (ATCC VR 1562); Reovirus (ATCC VR 232); Respiratory syncytial virus (RSV) (ATCC VR-26); Rhinovirus (ATCC VR-338); Rotavirus (Strain WA)

**Sporicidal Activity of Disinfectant (3 minutes):** Clostridium difficile spores (ATCC 43598).

**Fungicidal/Mold Killing (1 minute hard surfaces):** Aspergillus niger (ATCC 16404); Candida albicans (ATCC 10231); Trichophyton mentagrophytes (athlete's foot fungus) (ATCC 9533)

**Mold Killing (10 minutes porous surfaces):** Aspergillus niger

For Product Information: 1-800-424-3733
EPA Reg. No. 8383-13
Disinfectant for use on hard, non-porous surfaces in Hospitals and Health Care Facilities such as Clinics, Dental Offices, Hospices, Laboratories, Nursing Homes, Acute Long-Term Care and Long-Term Care Facilities, Physical Therapy, Doctor’s Offices, Radiology, Rehabilitation, and Transport Vehicles; Critical Care Areas such as Critical Care Unit (CCU), Emergency Room, ICU, Neonatal Intensive Care Unit (NICU), Operating Rooms, Outpatient Surgery Centers, Pediatric Intensive Care Unit (PICU), Surgery, and Emergency Medical Services; Other Sites such as Schools, Colleges, Day-care Centers, Child-care Facilities, Correctional Facilities; Hospitality establishments such as Hotels, Motels, and Cruise Ships; Veterinary Clinics, Animal Life Science Laboratories; Funeral Homes and Morgues; Research Laboratories; Industrial Facilities; Pharmaceutical Production Facilities; Cosmetic Processing Facilities; Consumer Home Use; Dining Areas (non-food contact surfaces); Office Buildings; Recreational Facilities; Retail and Wholesale Establishments; Prisons; Animal Care Facilities; Veterinary Facilities; Farms; Livestock Quarters; Poultry Premises; Poultry Houses and Hatcheries; and vehicles including ships, planes, automobiles, trucks, ambulances, trains, and farm vehicles.

Hospital, Healthcare, and Critical Use Sites: May be used on hard, non-porous surfaces of autoclaves, bed railings, blood glucose monitors, cabinets, carts, chairs, counters, exam tables, gurneys, isolettas, infant incubators and care cribs, IV poles, phlebotomy trays, PVC tubing, stethoscopes, stretchers, tables, bathrooms, sinks, faucets, toilet seats and rims, towel dispensers, hand railings, stall doors, bath tubs, showers, hampers, tiled walls, telephones, door knobs, vanities, floors, non-porous shelves, and display cases.

Hard, non-porous external surfaces of ambulance equipment, diagnostic equipment, dialysis machines, mammography equipment, patient monitoring equipment, respiratory equipment, ultrasound transducers and probes, patient support and delivery equipment. PeridoxRTU will not harm aluminum, LDPE, HDPE, vinyl, painted surfaces, polycarbonate, polypropylene, polyurethane varnish, PVC, silicone rubber, stainless steel, medical tubing, vinyl rubber, acrylic, brass, for Emergency Medical Information: 1-800-222-1222

EPA Reg. No. 8383-13
LCD screens, copper, Corian®, glass, laminate flooring and countertops, nickel, glazed porcelain, glass, and glazed tile.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

PeridoxRTU can be used for disinfection, sanitization, mold killing and remediation, mold and mildew control. This product must be used only as directed in this label.

This product is a “ready-to-use” liquid, comprised of 4.4% concentration of hydrogen peroxide and 0.23% concentration of peroxyacetic acid, and it should be used at full strength and should not be diluted before use.

