3.0 PRECAUTIONARY STATEMENTS

1 Hazards to Humans and Domestic Animals

Keep out of reach of children. CAUTION! CAUSES MODERATE EYE IRRITATION

2 Environmental Hazards

This product contains ingredients that may be harmful if inhaled, swallowed, or absorbed through the skin. For additional information about the hazards of pesticide inhalation, contact your local poison control center or a hospital emergency department.

3.1 Hazards to Humans and Domestic Animals

When using this product, follow the label directions for Personal Protective Equipment (PPE) and restricted-entry requirements for the protection of agricultural workers on farms, residential sites, and other use sites.

3.2 Mixing for Hand-Held Sprayers

Hand-held sprayer operators should make a rate of 2 gallons of spray solution per acre. Using the measuring scoops provided in the product packaging, follow the manufacturer’s instructions for measuring the required number of scoops of the product.

4.0 APPLICATION EQUIPMENT AND TECHNIQUES

Apply this product uniformly by means of adequately atomized spray. Use water-soluble bags, dry flowables, emulsifiable concentrates, drift control devices, and other techniques that minimize drift. Avoid applying at excessive speed or pressure. Combinations of high speed and pressure, such as 10 miles per hour and 250 pounds per square inch, should be avoided. When spraying, avoid combinations of wind speed and temperature that favor spray drift. When spraying, avoid combinations of wind speed and temperature that favor spray drift. When spraying, avoid combinations of wind speed and temperature that favor spray drift. When spraying, avoid combinations of wind speed and temperature that favor spray drift.

5.0 GENERAL INFORMATION

Product Description: This product contains active ingredients selected for their herbicidal activity. Weeds stressed by drought are less susceptible to this product. Use only if weather conditions are favorable for the desired weed control. Where to Use: Best results are obtained when target weeds are actively growing and not drooping for at least 5 days before and 2 days after treatment.

6.0 MIXING WITH Water

This product mixes readily with the sprayer solutions of this product. Fill 200 gals. with about 500 gallons of the desired final volume. Add the labeled amount of this product. Continue the filtering process throughout the spraying operation. For the final 5 minutes of the filtering process.

8.0 IMPORTANT DIRECTIONS FOR USE

This product is a U.S. Environmental Protection Agency (EPA)-registered herbicide. The use of this product is subject to the conditions of the EPA registration label. Use this product only as directed. Use only in accordance with the directions on the label. Refer to the EPA’s website at www.epa.gov/pesticides for more information on EPA registration labels.

9.0 PRODUCT DESCRIPTION

Certainty Turf Herbicide is a selective broadleaf weed control product that is used for the selective control of the weeds listed in this section. It is effective on a variety of weeds, including annual and perennial broadleaf weeds. For additional information about the hazards of pesticide inhalation, contact your local poison control center or a hospital emergency department.

10.0 CLEANUP AND REMEDIATION

Cleaning of equipment prior to storage or movement is necessary to prevent the spread of weed seeds to uncontaminated areas. Clean equipment by washing with water and a cultural detergent. After washing, rinse equipment thoroughly with water. Use a cultural detergent or other approved product to prevent the spread of weed seeds to uncontaminated areas. Use a cultural detergent or other approved product to prevent the spread of weed seeds to uncontaminated areas. Use a cultural detergent or other approved product to prevent the spread of weed seeds to uncontaminated areas. Use a cultural detergent or other approved product to prevent the spread of weed seeds to uncontaminated areas. Use a cultural detergent or other approved product to prevent the spread of weed seeds to uncontaminated areas. Use a cultural detergent or other approved product to prevent the spread of weed seeds to uncontaminated areas.
### 18 OTHER USES:

For control of annual or perennial weeds listed in this section, apply at 1.25 ounces per acre may be made 4 or more weeks after the initial treatment. If application is made more than 4 weeks after the initial treatment, use 1.25 ounces per acre. Be sure to follow all label instructions and recommendations.

### 10.3 Additional Weeds Controlled

For selective control or suppression of annual or perennial weeds listed in this section, apply at 1.25 ounces per acre may be made 4 or more weeks after the initial treatment. If application is made more than 4 weeks after the initial treatment, use 1.25 ounces per acre. Be sure to follow all label instructions and recommendations.

