CH₂O INCORPORATED

Making Water Work For You!

ORGANIC PH-D
Organic pH Adjuster

DIRECTIONS FOR USE: ORGANIC PH-D is recommended for use to lower the pH of irrigation or other water that is applied to organic crops. It is also recommended for use on fruits and vegetables that have been stained by "orchard bloom" from sprinkling and watering systems. Use 1/2 gallon of ORGANIC PH-D in 100 gallons of cold or warm water. A heavy film may require a 1% solution or multiple washings. Keep pH at 1.5-2.5.

ORGANIC PH-D is also useful for generating chlorine dioxide when used with IVR-SAN 15, CLEAN FINISH, or other organic certified source of sodium chlorite in an organic treatment program. Use ORGANIC PH-D as required to maintain a pH of 2.5 to 3.0 in the generator. Contact your technical sales representative for further guidance.

WARNING KEEP OUT OF REACH OF CHILDREN NOT FOR AQUATIC USE

PRECAUTIONARY STATEMENTS: This is an acidic product. Eye contact will cause severe irritation with possible burns. Prolonged or repeated skin contact will cause irritation with possible burns. Ingestion will cause damage to the stomach and other tissue contacted. Excessive inhalation of product dust/mist can cause irritation and/or burns to the respiratory system. Wear impervious gloves and safety glasses or goggles when handling product. If vapors are present at or above TLV respiratory protection must be worn. Wear additional protective clothing as necessary to minimize contact with product.

FIRST AID: EYES: Flush with large amounts of water, lifting upper and lower lids occasionally. Get medical attention if irritation persists. SKIN: Wash exposed areas thoroughly with soap and water. Remove contaminated clothing and launder before reuse. If skin feels slippery, continue washing until slick feeling is gone. Contact a physician if irritation persists. INGESTION: Give large quantities of water. DO NOT induce vomiting. If vomiting occurs administer additional fluids. Contact a physician for further directions. Never give anything by mouth to an unconscious person. INHALATION: Remove individual to fresh air. If breathing is difficult, give oxygen. Contact a physician if irritation persists.

STORAGE & DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Store in locked, well-ventilated area above 45°F. Keep container tightly closed when not in use. Dispose of contents/container in accordance with local, state and federal regulations. Care must be taken when using or disposing of chemical materials and/or their containers to prevent environmental contamination.