**Before using this product read the entire label.**

PeridoxRTU microbicide can be applied to hard, non-porous surfaces such as counter-tops, tables, furniture, cabinets, appliances, kitchen and bathroom fixtures, furnishings, hardware, floors, walls, equipment, tabletops, benchtops, drip pans, troughs, desks, locker room benches, and the use sites listed. For heavily soiled areas, pre-cleaning is required. Apply the PeridoxRTU microbicide to the contaminated surface with a spray applicator device at an application rate of greater than 50 ml/m² (approximately 1.5 fluid oz. of the “ready-to-use” PeridoxRTU liquid per square yard), or by other means that ensure that the surface is wet (for example, by wiping with a clean cloth or sponge that is wet with PeridoxRTU liquid), or by soaking the contaminated surface and allowing it to remain on the surface for the indicated contact time. Spray or soak the surface with a sufficient amount of PeridoxRTU solution to remain on surface for the indicated contact time before evaporation. Air dry or remove with a dry clean cloth or wipe.

**For Emergency Medical Information:** 1-800-222-1222

**For Product Information:** 1-800-424-3733

EPA Reg. No. 8383-13
This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

**MOLD KILLING, MILDEW CONTROL, & REMEDIATION**

**GENERAL INFORMATION**

Do not use in areas where food/feed items are present. PeridoxRTU is for killing and control of mold.

This product is a “ready-to-use” liquid, comprised of 4.4% concentration of hydrogen peroxide and 0.23% concentration of peroxyacetic acid, and it should be used at full strength and should not be diluted before use.

Use PeridoxRTU:

- To clean and deodorize; eliminate odors associated with bacteria, mold, mildew; prevent mold and mildew stains and odors.
- To kill Aspergillus niger on hard, non-porous surfaces such as floors, tabletops, benchtops, drain troughs, drip pans, desks, locker room benches, hard, non-porous bath mats (e.g., rubber or plastic), and the use sites listed.
- To treat porous surfaces such as wood, tile grout, drywall, ceiling tile, carpets, upholstery cubical walls, wallpaper, posting boards in buildings and offices to kill mold.

Use PeridoxRTU in commercial, residential, and industrial buildings and facilities, in vehicles, and on mold infested items such as counter-tops, tables, furniture, cabinets, appliances (other than food contact surfaces), kitchen and bathroom fixtures, furnishings, hardware, and other non-porous, hard surfaces such as floors, tabletops, benchtops, drain troughs, drip pans, desks, locker room

**For Emergency Medical Information:** 1-800-222-1222

**For Product Information:** 1-800-424-3733

EPA Reg. No. 8383-13
benches, and hard, non-porous bath mats (e.g., rubber or plastic) and porous surfaces such as wood, tile grout, drywall, ceiling tile, carpets, upholstery cubical walls, wallpaper, posting boards in buildings and offices.

This product is for use in office buildings, homes, institutions such as schools, public buildings, child-care facilities, day-care centers, hospitals, nursing homes, churches, and correctional facilities, warehouses, manufacturing facilities, lodging establishments, retail business, and athletic and recreational facilities.

**Personal Protective Equipment (PPE):**

When working in mold remediation areas, handlers must wear at a minimum:

- Long-sleeved shirt and long pants
- Shoes and socks
- Protective eye wear
- Chemical resistant gloves (materials that are chemical-resistant to this product include barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, polyethylene, polyvinyl chloride, Viton).

Treatment of areas 10 ft² or more, i.e., medium and large areas, may require additional PPE. For the treatment of large areas, i.e., greater than 100 ft², eye goggles, protective garments, and a half-face or full-face respirator mask with a cartridge rated for organic vapors, are recommended. Examples of such respirator masks are 3M Air Purifying Respirators 5000 Series with cartridge/filter approved for organic vapors, Advantage 200 LS Respirator plus cartridges/filters approved for organic vapors, and North 7700 series half mask face-piece with cartridges/filters approved for organic vapors. Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

For Emergency Medical Information: 1-800-222-1222
For Product Information: 1-800-424-3733
EPA Reg. No. 8383-13
HARD, NON-POROUS SURFACES, WALLBOARD, WOOD AND PAINTED OR SEALED CONCRETE, SEALED MASONRY OR SEALED CINDER BLOCKS: For hard, non-porous surfaces, wallboard, wood, and painted or sealed concrete, sealed masonry, or sealed cinder block, PeridoxRTU can treat 1,000 -2,700 square feet per gallon. For carpet or textiles, PeridoxRTU can treat 200-400 square feet per gallon. Use PeridoxRTU only with adequate ventilation and exhaust the air to the outdoors and wear appropriate PPE. Avoid contact with other sanitizers, cleaners or organic substances.