### 10.4 LIMIT OF LIABILITY AND LIABILITY DISCLAIMER

Vegetal USA, Inc. recommends that the product conforms to the chemical combination on the label and in the manner prescribed by the user. Use of this product in accordance with the directions and precautions on the label is the exclusive remedy and the maximum liability of the user. In no event shall the user be liable for any losses or damages by or resulting from the use of this product, or from any direct, indirect, special, incidental, or consequential injury or damage suffered by the user or the use of this product. This product is not intended for use in or on water. This product is not intended for use on food-producing plants. This product is not intended for use in or on any food stuffs for which the product is intended or for use on any part of the food chain. Use of this product may result in damage to the environment, personal injury, or death. Use of this product may result in damage to the environment, personal injury, or death. ### 10.8 ADDITIONAL INFORMATION

Some weeds may not be killed or suppressed by this product. This product is not intended for use in or on any food stuffs for which the product is intended, or for use on any part of the food chain. Use of this product may result in damage to the environment, personal injury, or death.

### 10.9 ADDITIONAL INFORMATION

Some weeds may not be killed or suppressed by this product. This product is not intended for use in or on any food stuffs for which the product is intended, or for use on any part of the food chain. Use of this product may result in damage to the environment, personal injury, or death.

### 10.10 ADDITIONAL INFORMATION

Some weeds may not be killed or suppressed by this product. This product is not intended for use in or on any food stuffs for which the product is intended, or for use on any part of the food chain. Use of this product may result in damage to the environment, personal injury, or death.

### 10.11 ADDITIONAL INFORMATION

Some weeds may not be killed or suppressed by this product. This product is not intended for use in or on any food stuffs for which the product is intended, or for use on any part of the food chain. Use of this product may result in damage to the environment, personal injury, or death.
Certainty Turf Herbicide is a selective herbicide for control of annual and perennial grass and broadleaf weeds in highly managed turf, ornamental and native grass sites.

Keep out of reach of children. CAUTION! CAUSES MILD EYE IRRITATION. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

FIRST AID

IF IN EYES

• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes.
• Call a poison center or physician for treatment advice.

IF IN SKIN

• Wash thoroughly with soap and water.

IF IN MOUTH

• Rinse mouth or give 2-3 teaspoons of water.

INHALE

• Move to fresh air.

IN CASE OF FIRE

• Use water雾 fora small fire.
• Do not use water from a hose.

STORAGE

• Store under cool, dry conditions (below 120°F). Do not store under moist section for information about this standard.

PRODUCT SIZE:

10-3/4"(w) x 6"(h)

DATE:

9-14-16

DIRECTIONS FOR USE

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. Refer to supplemental labeling under "AGRICULTURAL USE REQUIREMENTS" in the DIRECTIONS FOR USE section for information about this standard.

Agricultural Use Requirements

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. Refer to supplemental labeling under "AGRICULTURAL USE REQUIREMENTS" in the DIRECTIONS FOR USE section for information about this standard.

Non-Agricultural Use Requirements

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard (40 CFR Part 170) for agricultural pesticides. The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries or greenhouses. Keep people and pets off treated areas until spray solution has dried.

Environmental Hazards

This chemical demonstrates the properties and characteristics associated with chemicals detected in ground water. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in ground water contamination.

This pesticide is highly toxic to non-target plants. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to plants in neighboring areas. Do not contaminate water when cleaning equipment or disposing of equipment washwaters or rinsate.

The use of any pesticide in a manner that may kill or otherwise harm an endangered species or adversely modify their habitat is a violation of Federal Laws.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

User Safety Recommendations

Users should:

• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

• Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

• Wipe all surfaces that may have come in contact with the material with soap and water.

• Remove contaminated clothing if feasible. If clothing is not feasible to remove, it should be treated as contaminated and disposed of properly.

• Do not contaminate water, food, or feed by storage and disposal.

Precautionary Statements

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Never apply Certainty Turf Herbicide to trees, shrubs, or lawn grasses. Do not apply Certainty Turf Herbicide near a water course, where mowing or irrigation may cause runoff into a water course.

Drift and runoff may contaminate ground and surface water. Do not contaminate water when cleaning equipment or disposing of equipment washwaters or rinsate. When disposing of equipment washwaters or rinsate, the following procedures should be followed:

• Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

• Do not contaminate water, food, or feed by storage and disposal.

• Pesticide Storage:

Do not contaminate water, food, or feed by storage and disposal. Pesticide Storage: Store under cool, dry conditions (below 120°F). Do not store under moist conditions.

• Pesticide Disposal:

To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry).

• Container Handling:

Nonrefillable container. Do not reuse or refill this container.
