HIGH SURFACTANT METHYLATED OIL CONCENTRATE

FOR USE WITH HERBICIDES THAT REQUIRE OIL-BASED ADJUVANTS

PRINCIPAL FUNCTIONING AGENTS
Soybean Oil, Methyl Esters................................................................. 64.0%
Oxirane, Methyl-., Polymer with Oxirane, Monoether with 2-Ethylhexanol........... 10.9%
Constituents Ineffective as Spray Adjuvants........................................... 25.1%
Total.................................................................................................... 100.00%

All ingredients are exempt from tolerance according to 40 CFR 180
Surfactant Content : 10.9%

KEEP OUT OF REACH OF CHILDREN
DANGER/PELIGRO

(If you do not understand the label, find someone to explain it to you in detail.)

HAZARD STATEMENTS: Causes severe skin burns and eye damage. Harmful to aquatic life.
PRECAUTIONARY STATEMENTS: Do not breathe mist or vapor. Wash thoroughly after handling. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection.
ENVIRONMENTAL HAZARDS: Hazardous to the aquatic environment.

Call a POISON CENTER or doctor/physician if you feel unwell.
For Chemical Emergency (spill, leak, fire or accident), call CHEMTREC (800) 424-9300
If swallowed: Rinse mouth. Do NOT induce vomiting.
If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.
If inhaled: Remove person to fresh air and keep comfortable for breathing.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor.
Dispose of contents and containers in accordance with local, regional, national and international regulations.

NET CONTENTS:
2.5 US GAL (9.463 L)
ORO-HSMOC is a highly concentrated adjuvant used, in general, at half the rate of methylated seed oil (MSO) adjuvants. ORO-HSMOC can be applied with a broad range of pesticides where methylated seed oil-based adjuvants are recommended. ORO-HSMOC is effective in the spreading and the penetration of post-emergent herbicides.

**DIRECTORS FOR USE**

Prior to use, read all directions on this label and on the labels of the manufacturers’ pesticides or nutrients being used with this product. The manufacturers’ labels for specific usage and restrictions has precedence over directions for use on the ORO-HSMOC label. Conduct a jar test to confirm compatibility with the specific products to be tank mixed. Always test new tank-mix combinations before widespread use. If unsure, check with the manufacturers or contact your local State Extension Service if you have questions. To ensure thorough mixing, it is suggested that you recirculate mini tanks and bulk tanks or shake containers before using. DO NOT combine with other surfactants. Residues in tanks and spray lines, from previous chemicals sprayed, may be dissolved by ORO-HSMOC, releasing them into the mix about to be sprayed. Prior to the first use of ORO-HSMOC, pre-rinse all tanks, spray lines or containers thoroughly before adding ORO-HSMOC. Add 20 ounces of ORO-HSMOC to 20 gallons of water, circulate thoroughly for 20 minutes, and spray to waste.

**PRECAUTIONS**

- Due to high surfactant load, test ORO-HSMOC with post-emergent tank mix combinations prior to widespread use to minimize phytotoxicity risk.
- Due to the high surfactant content, DO NOT USE between V10 and VT stages on corn.
- FOR USE WITH PESTICIDES REGISTERED FOR AGRICULTURAL, FORESTRY, INDUSTRIAL, NON-CROP, RIGHTS OF WAY AND OTHER APPROPRIATE USES.
  
  NOTE: NOT FOR AQUATIC USE.

**MIXING**

Shake well before use. In the absence of specific mixing instructions found on the pesticide label, fill spray or mix tank 1/2 to 2/3 with water. Commence agitation and continue throughout the whole mixing and spraying process. Add pesticides and/or other tank mix components. Complete filling of tank with water. Add ORO-HSMOC last. ORO-HSMOC can be applied by ground and aerial applications.

NOTE: Test stability and pH of the tank mix before adding any buffer or other adjuvants.

**RECOMMENDED RATES**

ORO-HSMOC should be applied at a rate of 8 fl. oz. – 64 fl. oz. (0.0625 – 0.5% v/v) per 100 gallons of spray solution in ground, aerial, low volume or CDA applications. Use lower rates for in-season, over-the-top applications.

**STORAGE AND DISPOSAL**

**PROHIBITIONS:** Do not contaminate water, food or feed by storage, disposal or cleaning of equipment.

**STORAGE:** Store in original tightly closed container. Store away from incompatible materials. Handle in accordance with Precautionary Statements. In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent materials. Scrape up and dispose in accordance with Product Disposal.

**PRODUCT DISPOSAL:** Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

**CONTAINER DISPOSAL:** Triple rinse container and pour rinsate into spray tank. Do not reuse container. Recycling decontaminated containers is the best option of container disposal. Dispose of contents/container in accordance with local/national regulations. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit www.acrecycle.org.

**NOTICE OF WARRANTY**

CONDITIONS OF SALE-LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES: Read the Conditions of Sale-Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions on this label are believed to be reliable and should be followed carefully. Insufficient performance and/or injury to the crop to which the product is applied may result from the occurrence of extraordinary or unusual weather conditions or the failure to follow the label directions or good application practices, all of which are beyond the control of Oro Agri, Inc. (the “Company”) or seller. In addition, failure to follow label directions may cause injury to crops, animals, man or the environment. The Company warrants that this product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the Directions For Use subject to the factors noted above which are beyond the control of the Company. The Company makes no other warranties or representations of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose, and no such warranty shall be implied by law. The exclusive remedy against the Company for any cause of action relating to the handling or use of this product shall be limited to, at Company’s election, one of the following: 1. Refund of the purchase price paid by buyer or user for product bought, OR 2. Replacement of the product used. To the extent allowed by law, the Company shall not be liable and any and all claims against the Company are waived for special, indirect, incidental, or consequential damages or expense of any nature, including, but not limited to, loss of profits or income. The Company and the seller offer this product and the buyer and user accept it, subject to the foregoing conditions of sale and limitation of warranty, liability and remedies.
