May cause irritation or sensitization of the skin. May cause irritation of the skin. May cause headache. May cause respiratory irritation. May cause eye irritation. May cause irritation or sensitization of the skin. May cause dermatitis.

Hazardous to birds and other animals. May cause death. May cause respiratory irritation. May cause eye irritation. May cause dermatitis.

PHYSICAL AND CHEMICAL HAZARDS
Dust of chlorine dioxide is very fine, composed of very small particles. Solutions of chlorine dioxide are corrosive under all conditions. These products are very unstable. Do not mix with damp or wet materials. Do not mix with water. Solutions of chlorine dioxide are almost totally miscible with water. Solutions of chlorine dioxide may be flashed to boiling under pressure. Solutions of chlorine dioxide are unstable in the presence of strong oxidizers, reducing agents, organic matter, dirt, organic matter, pine oil, dirty rags, or any other foreign matter.

Stabilizers, such as sodium thiosulfate, are added to reduce the reactivity of chlorine dioxide solutions. Stabilized solutions may contain from 50% to 100% by weight of chlorine dioxide.

FIRST AID
If in eyes:

• Rinse eyes immediately with large quantities of water for 15-30 minutes.
• Remove contact lenses, if present. After the first 5 minutes, then continue rinsing eyes.
• Call a poison control center or doctor immediately for treatment advice.

If on skin or clothing:

• Take off contaminated clothing.
• Wash skin and exposed parts with plenty of water for 15-20 minutes.
• Call a poison control center or doctor immediately for treatment advice.

If swallowed:

• Have the person take a glass of water.
• If the person is in good condition, call a poison control center or doctor immediately for treatment advice.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything to an unconscious person.

If inhaled:

• More person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration if needed. Call a poison control center or doctor immediately for treatment advice.

KEEP OUT OF REACH OF CHILDREN
DANGER/POISON
Use only as directed.

WARNING:

This product contains chlorine dioxide. Inhalation of chlorine dioxide fumes can cause irritation of the eyes and respiratory system. Solutions of chlorine dioxide can be corrosive to the skin. Solutions of chlorine dioxide can be hazardous when mixed with water or other materials. This product contains substances that can be harmful to birds and other animals.

Do not contaminate water, food or feed by storage or disposal.
