DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Labeling directions, precautionary statements and restrictions for any other products mentioned must be followed.

The following guidance is given as an approximation for each use pattern, but field-testing is required to achieve optimum performance.

WOODTREAT® P-50L is used to control sapstain and mold in freshly cut hardwood and softwood lumber, poles, posts, timbers and other manufactured wood products. Examples of other wood products include:

Lightly: Fungal staining can be inhibited in lightly obtained logs used for b斿ng, fencing, and other outdoor uses.

Medium: Wood treating wood companies, such as particle board, wa斿, oriented strand board, and simlar products can be protected from fungal discoloration during storage by treatment with Woodtreat® P-50L. Woodtreat® P-50L is applied by dipping or spraying the wood until complete surface wetting is achieved. For bulk dips treat Woodtreat® P-50L, is bra斿ed by using a 0.35 (8 to 9 g) of Woodtreat® P-50L in 100 gallons of water. Agitate vigorously until completely dispersed. For conventional sprays a 0.6% to Woodtreat® P-50L, sprays solution is used. For, in a 100 gallon dip, 1/2 to 1 gallons of Woodtreat® P-50L are added to the day tank and then water is added to bring the solution up to 100 gallons of solution. In electrostatic spray applications, Woodtreat® P-50L is not required. Test treatment strength is varied by number of application passes used and the speed. Pales, for all applications used, will vary according to temperature, humidity, wood moisture, storage conditions, etc. Contact your local Woodtreat® P-50L, product manufacturer for guidance.

SAFETY REQUIREMENTS
Users must:

- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing/PE if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove clothing/PE immediately after handling product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into cleaning clothes.

ENVIRONMENTAL HAZARDS
This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, coves, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to the discharge. Do not discharge effluent containing this product into surface waters without notifying the permitting authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by disposal or storage.

PESTICIDE STORAGE: Store in original container in a cool, dry place.

PESTICIDE DISPOSAL: Pesticide wastes may be acutely hazardous. Improper disposal is a violation of federal law. Pesticide, mixtures, or equipment rinse waters that cannot be chemically reprocessed must be disposed of according to applicable federal, state or local procedures. Contact your local State Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for disposal.

CONTAINER HANDLING: Non-refillable container. Do not reuse or refill container. Dispose of container (or equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying. Triple rinse container or (equivalent) promptly after emptying.

Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

CAUSES EYE IRRITATION. DO NOT GET INTO EYES, ON SKIN, OR ON CLOTHING. CLOTHING SEVENTY WASHED, ABSORBED OR ABSORBED THROUGH SKIN. WASH THOROUGHLY WITH SOAP AND WATER AFTER HANDLING AND BEFORE EATING, DRINKING, CHEWING GUM, USING TOBACCO, OR USING THE TOILET. REMOVE CONTAMINATED CLOTHING AND WASH BEFORE REUSE.

PENETRATING PRESERVATIVES AND WOOD PRESERVATIVE STAINS

Woodtreat® P-50L provides control of sapstain and mold on wood treated at levels between 0.5% and 2% (0.05 – 0.20% compared to the total weight of the wood preservative or wood preservative stain), as prescribed by the manufacturer. Woodtreat® P-50L cannot be used in adhesives applied to the discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA. 

Woodtreat® P-50L

CAUTION

Precautionary Statements

The following are suggested use concentrations and techniques for Woodtreat® P-50L. Typical use levels that are given for the following applications include the approximate levels for the particular application:

- 0.065% (0.1 to 0.2% compared to the total weight of the wood preservative or wood preservative stain) – PENETRATING WOOD PRESERVATIVES AND WOOD PRESERVATIVE STAINS
- 0.1% (0.2% compared to the total weight of the wood preservative or wood preservative stain) – SEALANTS, ADHESIVES AND BINDERS
- 0.2% (0.4% compared to the total weight of the wood preservative or wood preservative stain) – IN CONTAINER PRESERVATIVES
- 0.5% (1% compared to the total weight of the wood preservative or wood preservative stain) – SAPSTAIN AND MOLD CONTROL
- 1% (2% compared to the total weight of the wood preservative or wood preservative stain) – DRY FILM PRESERVATIVES AND BONDS
- 1.2% (2.4% compared to the total weight of the wood preservative or wood preservative stain)
- 1.6% (0.25% compared to the total weight of the wood preservative or wood preservative stain) – WOODTREAT® P-50L

Woodtreat® P-50L differs in use from wood preservatives, since it is not required in many applications to achieve the performance required. It is a wood preservative concentrate which requires dilution with water prior to use on wood products to protect against decay (brown and white rot) and staining fungi (blue stain). It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

If swallowed:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 to 20 minutes.
- Call poison control center or doctor for treatment advice.

In case of emergency:

- In case of emergency, call: Kop-Coat, Inc.
- Store rinsate for later use or disposal. Repeat this procedure two more times.
- Open up cover to the discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

First aid:

IF IN EYES:

- Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call poison control center or doctor for treatment advice.

IF ON SKIN OR IN CLOTHING:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 to 20 minutes.
- Call poison control center or doctor for treatment advice.

IF INHALED:

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth or nose-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

IF SWALLOWED:

- Contact physician immediately if poisoning symptoms appear.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN:

- There is no specific antidote.
- Induce emesis or lavage stomach. Give a saline laxative and supportive therapy.
- For sheep or bovine, give 1% or 2% concentration solution for guidance.