MOLD REMEDIATION: PeridoxRTU can be used as part of a comprehensive mold remediation program when the following five (5) steps are performed:

1. Repair the source of moisture (stop leaks, etc.) to eliminate conditions favorable to mold growth such as moisture ingress and high relative humidity and to prevent further mold growth and/or re-growth.
2. Set up adequate source containment of room or infected areas where applicable.
3. Clean the area/room to remove “fungal” material from surfaces and objects to be treated. Remove and discard or wash with soap and water and treat elsewhere all contaminated materials that are not readily cleanable or treatable in the area.
4. Apply PeridoxRTU to contaminated surfaces sufficient to maintain wet for 1 minute for hard, non-porous surfaces and 10 minutes for porous surfaces.
5. Remove source containment as appropriate and prepare area for re-use.

The following associations and Internet sites should be consulted for information standards and guidelines for remedial mold and mildew:

IAQA-Indoor Air Quality Association (www.iaqa.org)
EPA-Environmental Protection Agency (www.epa.gov)
DOH-New York City Department of Health (www.health.state.ny.us/environmental/indoors/air/mold.htm)

For Emergency Medical Information: 1-800-222-1222
For Product Information: 1-800-424-3733
EPA Reg. No. 8383-13
IICRC-Institute of Inspection, Cleaning and Restoration Certification (www.iicrc.org)

**Water Damage Remediation:** Remediation is required in situations where mold growth has occurred or materials have been wet for more than 48 hours. Even for materials that are dried within 48 hours, mold growth may have occurred. Note that mold growth will not always occur after 48 hours; this is only a guideline. Consult with local experts and professionals and/or refer to EPA guidance documents such as “Mold Remediation in Schools and Commercial Buildings”, www.epa.gov/mold/moldresources.html for more information on how to clean up after water damage.

**Source Containment:** Source containment is generally necessary only for some medium treatment areas (from 10 to 100 ft²), for all large treatment areas (> 100 ft²), or in those circumstances where cleaning and treatment may lead to spread of mold contamination to other areas, for example, by traffic, the movement of supplies or equipment, or as airborne contamination, or where it is desirable to contain airborne treatment aerosols, vapors, and mold. When source containment is used, a half-face or full-face respirator mask with cartridge for organic vapors or other approved respiratory protection must be used. See instructions for MOLD REMEDIATION PPE on this label.

Set up adequate source containment of room(s) or infected areas. Such containment may comprise one or more layers of plastic sheeting (e.g., polyethylene sheet), tape, or other physical barriers to the spread of contamination, cleaning solutions, or treatment solution. In many cases, a contained entry/egress area is recommended between uncontaminated areas and the contaminated area to be treated so that PPE, materials, and equipment can be treated or cleaned to avoid the spread of contamination.

**Cleaning:** Clean the area/room to remove “fungal” material from surfaces and objects to be treated. Remove and discard or wash and treat elsewhere all contaminated materials that are not readily cleanable or treatable in the area.

