This Product is a non-woven, disposable wipe, pre-saturated with quaternary ammonium chloride. This product is intended for use in:
- Veterinary clinics, animal hospitals, animal life science laboratories, kennels, pet animal kennels, breeding establishments, pet animal quarters, zoos, pet centers, households, homes, residences, household kitchens and/or bathrooms, institutional kitchens and/or bathrooms.

The product will sanitize hard, non-porous, surfaces of contact in homes, public eating places, restaurants, bars, institutional kitchens, food handling and processing areas, prior to application, remove all gross soil from surfaces that are to be sanitized. Thoroughly wash or flush the surfaces with a good detergent, followed by a potable water rinse before applying this sanitizing wipe. For lightly soiled surfaces, use the first wipe to pretreat the surface to be treated. This product is a 400 ppm (mg/L) active quaternary pre-saturated wipe which kills 99.9% of bacteria.

ANTIBACTERIAL FORMULA SANITIZES FOOD AND NON-FOOD CONTACT SURFACES

**Staphylococcus aureus** (ATCC #4352) in 30 seconds in accordance with the Sanitizer Test for Inanimate Non-Food Contact Surfaces. Efficiency tests have demonstrated that this product is an effective sanitizer in the presence of organic soil load (5% blood serum) for food and non-food contact surfaces.

Sanitizing NON-FOOD CONTACT SURFACES: This product is for use in homes, schools, day care centers, pet stores, eating utensils and cooking surfaces. Prior to application, remove all gross soil from surfaces that are to be sanitized. Thoroughly wash or flush the surfaces with a good detergent, followed by a potable water rinse before applying this sanitizing wipe. For lightly soiled surfaces, use the first wipe to pretreat the surface to be treated. This product is a 400 ppm (mg/L) active quaternary pre-saturated wipe which kills 99.9% of bacteria.
