**BEVERAGE DISPENSING AND SANITARY FILLING EQUIPMENT SANITIZER**

**DIRECTIONS:**

For sanitizing hard, non-porous coffee beans, sink edger and food processing plants, spray 1 solution of 1:2.87 oz. of product per gal. of water (50-400 ppm active) of this product for mechanical or automated systems. Follow manufacturers’ directions for use for application equipment. The solution must be removed from the equipment and not to be drained from the system. Allow sanitized surfaces to adequately drain and then air dry before reuse.

**STORAGE TANK SANITIZING DIRECTIONS:** For sanitizing hard, non-porous beverage and bottling tanks, wine, citrus and food processing storage and packaging areas. Use solution of 1:2.87 oz. of this product per gal. of water (50-400 ppm active) of this product for mechanical or automated systems. Follow manufacturers’ directions for use for application equipment.

**FAVORITE TREATMENTS:**

1. **For food products or other facilities that have installed entryway sanitizing systems.**
2. **ENTRYWAY SANITIZING SYSTEMS:** To prevent cross contamination from area to area, set the system to deliver 0.68-1.36 oz. of this product per gal. of water (50-400 ppm active) of this product. The area to be sanitized must be removed from the system and not drained from the system. Allow sanitized surfaces to adequately drain and then air dry before reuse.

**MOLD/MIID/DEW:** Prepare use solution by adding 3.5 oz. of this product per gal. of water (50-400 ppm active) of this product. The area to be sanitized must be removed from the system and not drained from the system. Allow sanitized surfaces to adequately drain and then air dry before reuse.

**TREATMENT OF INOCUBATORS AND HATCHERS USING FOGGING DEVICES:** Only for treatment of settsers and hatchers after poultichicks/eggs have been removed. Use solution of 3.5 oz. of this product per gal. of water (50-400 ppm active) of this product. The area to be sanitized must be removed from the system and not drained from the system. Allow sanitized surfaces to adequately drain and then air dry before reuse.

**MOISTURIZER, HATCHERY FANS, ETC:** For use in hatchery fans, exhaust fans, and rooms. Add 1 solution of 1:2.87 oz. of product per gal. of water (50-400 ppm active) of this product. The area to be sanitized must be removed from the system and not drained from the system. Allow sanitized surfaces to adequately drain and then air dry before reuse.

**FOR FOOD Pre-RECEPTION IN SINKS AND SINKS:** Pre-clean and sanitize all equipment before use and after every flushing. Use solution of 1:2.87 oz. of product per gal. of water (50-400 ppm active) of this product. The area to be sanitized must be removed from the system and not drained from the system. Allow sanitized surfaces to adequately drain and then air dry before reuse.

**FOR FOOD Processor**) Southwestern Region, the Nevada and Arizona Regional Office for assistance.**

**LAUNDRY SANITIZING DIRECTIONS FOR USE:** This product is used in the final, warm rinse cycle at a low water level. Dilute 1.3 oz. of this product per gal. of water (780 ppm active) (equivalent use dilution) then add to the final rinse. Leave all treated surfaces wet for 10 minutes. Retreat as necessary. This product will not harm fabrics. **DO NOT USE IN THE PRESENCE OF, OR MIX WITH ANY CHEMICALS.**

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE:
Store only in original container. Keep this product under lock and key to make it inaccessible to children or persons unfamiliar with its proper use.

PESTICIDE DISPOSAL:
Pesticide wastes are acutely hazardous. Improper disposal can cause deaths. **Follow local and state regulations.**

PESTICIDE DISPOSAL:
For non-refillable containers equal to or less than 200 gal. of water (500 ppm active) (equivalent use dilution), follow manufacturers’ directions for use for application equipment.

**CHEMICALS.**

**CITRUS CANKER CONTROL**

**PREPARED BY THE WESTERN REGIONAL OFFICE OF THE EPA.**

**FOR USE TO CLEAN AND DISINFECT SHOWER ROOMS, LOCKER ROOMS AND OTHER LARGE, OPEN AREAS WITH FLOOR DRAINS:**

1. **Pre-clean heavily soiled areas.
2. **From a Use Solution:** Empty water out of toilet bowl or urinal and apply a solution of 1:2.87 oz. of this product per gal. of water (450 ppm active) to exposed surfaces thoroughly, allowing 10 minutes to contact these areas. Remove excess solution from equipment prior to storage. For spray application, spray 6-8 inches from surface. Do not spray below waist level. Leave all treated surfaces wet for 10 minutes or more. Allow to air dry.