**For Emergency Medical Information:** 1-800-222-1222
**For Product Information:** 1-800-424-3733
**EPA Reg. No. 8383-13**
Cleaning procedures and methods depend on the size of the area and the type of material to be treated. For heavy mold infestations, it may be desirable to use PeridoxRTU for cleaning prior to treatment. Specific directions and recommendations are provided in this label. Contaminated materials removed from the area to be treated must be placed in a suitable, well-sealed container or bag, e.g., a well-sealed plastic bag, for removal and disposal by means consistent with applicable regulations. The outside of the containers or bags should be treated with PeridoxRTU to kill mold and to prevent spread of contamination. Select a method appropriate to the situation. Methods for cleaning specific types of materials are provided in this label. Since molds gradually destroy the things they grow on, if mold growth has not been addressed promptly, some items may be damaged such that cleaning will not restore their original appearance. If mold growth is heavy and items are valuable or important, you may wish to consult a restoration/water damage/remediation expert. Please note that these are guidelines.

**Application of PeridoxRTU:** Apply PeridoxRTU liquid directly to contaminated surfaces in sufficient amount to maintain wet for 1 minute for hard, non-porous surfaces and 10 minutes for porous surfaces. Application may be made by spraying, wiping with a clean cloth or sponge that is wet with PeridoxRTU, pouring, mopping, or brushing. Specific methods are provided in this label according to the size of the area and materials to be treated.

**Remove source containment:** After air drying of the treated surfaces, remove source containment as appropriate and prepare the area for re-use. Dispose of all removed materials and any used PeridoxRTU in a manner consistent with applicable regulations and the STORAGE and DISPOSAL instructions of this label.

---

For Emergency Medical Information: 1-800-222-1222  
For Product Information: 1-800-424-3733  
EPA Reg. No. 8383-13
DISINFECTION
Use PeridoxRTU as a disinfectant in Hospitals, Obstetrical Suites, Housekeeping Services, Physical Therapy Departments, Nursing Services, Autopsy Facilities, nursing homes, health-care facilities, schools, colleges, day-care centers, child-care facilities, veterinary clinics, animal life science laboratories, industrial facilities, dining areas (non-food contact surfaces), office buildings, recreational facilities, retail and wholesale establishments, as well as in transport vehicles including ships, planes, automobiles, trucks, trains, and EMS.

Combination Disinfection and Cleaning: PeridoxRTU is effective against Staphylococcus aureus, Salmonella enterica, Enterobacter aerogenes, Salmonella typhimurium, Listeria monocytogenes, Vibrio cholerae, and Pseudomonas aeruginosa and other bacteria listed in the Chart on hard, non-porous surfaces. For heavily soiled areas a pre-cleaning step is required. Apply PeridoxRTU with a spray applicator device, or other means that ensures that the surface is thoroughly wet. Allow surfaces to remain wet for 2 minutes; then, wipe with a dry, clean cloth. If the PeridoxRTU liquid becomes soiled (i.e., is not visibly clear) or diluted, replace and use fresh PeridoxRTU.

Virucidal*: PeridoxRTU is an effective viricide against Avian Influenza Virus Type A (H3N2), Influenza Virus Type A (H1N1), Norovirus, Poliovirus, Reovirus, Rhinovirus, Human Coronavirus and specific viruses listed on the chart on hard, non-porous inanimate surfaces with a 2 minute contact time in the presence of a 5% organic load. For heavily soiled areas a pre-cleaning step is required. Apply PeridoxRTU with a spray applicator device, or other means that ensures that the surface is thoroughly wet. Allow surfaces to remain wet for 2 minutes; then, wipe with a dry, clean cloth.

Fungicidal: PeridoxRTU can be used on hard, non-porous inanimate surfaces such as shower room floors, shower stalls, locker room benches, and hard, non-porous bath mats (plastic or rubber). At full strength (4.4% concentration of hydrogen peroxide and 0.23% concentration of peroxyacetic acid), this product
is effective against *Trichophyton mentagrophytes* (Athletes Foot Fungi), *Aspergillus niger* (mold), and *Candida albicans* (pathogenic yeast) in the presence of a 5% organic load with a 1 minute contact time. For heavily soiled areas a pre-cleaning step is required. Apply PeridoxRTU with a spray applicator device, or other means that ensures that the surface is thoroughly wet. Allow surfaces to remain wet for 1 minute; then, wipe with a dry, clean cloth.

