Keep Out of Reach of Children

DANGER

See back panel for precautionary statements.

Cleaner - Sanitizer - Deodorizer

DIRECTIONS FOR USE

For Cleaning Carpet Against Odor Causing Bacteria and Fungi for Institutional, Commercial, and Residential Use: Start by removing any0 excess soil and debris from the affected area. Mix 2 oz. of concentrate per gallon of water. Apply using a solution injector, a power agitator, or a pressurized sprayer. Let the product sit for 10 minutes, then thoroughly rinse with a pressurized sprayer or a solution injector. For portable extraction systems, dilute 2 – 4 oz. of the concentrate per gallon of water and use for wet extraction. Do not rinse. For water damaged situations or when used for long time contact, consult with local, state, and federal regulations.

For portable extraction systems, dilute 2 – 4 oz. of the concentrate per gallon of water and use for wet extraction. Do not rinse. For water damaged situations or when used for long time contact, consult with local, state, and federal regulations.
