Algaecide
Kills and prevents algae
Non-foaming formula

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a
manner inconsistent with its labeling. READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

WHY YOU SHOULD USE THIS PRODUCT:
This is an effective, non-foaming algaecide that, when
used regularly, will prevent and kill green algae in spas
and hot tubs. For best results, use with other Spa
Selections™ products.

HOW TO USE:
Always apply chemicals separately. Never combine
them. This product works best when added in several
places by itself directly to spa or hot tub water with the
pump running. Continue to keep the pump running for at
least 30 minutes after addition of algaecide. Wait 15
minutes before entering the spa. Spas or hot tubs with
heavy growth of algae must be cleaned prior to using
this product.

INITIAL DOSE: Add 1 fl. oz. per 400 gallons water. Initial
dose is used upon filling of spa or hot tub.

For visible algae growth or slimy interior, treat with
“Initial Dose.” Remove algae debris. For maximum
effectiveness, drain and clean spas or hot tubs
containing heavy algae growth prior to treatment. Drain
and clean spa or hot tub at least once a month or as
needed depending on bather load.

MAINTENANCE DOSE: After initial treatment, to keep
your spa free of algae growth, add 1/4 fl. oz. per 400
gallons every 5-7 days. This algaecide can be used in
conjunction with chlorine or bromine sanitizer systems.

Alpharetta, GA 30004

First Aid:

IF IN EYES: Hold eye open and rinse slowly and
particularly with water for 15-20 minutes. Remove
contact lenses, if present, after the first 5 minutes, then
continue rinsing eye. Call a poison control center or
doctor for treatment advice.

IF SWALLOWED: Call poison control center or doctor
immediately for treatment advice. Have person sip a
glass of water if able to swallow. Do not induce
vomiting unless told to do so by the poison control
center or doctor. Do not give anything by mouth to an
unconscious person.

Have the product container or label with you when
calling a poison control center or doctor. Do not give
anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: Probable mucosal damage
may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARDS:
This pesticide is toxic
to fish and aquatic organisms.

STORAGE & DISPOSAL
Keep this product in its tightly closed container when
not in use. Rinse off any equipment. Do not wash or
refill this container. Rinse empty container thoroughly
with water prior to disposal. Offer for recycling if
available. Do not contaminate food or feed by storage
or disposal of equipment.
