**MADE WITH BOTANICAL OILS**

For added protection, try our complete line of Natural Care Flea & Tick products.

**Active Ingredients**

- Isopropyl Myristate 77% (Inert ingredient)
- [Other ingredients listed]

**Inert Ingredients**

- *Isopropyl Myristate, Vanillin
TOTAL ..........................................................87.5%

**Directions for Use**

1. **Pinch** the neck of the applicator at the base of the tail (see diagram A). With other hand, squeeze the neck of the applicator at the base of the neck and repeat for the other dog.

2. **Apply** the liquid in a straight line starting from in-between the shoulder blades at the base of the neck and extend to the tip of the tail (see diagram B). To avoid cross-contamination, apply the product to one dog at a time and wash hands thoroughly after application.

3. **Allow** the solution to be absorbed into the dog’s coat. The product should be applied once per month. Do not exceed 3 applications per year. Hold dog steady with one hand.

4. **Apply** up to 4 drops on the neck according to weight.

**CAUTION:**

- Do not use on pregnant or nursing animals. For external use only. Avoid eyes, nose, mouth and genitals. Afer application, always wait at least 24 hours before bathing or swimming. In multi-pet households, be sure the solution has dried before allowing pets to groom each other. Dogs may be treated indoors or outdoors. In order to help reduce the occurrence of fleas and ticks, this product is best used year round. If you suspect an existing infestation, try Natural Care Flea & Tick Shampoo prior to application of Natural Care Flea & Tick Drops.
