DISINFECTION OF BARBER/SALON TOOLS DIRECTIONS:

1. Fill a 1-gallon container with 2 ounces of Salon Care™ solution. Immerse pre-cleaned barber/salon tools (combs, brushes, razors, manicure/pedicure tools, clippers, scissors, trimmer blades) in a 2 ounces of Salon Care™ per gallon of water. 
2. Plunge the tools in up and down motion to agitate the solution and assure complete wetting of the tools and instruments. 
3. Allow the tools and instruments to remain immersed for at least 10 minutes. 
4. Remove the tools and instruments from the solution and allow them to drain dry. 

PERSONAL PROTECTION: When handling items soiled with blood or body fluids, use disposable latex gloves, gowns, masks, and eye coverings.

FIRST AID

If in eyes:

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If in mouth:

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If swallowed:

Have the product container or label with you. Call a poison control center or your physician for treatment. Aluminum hydroxide gels and chalk to absorb stomach acid. Rinse mouth with water. Do not induce vomiting. Do not give anything by mouth to an unconscious person. Call a poison control center or doctor for further treatment advice.
