PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION:
Wait at least 1 hour before entering pool after treatment with this product. Harmful if absorbed through the skin. Avoid contact with skin and clothing. Wash with soap and water after handling. Remove contaminated clothing and wash before reuse. Do not get into eyes.

ENVIRONMENTAL HAZARDS
This product is toxic to fish and aquatic organisms.

PHYSICAL OR CHEMICAL HAZARDS
SeaKlear Problem Klear Algaecide is not flammable. Do not allow this product to come into contact with acids or existing agents under conditions other than as described in the directions for use. Add this product to water only. Neglect of mixing of this product with acids or existing agents may cause release of poisonous corrosive hydrogen bromide or bromine gas. Fuming agent.

STORAGE AND DISPOSAL:
Do not contaminate water, food or feed by the use, storage, or disposal of this product. Store in original container. Store in a cool, dry place away from the reach of children. Keep container closed when not in use. Pesticide Disposal: Pesticide wastes are excused hazardous. Improper disposal of excess pesticide, spray mixture or rinse water is a violation of Federal Law. If these wastes cannot be disposed of by users in accordance to label instructions, contact your Regional Office of the EPA for guidance. Containers Disposal: Nonrefillable container. Do not reuse or refill this container. Rinse thoroughly and securely wrap empty container in several layers of newspaper before discarding in trash or offer for recycling, if available.

WARRANTY
Seller makes no warranty expressed or implied concerning the use of this product other than that indicated on the label. Buyer assumes all risk of use and/or handling of this material when use and/or handling is contrary to label directions.

SeaKlear Problem Klear Algaecide provides crystal clear water and is ideal for all pool surfaces.

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. WAIT ONE HOUR AFTER APPLICATION BEFORE SWIMMING. This product is used to control and prevent algae growth and to maintain clear water in swimming pools using chlorinating systems.

INITIAL TREATMENT:
For pools using chlorinating disinfection systems. Use to start a preventative treatment program with SeaKlear Problem Klear Algaecide. For each 10,000 gallons of swimming pool water, add 6 oz of this product directly to the water. Follow the Initial Treatment directions on the chlorinating compound product label. Do not mix this product directly with chlorinating compounds. Wait at least 1 hour after SeaKlear Problem Klear Algaecide treatment before entering pool or follow the required waiting period for a product used with this product, if greater than 1 hour.

MAINTENANCE TREATMENT:
For pools using chlorinating disinfection systems. Use bi-weekly, or as needed to keep water free of algae. Add chlorinating compound as directed on product label for appropriate size of swimming pool. Add the following amount of this product when adding a chlorinating compound. Wait at least 1 hour after SeaKlear Problem Klear Algaecide treatment before entering pool or follow the required waiting period for a product used with this product, if greater than 1 hour.