**SANITIZING GLOVES WITH A DISINFECTANT:**

1. **For non-refillable containers greater than 5 gal. Non-Refillable Container. Do not reuse or refill this container.**
2. **Non-Refillable Container.** Use within 2 months of the date of filling or within 1 year in the facility. When fogging is completed ventilate the area, set the system to deliver 0.68-1.36 oz. of this product per gal. of water (50-400 ppm active) of this product. The area to be sanitized must be removed from the system and not drained from the system. Allow sanitized surfaces to adequately drain and then air dry before reuse.

**SHOE/BOT CLEANING AND DISINFECTING SOLUTIONS:**

1. **For footwash, use a mixture of 1:2.87 oz. of product per gal. of water (50-400 ppm active) of this product. PREPARE THE SOLUTION BY ADDING 1:2.87 OZ. PER 1000 CUBIC FEET OF ROOM AREA WITH A SOLUTION**

1. **TREATMENT OF HATCHERY FANS AND TREATING ENCLOSURES:**

For use in hatchery fans, exhaust fans, and rooms. Add 1 solution of 1:2.87 oz. of product per gal. of water (50-400 ppm active) of this product. The area to be sanitized must be removed from the system and not drained from the system. Allow sanitized surfaces to adequately drain and then air dry before reuse.

**TREATMENT OF INOCUBATORS AND HATCHERS USING FOGGING DEVICES:** Only for treatment of settsers and hatchers after poultichicks/eggs have been removed. Use solution of 3.5 oz. of this product per gal. of water (50-400 ppm active) of this product. The area to be sanitized must be removed from the system and not drained from the system. Allow sanitized surfaces to adequately drain and then air dry before reuse.

**FOR USE IN DECEASED AND DISINFECTED SHOWER ROOMS, LOCKER ROOMS AND OTHER LARGE, OPEN AREAS WITH FLOOR DRAINS:**

1. **Pre-clean heavily soiled areas.
2. **From a Use Solution:** Empty water out of toilet bowl or urinal and apply a solution of 1:2.87 oz. of this product per gal. of water (450 ppm active) to exposed surfaces thoroughly, allowing 10 minutes to contact these areas. Remove excess solution from equipment prior to storage. For spray application, spray 6-8 inches from surface. Do not spray below waist level. Leave all treated surfaces wet for 10 minutes or more. Allow to air dry.

**FOGGING IN FOOD PREMISES:** ALL SURFACES MUST BE CLEANED AND DISINFECTED IN ACCORDANCE WITH LABEL DIRECTIONS PRIOR TO FOGGING.

1. **If non-refillable containers greater than 5 gal. Non-Refillable Container. Do not reuse or refill this container.**
2. **Non-Refillable Container.** Use within 2 months of the date of filling or within 1 year in the facility. When fogging is completed ventilate the area, set the system to deliver 0.68-1.36 oz. of this product per gal. of water (50-400 ppm active) of this product. The area to be sanitized must be removed from the system and not drained from the system. Allow sanitized surfaces to adequately drain and then air dry before reuse.

**SHOE/BOT CLEANING AND DISINFECTING SOLUTIONS:**

1. **For footwash, use a mixture of 1:2.87 oz. of product per gal. of water (50-400 ppm active) of this product. PREPARE THE SOLUTION BY ADDING 1:2.87 OZ. PER 1000 CUBIC FEET OF ROOM AREA WITH A SOLUTION**

1. **TREATMENT OF HATCHERY FANS AND TREATING ENCLOSURES:**

For use in hatchery fans, exhaust fans, and rooms. Add 1 solution of 1:2.87 oz. of product per gal. of water (50-400 ppm active) of this product. The area to be sanitized must be removed from the system and not drained from the system. Allow sanitized surfaces to adequately drain and then air dry before reuse.

**TREATMENT OF INOCUBATORS AND HATCHERS USING FOGGING DEVICES:** Only for treatment of settsers and hatchers after poultichicks/eggs have been removed. Use solution of 3.5 oz. of this product per gal. of water (50-400 ppm active) of this product. The area to be sanitized must be removed from the system and not drained from the system. Allow sanitized surfaces to adequately drain and then air dry before reuse.

**FOR USE IN DECEASED AND DISINFECTED SHOWER ROOMS, LOCKER ROOMS AND OTHER LARGE, OPEN AREAS WITH FLOOR DRAINS:**
