in the presence of 5% blood serum and a contact time of 10 minutes, is effective against:

- *Acinetobacter baumannii*
- *Enterococcus faecalis*
- *Staphylococcus epidermis*
- *Staphylococcus aureus*
- *Escherichia coli*
- *Klebsiella pneumoniae*
- *Salmonella enterica*
- *Pseudomonas aeruginosa*

In the presence of 5% blood serum and a contact time of 5 minutes, is effective against:

- *Vancomycin Resistant (VRE)*
- *MRSA*
- *MRSE*
- *O157:H7*
- *Hepatitis B Virus (HBV)*
- *Canine Parvovirus (CPV)*
- *Influenza A Virus - Strain Hong Kong Pandemic 2009 H1N1 Influenza A Virus (formerly called swine flu)*
- *Influenza A Virus - Strain Hong Kong (BCG) in 5 minutes*
- *Vaccinia Virus*
- *Herpes Simplex Type 1 Virus*
- *Herpes Simplex Type 2 Virus - Strain G*
- *Human Immunodeficiency Virus Type 1 - Strain HTLV*-
- *Rotavirus*
- *Respiratory Syncytial Virus*
- *Adenovirus Type 2*
- *Hepatitis A Virus (HAV)*
- *Adenovirus Type 2*
- *Feline Calicivirus (surrogate for Norovirus)*

Unfold premoistened cloth and wipe area to be cleaned for 30 seconds or until clean. Spot check to test for compatibility.

**DIRECTIONS FOR USE**

**TO DISINFECT**

Unfold premoistened cloth and wipe hard non-porous area or item to be disinfected. Wet all surfaces thoroughly. Leave for 5 to 10 minutes, in accordance with the organisms listed on the side panel. Wipe or let air dry. No rinsing or wiping is required, except that come into contact with food, including equipment required to prevent moisture loss.

**TO CLEAN/DEODORIZE**

Unfold premoistened cloth and wipe hard non-porous area or item to be disinfected. Wet all surfaces thoroughly. Leave for 5 to 10 minutes, in accordance with the organisms listed on the side panel. Wipe or let air dry. No rinsing or wiping is required, except that come into contact with food, including equipment required to prevent moisture loss.

Suitable for use on washable, hard, non-porous surfaces of floors, walls, fixtures, countertops, kitchen surfaces, medical equipment surfaces, stainless steel, chrome, vinyl, glass, glazed ceramic tile, appliances, car interiors, door knobs, knobs and handles, laboratory equipment surfaces, operating room lights/tables, pet habitats, stalls and transportation equipment surfaces.

**DISPENSER DIRECTIONS**

To start feed, remove large cover. Pull up the towelette corner 1 inch. Replace cover. Pull out first towelette and snap off at a 90° angle. Remaining towelettes feed automatically ready for their next use. Using this dispenser keep small center cap closed to prevent moisture loss.

**STORAGE AND DISPOSAL:**

Do not leave containers open or dust accumulation on the towelette. No special handling is required. Towelettes: Do not reuse towelette. Dispose of used towelette in trash. Dispenser: Nonrefillable container. Do not refill or refasten this container. Offer for recycling if available.