**Sporicidal Disinfectant:** PeridoxRTU is effective against *Clostridium difficile* spores on hard, non-porous inanimate surfaces when used at full strength (4.4% concentration of hydrogen peroxide and 0.23% concentration of peroxyacetic acid) with a 3 minute contact. Apply PeridoxRTU with a spray applicator device, or other means that ensures that the surface is thoroughly wet. Allow surfaces to remain wet for 3 minutes; then, wipe with a dry, clean cloth.

**SPECIAL INSTRUCTIONS FOR CLEANING PRIOR TO [SPORICIDAL] DISINFECTION AGAINST CLOSTRIDIUM DIFFICILE SPORES**

**Personal Protection:** Wear appropriate barrier protection such as gloves, gowns, masks and eye covering.

**Cleaning Procedure:** Fecal matter/waste must be thoroughly cleaned from surfaces/objects before disinfection by application with microfiber cloth/pad, clean cloth and/or mop saturated with the disinfectant product. Cleaning is to include vigorous wiping and/or scrubbing, until all visible soil is removed. Special attention is needed for high-touch surfaces. Surfaces in patient rooms are to be cleaned in an appropriate manner, such as from right to left or left to right, on horizontal surfaces, and top to bottom, on vertical surfaces, to minimize spreading of the spores. Restrooms are to be cleaned last. Do not reuse soiled cloths.

**Infectious Materials Disposal:** Materials used in the cleaning process that may contain feces/wastes are to be disposed of immediately in accordance with local regulations for infectious materials disposal.

For Emergency Medical Information: 1-800-222-1222
For Product Information: 1-800-424-3733
EPA Reg. No. 8383-13
Specific Instructions for Blood-borne Pathogens: KILLS HIV AND HEPATITIS B VIRUS ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in healthcare settings and other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/body fluids, on surfaces or materials soiled with blood/body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS) and Hepatitis B Virus.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATING AGAINST HIV-1 (AIDS Virus) AND HEPATITIS B VIRUS OF SURFACE/OBJECTS SOILED WITH BLOOD/BODY FLUIDS:

Personal Protection: Disposable latex, nitrile, or vinyl gloves, gowns, face masks, or eye coverings as appropriate, must be worn during all cleaning of body fluids, blood, and decontamination.

Cleaning Procedure: Blood/body fluids must be thoroughly cleaned from surfaces/objects before application of this product.

Contact Time: Allow surface to remain wet for 2 minutes to kill HIV-1 and Hepatitis B virus. Use contact time listed for all other organisms claimed.

Disposal of Infectious Material: Blood/body fluids should be autoclaved and disposed of according to Federal, State, and local regulations for infectious waste disposal.

Tuberculocidal: PeridoxRTU microbicide is also effective against Mycobacterium bovis on hard, non-porous inanimate surfaces with a 5 minute contact time in the presence of a 5% organic load. For heavily soiled areas a pre-cleaning step is required. Apply PeridoxRTU with a spray applicator device, or other means that ensures that the surface is thoroughly wet. Allow surfaces to remain wet for 5 minutes; then, wipe with a dry, clean cloth.

For Emergency Medical Information: 1-800-222-1222
For Product Information: 1-800-424-3733
EPA Reg. No. 8383-13
Disinfection of Surfaces in Pharmaceutical and Cosmetic Processing Facilities: PeridoxRTU microbicide is recommended for use on hard, non-porous, environmental surfaces such as floors, walls and processing equipment in pharmaceutical and cosmetic processing facilities. It is effective against *Staphylococcus aureus*, *Salmonella enterica*, *Enterobacter aerogenes*, *Salmonella typhimurium*, *Listeria monocytogenes*, *Vibrio cholerae*, and *Pseudomonas aeruginosa* and other bacteria listed in the Chart and 5% blood serum. For heavily soiled areas a pre-cleaning step is required. Apply PeridoxRTU with a spray applicator device, or other means that ensures that the surface is thoroughly wet with a contact time of 2 minutes. Rinse with sterile water. Wipe with a dry, clean cloth. Air dry.

