**KILLS**

- Norway Rats
- Roof Rats
- Cotton Rats**
- Polynesian Rats**
- House Mice
- Eastern Harvest Mice**
- Golden Mice**
- Meadow Voles**

*Norway Rats, Roof Rats, and House Mice usually consume a lethal dose in a single night’s feeding, but it may take two or more days from time of bait consumption for them to die.

This product may only be used inside and within 100 feet of man-made structures or inside of transport vehicles (ships, trains, or aircraft)

This Product May Not Be Sold in Packaging that Holds Less Than 4 Pounds of Bait.

**Not permitted for use against the following species in California: Cotton Rats, Polynesian Rats, Eastern Harvest Mice, Golden Mice, and Meadow Voles

**NET CONTENTS:** Total: 4.125 lbs  
(88 x 0.75 oz Place Packs)
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

This product is extremely toxic to mammals and birds. Dogs and cats, while most susceptible, may die from ingestion of a single bait, unless they are removed from the area immediately upon treatment. This product is not for use on or near livestock, racing or pet-owning horses, or other animals that are not the target of this product. As soon as possible, wash hands thoroughly after applying the bait and before eating, drinking, chewing gum, using tobacco or using the toilet and change into clean clothing.

FOLLOW UP: Adjust the amount of bait applied to the level of feeding expected at each bait placement location. Highest bait consumption is expected to occur on the first day or two after treatment. After several days, inspect bait placements and replenish bait at sites where there is heavy feeding or where there is continued evidence of rat, mouse or meadow vole activity. Maintain baiting for at least one week or until there no longer are fresh signs of rat, mouse or meadow vole activity or it becomes clear that the remaining rats, mice or meadow voles are not attracted to the bait. Wearing barrier laminate gloves, collect and properly dispose of all dead rodents and leftover bait. To discourage reinestation, limit sources of food, water, and harborage as much as possible. If reinestation does occur, repeat treatment. Where a continuous source of infestation is present, establish permanent bait stations and replenish them as needed.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. PESTICIDE STORAGE: Store in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals. PESTICIDE DISPOSAL: Dispose of wastes resulting from the use of this product in trash or at an approved waste disposal facility. CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Plastic Containers: Triple rinse (or equivalent) then offer for recycling or reconditioning; or puncture and dispose of container in a sanitary landfill; or by incineration. Paper Containers: Dispose of empty container by placing in trash, at an approved waste disposal facility, or by incineration.

DISCLAIMER: To the extent permitted by applicable law, seller makes no representation or warranty, either expressed or implied, for results due to misuse, improper handling or improper storage of this material. Nor does seller assume any responsibility for injury to persons, crops, animals, soil or property arising out of misuse, improper handling or improper storage of this material.

Pellet Place Packs

Kills Norway Rats, Roof Rats, Cotton Rats**, Polynesian Rats**, House Mice, Eastern Harvest Mice**, Golden Mice**, and Meadow Voles**

*Norway Rats, Roof Rats, and House Mice usually consume a lethal dose in a single night’s feeding, but it may take two or more days from time of bait consumption for them to die. This product is effective against anticoagulant-resistant Norway Rats, Roof Rats, and House Mice.

This Product May Only be Used Inside and Within 100 Feet of Man-made Structures or Inside of Transport Vehicles (Ships, Trains, Aircraft)

KEEP OUT OF REACH OF CHILDREN

CAUTION: Bromethalin (CAS No. 63333-35-7) .... 0.01%
OTHER INGREDIENTS: .................. 99.99%
TOTAL: 100.00%

ENVIRONMENTAL HAZARDS: This product is extremely toxic to mammals and birds. Dogs and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff may also be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash water or rinse.

FIRST AID

HAVE LABEL WHEN OBTAINING TREATMENT ADVICE

If Swallowed: • Call a poison control center, or doctor, or 1-800-234-2269 immediately for treatment advice.
• Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center, or doctor, or 1-800-234-2269 immediately for treatment advice.

If in Eyes: • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present; after the first 5 minutes, then continue rinsing eye. • Call a poison control center, or doctor, or 1-800-234-2269 immediately for treatment advice.

Have product container or label with you when calling a poison control center or doctor for treatment advice.

TREATMENT FOR PET POISONING

If animal eats bait, call veterinarian or 1-800-234-2269 at once.

NOTE TO PHYSICIAN OR VETERINARIAN

Contains the nerve poison Bromethalin. This is not an anticoagulant type rodenticide. For humans or animals ingesting bait and/or showing poisoning signs such as muscle tremors, loss of hind limb use, or seizures for animals, limit absorption by either emesis or gastric lavage. Sublethal symptoms, if present, would be the result of cerebral edema and should be treated accordingly through administration of an osmotic diuretic and corticosteroid.

For 24-hour emergency information on this product, call 1-800-234-2269.

IT IS ILLEGAL TO SELL THIS PLACE PACK INDIVIDUALLY
