PROOF Bed Bug & Dust Mite Killer smells strong... and it works.

PROOF Bed Bug & Dust Mite Killer kills bed bugs in all life cycles and keeps killing adults for up to 2 weeks and eggs for up to 3 weeks when used as directed. This plant-based spray is even effective against pesticide-resistant bed bugs and eggs. It also kills 100% of dust mites when sprayed directly.

PROOF Bed Bug & Dust Mite Killer’s patent-pending technology unleashes the botanical power of neem to create a zone of protection at home and while traveling.

STOP - Read the Label Before Use. Shake well prior to use.

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read the Label Before Use. See inside for further Directions for Use, Precautionary Statements, Storage and Disposal.

Check your local area’s regulations for proper use of this product under expected conditions. To the extent consistent with applicable law, user assumes responsibility for the lack of performance or safety if not used as directed.

PRECAUTIONARY STATEMENTS

Physical and Chemical Hazards
Do not apply this product around electrical equipment due to the possibility of shock hazard.

General Precautions
• Make small inconspicuous spot treatments to test all surfaces and fabrics for colorfastness, discoloration or damage before use.
• Do not apply this product around electrical outlets or to other potential electrocution hazards.
• Do not apply directly to electrical outlets or to other potential electrocution hazards.
• Do not apply to humans or animals

DIRECTIONS FOR USE

To Kill Bed Bugs: Spray bed bugs or eggs directly, and/or apply as a surface spray to indoor surfaces, fabrics and materials on which bed bugs may harbor, hide or lay eggs (e.g. mattresses, box springs, under beds, bed frames, headboards, lures, and under and behind night stands, curtains, suitcases, carpets, dressers, points where carpets and wall meet, moldings), Pay particular attention to tufts, folds, edges, cracks and crevices.

• For ongoing control of bed bugs and eggs, re-apply every 1 to 2 weeks or as needed.
• For ongoing control of bed bug eggs only, re-apply every 2 to 3 weeks or as needed.

To Kill Dust Mites: Spray as desired to indoor surfaces, fabrics and materials and keep. 100% of dust mites when sprayed directly.

WARNING: Do not apply to humans or animals. Do not apply to the immediate area surrounding electrical outlets.

Storage and Disposal
Store in a cool dry place out of reach of children and pets and away from direct sunlight, windows, flames and other sources of heat or oxygen. Keep containers tightly closed and in original containers when not in use. Do not store exposed to ultraviolet light (sunlight) or moisture. Non-refillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTICE: Research and testing have determined that the "Directions for Use" are appropriate for the proper use of this product under expected conditions. In the event product is used in a manner inconsistent with applicable laws, user assumes responsibility for the lack of performance or safety if not used as directed.
