- Oxidizes
- Controls Algae
- Clarifies & Conditions
- Maintains Water Balance
- Inhibits Stain and Scale

**E-Z POOL**

**CONCENTRATED POOL BLEND**

Formulated for compatibility and use with traditional sanitizers including chlorine, bromine, ozone, UV and chlorine generators (salt)

**WARNING**

KEEP OUT OF REACH OF CHILDREN

See back panel for additional precautionary statements.

EPA REG. No. 70131-1
EPA EST. No. 37360-TN-1

**ACTIVE INGREDIENT:**

Copper Sulfate Pentahydrate* . . . . 1.6%

CAS No. 7758-99-9

OTHER INGREDIENTS: ............... 98.4%

* Metallic Copper Equivalent 0.4%

**NET WEIGHT:** 5 lbs. (2.27 kg)
E-Z Pool® Concentrated Pool Blend

Formulated for compatibility and use with traditional sanitizers including chlorine, bromine, ozone, UV and chlorine generators (salt)

SO SIMPLE!
Just add once-a-week

WARNING
KEEP OUT OF REACH OF CHILDREN
See back panel for additional precautionary statements.

EPA REG. No. 70131-1
EPA EST. No.37560-TN-1

NET WEIGHT: 5 lbs. (2.27 kg)

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes substantial but temporary eye injury. Do not get in eyes or on clothing. Harmful if swallowed. Wear protective eyewear (goggles or face shield). Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before re-use.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Mixers, loaders, applicators, and other handlers must wear the following:
- long-sleeved shirt.
- long pants.
- shoes plus socks.

USER SAFETY REQUIREMENTS
Follow manufacturer’s instructions for cleaning/monitoring PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS
Users should wash hands before eating, drinking, chewing gum, using tobacco, and using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS
The pesticide is toxic to fish and aquatic invertebrates and may contaminate water through runoff. This product has a potential for runoff for several months or more after application. Poorly draining soils and soils with shallow water tables are more prone to produce runoff that contains this product. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State Or Tribe, contact the State or Tribal agency responsible for pesticide regulation.

E-Z STARTUP

1. TEST AND REVIVE®
Take a water sample to your Authorized Dealer for testing. Treat pool water with Revive! to remove phosphates, metals, debris and to activate the NO Algae Guarantee.

2. VACUUM AND BALANCE
Once debris completely settles (typically 24 hours), vacuum pool bottom, thoroughly clean filter, then balance pool water as follows:
- Calcium Hardness: 350 ppm (min)
- pH: 7.2 - 7.6
- Total Alkalinity: 80 - 120 ppm

3. E-Z DAY
NOTE: At the beginning of each season, and for all new pools, a double-dose is required on the initial application to “charge” the water.

Add E-Z POOL to pool water according to dosage chart preferably near a return jet, and add sanitizer in accordance with product directions to skimmer, feeder or floater to maintain desired level.

Chlorine Generators (salt): Add stabilizer to maintain 50 ppm and adjust generator setting accordingly.

WEEKLY: Repeat E-Z DAY
MONTHLY: Take a water sample to your Authorized Dealer for testing.
### Above Ground Pools

**NOTE:** Fill scoop to “fill line.”

**Storage and Disposal:**

- Do not contaminate food or feed by storage or disposal or cleaning of equipment.

### Pesticide Storage:

- Keep this product dry in the enclosed container when not in use. Do not replace moist scoop into container. Store in a cool, dry, well-ventilated area away from heat or open flame.
- In case of decomposition, isolate container(s), if possible, and flood area with large amounts of water to dissolve all materials before discarding this container. Do not reuse empty container but place in trash collection.

### Container Disposal:

- Do not reuse empty container but place in trash container after rinsing with water. Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or if allowed by state and local authorities.
- If burned, stay out of the smoke.

**NOTE:** When using with chlorine generators (salt), mineral purifiers, or ozone/UV systems, use 50% of dosage listed in chart weekly.

**Winterizing** (pool closing)

- E-Z POOL simplifies seasonal pool closing / winterizing for traditional chlorine, bromine, salt water, or E-Z POOL treated pools in one E-Z application. No pre-treating or balancing is needed — just add E-Z POOL to oxidize contaminants and protect from algae through the winter season. Spring openings are faster, water is cleaner and you can swim sooner with E-Z POOL winterizing.

**Winterizing Dosage:** Apply 2.5 times the normal weekly dosage for pools (see charts).

**First Aid:**

- Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**If In Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present, after the first five minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**If Swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**If On Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 – 20 minutes. Call a poison control center or doctor for treatment advice.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 and give artificial respiration, mouth-to-mouth if possible. Call a doctor or a poison control center for further treatment advice.

**NOTE TO PHYSICIAN – HOT LINE NUMBER**

Probably mucosal damage may contraindicate the use of gastric lavage. You may also contact 1-800-285-3924 for emergency medical treatment information.