Disinfectant for Farm Premises: PeridoxRTU is recommended for use on hard, non-porous, environmental surfaces such as floors, walls, troughs, racks, appliances, and processing equipment on Farm Premises. It is effective against *Staphylococcus aureus*, *Salmonella enterica*, *Enterobacter aerogenes*, *Salmonella typhimurium*, *Listeria monocytogenes*, *Vibrio cholerae*, and *Pseudomonas aeruginosa* and other bacteria listed in the chart and 5% blood serum. For heavily soiled areas a pre-cleaning step is required.

Remove all animals and feed from premises, vehicles, and enclosures. Remove all litter and manure from floors, walls and surfaces of barns, pens, stalls, chutes, and other facilities and fixtures occupied or traversed by animals. Empty all troughs, racks, and other feeding and watering appliances. Thoroughly clean all surfaces with soap or detergent and rinse with water. Apply PeridoxRTU with a spray applicator device, or other means that ensures that the surface is thoroughly wet with a contact time of 2 minutes. Rinse with clean water. Wipe with a dry, clean cloth. Air dry.

For Emergency Medical Information: 1-800-222-1222

Immerse all halters, ropes, and other types of equipment used in handling and restraining animals, as well as forks, shovels, and scrapers used for removing litter and manure. If the PeridoxRTU liquid becomes soiled (i.e., is not visibly clear) or diluted, replace and use fresh PeridoxRTU.

Ventilate buildings, cars, boats, and other closed spaces. Do not house livestock or employ equipment until treatment has been absorbed, set, or dried. Thoroughly scrub all treated feed racks, mangers, troughs, automatic feeders, fountains, and waterers with soap or detergent, and rinse with potable water before reuse.

**Disinfectant for Poultry Houses and Poultry Hatcheries**: PeridoxRTU is recommended for use on hard, non-porous, environmental surfaces such as floors, walls, troughs, racks, feeders, fountains, appliances, and processing equipment in Poultry Houses and Poultry Hatcheries. It is effective against *Staphylococcus aureus, Salmonella enterica, Enterobacter aerogenes, Salmonella typhimurium, Listeria monocytogenes, Vibrio cholerae, and Pseudomonas aeruginosa* and other bacteria listed in the Chart and 5% blood serum. For heavily soiled areas a pre-cleaning step is required.

Remove all poultry and feeds from premises, trucks, coops, and crates. Remove all litter and droppings from floors, walls and surfaces of facilities occupied or traversed by poultry. Empty all troughs, racks, and other feeding and watering appliances. Thoroughly clean all surfaces with soap or detergent and rinse with water. Apply PeridoxRTU with a spray applicator device, or other means, that ensures that the surface is thoroughly wet with a contact time of 2 minutes. Rinse with clean water. Wipe with a dry, clean cloth. Air dry.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

WARNING. Causes substantial but temporary eye injury. Do not get in eyes or on clothing. Wear protective eyewear such as goggles, face shield, or safety glasses. Harmful if swallowed. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS: This product contains an oxidizing agent. Avoid contact with other sanitizers, cleaners or organic substances.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to birds, fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without appropriate dilution.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in original containers in a cool, dry area, away from direct sunlight. Do not allow product to become overheated in storage. Avoid prolonged storage temperature above 40°C, 104°F. This may cause increased degradation of the product, which will decrease product effectiveness. In case of spill, flood area with large quantities of water.

DISPOSAL: Wastes resulting from the use of this product must be disposed of onsite or at an approved waste disposal facility.

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. If empty, wrap container and put in trash or offer for recycling, if available. If partly filled, call your local solid waste agency for disposal instructions.

WARRANTY

This material is safe and effective under the conditions of application as specified in the Directions for Use. To the fullest extent permitted by law, the manufacturer shall not be liable for improper application or use of this product beyond those purposes referred to in the Directions for Use. NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY IS MADE.
