PRINCIPAL FUNCTIONING AGENTS
Ammonium sulfate, N-Methyl-N-oleoyltaurine sodium salt,
2-Hydroxypropyl Guar gum................................................................. 37.12%
Constituents Ineffective As Spray Adjuvants........................................ 62.88%
TOTAL........................................................................................................ 100.00%
All ingredients are approved for use under 40 CFR 180.
Surfactant content 3.5%

KEEP OUT OF REACH OF CHILDREN
WARNING
CAUSES EYE IRRITATION
Refer to the back panel for additional precautionary and first aid statements.

NET CONTENTS: 2.5 GALS (9.46 L)
QUINTAIN XTRA 8L is a liquid adjuvant premix of drift reduction polymers and ammonium sulfate formulated to enhance herbicide performance on a wide range of weed species.

DIRECTIONS FOR USE

The addition of adjuvants to some herbicides and/or fertilizers and their tank mixes may cause phytotoxicity to the foliage and/or fruit of desirable crops. Before using QUINTAIN XTRA 8L, the applicator or crops advisor must have experience with the herbicide combination and QUINTAIN XTRA 8L, or must have conducted a phytotoxicity test.

FOR USE WITH HERBICIDES REGISTERED FOR AGRICULTURAL, FORESTRY, INDUSTRIAL, MUNICIPAL, NON-CROPLAND, AND RIGHTS-OF-WAY.

NOT FOR AQUATIC USE.

DOSAGE

Ground Application: 2.5% (2.5 gallons) of QUINTAIN XTRA 8L per 100 gallons of spray solution.
Aerial Application: 2.5–5% (2.5–5 gallons) of QUINTAIN XTRA 8L per 100 gallons of spray solution. QUINTAIN XTRA 8L provides 8.5 lb of dry ammonium sulfate per 2.5 gallons.

MIXING

In the absence of specific mixing instructions found on the herbicide label, fill the spray tank with at least 20% of the desired finished carrier volume. When premixing in a mixing vessel or inductor, fill with at least 20% of the desired finished carrier volume. While the carrier is agitating, add tank mix ingredients in the following order:
1. Compatibility agent and/or antifoam, if needed.
2. AMS, dry formulations (WP, DF, WDG, SP), and dry drift retardants.
3. Dry soluble and suspension fertilizers/micronutrients.
4. Liquid drift retardants and flowable formulations (F & FL).
5. Liquid concentrates, suspension and microencapsulated (LC, SC, ME).
6. Emulsifiable concentrates (E, EL, or EC).
7. Solutions and soluble liquids (S or SL).
8. Liquid micronutrients and fertilizers.
9. Water conditioners (QUINTAIN XTRA 8L) and other adjuvants (COC, HSOC, MSO, NIS).
10. Finish filling to desired spray volume level and continue agitation.
