DIRECTIONS FOR USE

BRANDT SILSTIK is a low-foam spreader-sticker, containing nonionic surfactants, designed to greatly reduce the surface tension on applied plant surfaces for superior wetting of many agrochemical sprays. This product also increases spray droplet deposition and retention to enhance efficacy of pesticides under humid or wet conditions. BRANDT SILSTIK may be used on agricultural, forestry, turf and ornamental, structural, and non-cropland sites. Not for aquatic use. Read and follow the precautions, restrictions and recommendations on the labels of pesticides used with BRANDT SILSTIK. Use according to the most restrictive label directions for each product in any tank mix.

COMPATIBILITY: BRANDT SILSTIK is compatible with most pesticide tank-mix formulations. However, if the desired combination has not been previously used, a compatibility test is recommended. Do not mix with spray oils as this may reduce rainfastness.

MIXING: Fill spray tank ½ full of water and begin agitation. Add products as directed by label or in the following sequence and continue filling tank: (1) Dry flowables or water dispersing granules, (2) Wettable powders, (3) Flowables, (4) Solutions, (5) Emulsifiable concentrates. Add the recommended amount of BRANDT SILSTIK last and continue agitation until spray solution is completely mixed. Continuous agitation of finished spray is recommended. If spray solution has been allowed to stand, thoroughly agitate and remix before application. For optimum results, use the spray solution within 36 hours after mixing. NOTE: If intended tank mix includes products containing calcium or magnesium, add these to the spray tank last, after 90% of the water has been added, and after all other products are adequately dispersed.

RECOMMENDATIONS: Specific use rates will vary with conditions of application such as water hardness, application method, equipment, spray droplet size, condition of foliage, etc. Also, higher rates than those below may be used if recommended by pesticide labeling. Follow pesticide label directions. Adjust the rates of BRANDT SILSTIK or the water volume to obtain thorough coverage without excessive run-off.

Ground Application: Use 10 to 28 fl. oz. per 100 gallons of spray solution, depending on spray volume per acre.

Aerial Application: Use 1-2 fl. oz. per 5 gallons of spray volume per acre.

DIRECTIONS FOR USE

KEEP OUT OF REACH OF CHILDREN

WARNING

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes serious eye irritation. Wear protective eyewear, long sleeved shirt, long pants, shoes plus socks and chemical resistant gloves made of any waterproof material when mixing or handling concentrate. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in closed, original container away from children, animals, foods, feeds and seeds. Handle in accordance with Precautionary Statements. In the event of spillage or leakage, soak up the material with absorbent clay, sand, sawdust or other absorbent material. Scrape up and dispose in accordance with Product Disposal.

PRODUCT DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state or local ACRC recycler, visit the ACRC web page at www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

WARRANTY: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.
