Bazooka®

Sapstain and Mold Control Product

Aids in the control of blue stain, mold and decay of freshly cut lumber, dry lumber and other wood-based products when properly used. Effective on softwoods including Douglas fir, White fir, Spruce, Hemlock, the Pines including both the Southern and Western Yellow Pines, Eastern and Western White Pines and many of the hardwoods.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL PRECAUTIONS AND RESTRICTIONS:

FOR INDUSTRIAL USE

CONSULT SAFETY DATA SHEET (SDS) BEFORE USING

DILUTE BEFORE USING

Do not apply this product in a way that will contact workers or other persons, either directly or through spray drift. Only protected handlers may be in the area during application.

Wear synthetic rubber gloves or plastic coated gloves in handling solutions and freshly treated lumber.

Treated sawdust and other wood wastes should be disposed of properly and should not be used as mulch where it will come into contact with useful planting beds. Care should be taken to prevent drip or spray from contacting ornamental shrubs, trees, grass, and other desirable vegetation.

GENERAL INFORMATION

Freshly dipped or sprayed lumber should be protected from rain-washing. Dip tanks and dip aprons must be removed, paved, and drained to prevent decay and loss of the anti-stain solution. Treatment concentrations must be geared to achieve protection of the thickest or most valuable item being treated. The concentration of the ready-to-use solution must be adjusted to accommodate seasonal changes in the exposure, species being treated, dip tanks, and spray equipment must be properly maintained.

MEASURING INSTRUCTIONS

For high-pressure spray applications: Thoroughly mix one gallon of Bazooka® Sapstain and Mold Control Product per 2 to 500 gallons of water. For dip applications: Thoroughly mix one gallon of Bazooka® Sapstain and Mold Control Product per 20 to 1,000 gallons of water. In all cases, dilution levels will depend upon application methods, lumber species, and conditions of lumber storage. Mills should conduct tests to determine treatment requirements for their individual needs. Contact Kop-Coat for further information.

When using propellant pumps for mixing, this product should be maintained at temperatures above 55°F to prevent inaccurate mixing due to viscous changes. Minor propellant rate changes can be affected by changing the weight on the pump diaphragm.

Maximum application rate is 0.8% w/w Decinolme-penta-Tolyx® sulfone for sapstain wood preservation.

NOTES: With normal dip or spray application long-term decay cannot be achieved. This product is intended to provide decay, mold, and blue stain control during storage. Such control would not likely extend to the use site.

STORAGE AND DISPOSAL

Do not store near food, feed by storage or disposal.

Storage: Store in a closed, properly labeled container in a cool place. If static generating conditions exist, provide necessary grounding and bonding. Keep containers closed when not in use.

Pesticide Disposal: Pesticide wastes are acute hazardous. Improper disposal of excess pesticide, spray mixture, or rinse is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Triple rinse container before removing. As soon as possible wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates. Do not apply directly to water. Do not contaminate water when disposing of pesticides. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and its permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without first notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of Environmental Protection Agency.

Until product has dried, antisapstain treated lumber must be handled in the same manner as untreated lumber. Use water, fog, foam, carbon dioxide or dry chemical. Cool closed container with water. In case of fire, use dry chemical, carbon dioxide or dry chemical. Cool closed container with water.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

Fumes, Causes skin burns. Causes irreversible eye damage. Harmful if swallowed, absorbed through skin or inhaled. Do not get in eyes, on skin, or clothing. Avoid breathing vapor or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers must wear:

1. Coveralls over long-sleeved shirt and long pants
2. Chemical-resistant footwear plus socks
3. Goggles or face shield
4. Chemical-resistant gloves (such as barrier laminate, nitrile rubber, neoprene rubber and rubber)

USER SAFETY RECOMMENDATIONS

User must:

1. Follow manufacturer’s instructions for clean/emptying/ppe. If no such instructions exist, use detergent and soap and wash/ppe after use.
2. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product’s concentrate. Do not reuse them.

USER SAFETY INSTRUCTIONS

Users should:

1. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
2. Wash any exposed skin with soap and water after handling.
3. Remove personal protective equipment immediately after handling this product. Wash outside of gloves before removing. As soon as possible wash thoroughly and change into clean clothing.

PHYSICAL OR CHEMICAL HAZARDS

COMBUSTIBLE

Do not use, over, spray, or store near heat or open flame.

IN CASE OF FIRE

Use water, fog, foam, carbon dioxide or dry chemical. Cool closed container with water.

LIMIT OF WARRANTY AND LIABILITY

We warrant this material to comply with our published specifications and to be of good merchantable quality and such as will regularly pass in the trade for goods within the description, and further warrant such goods to be fit for the purposes for which they are usually used. We assume no responsibility that the goods contained in this contract are fit for any particular purpose for which they are being bought outside of the general purposes of goods of the description.
