DELAVAL CLEANING SOLUTIONS
1883-K1115

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. FOOD PROCESSING AND DAIRY EQUIPMENT: Remove gross food particles and soil by a pre-flush or pre-scrape, and when necessary, pre-soak treatment. Clean all surfaces with a chlorinated alkaline cleaner, followed by the acid wash in the application of the sanitizing solution. Sanitize equipment prior to use with the solution of 1 to 2 ounces of the product for 1 to 2 minutes. For further treatment, the prepared use solution may not be reused for sanitizing, but may be reused for other purposes such as cleaning. For manual operations, fresh sanitizing solution should be prepared daily or more often if the solution becomes dirty or soiled. Follow State and Local Health Department Regulations for cleaning and sanitizing food processing and dairy equipment. Regular use of MEGA-SAN® can prevent formation of milkstone and mineral stone on food contact surfaces.

STORAGE AND DISPOSAL:

STORAGE: Keep container closed when not in use. Do not store below 0 °F for extended periods.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple-rinse (or equivalent) promptly after emptying.

PESTICIDE DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of pesticide wastes or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, dispose of in a sanitary landfill, or incinerate, or, if allowed by State and local authorities, burn container. If burned, stay out of smoke.
