US Patent # D513,868

Stay Away® is the first pest prevention line made entirely out of plant-based ingredients including essential oils and plant fiber. The EarthKind® promise guarantees effectiveness with no setup or messy cleanup. The EarthKind patented pouch design delivers long-lasting, slow release of proven essential oils, reliably 'keeping pests out' of the indoor spaces where we live, work, and play.

Where to use:
Use in mouse prone areas such as basements, attics, garages and utility areas, anywhere mice may go to feed, nest, congregate, hydrate or gnaw on wiring.

How it Works:
Mice have notably poor eyesight, but a heightened sense of smell to make up the difference. Overpowering their little noses–with a scent that is pleasant to people but offensive to mice–has been proven effective at making them 'stay away' from treated areas. Mice won't nest or congregate in areas where they can't smell a predator coming, or if the safety of their offspring is endangered. One whiff of this specially formulated blend is enough to send mice packing! Stay Away® Mice scent pouches are made with a blend of plant fiber and botanical extracts. Simply place pouches in enclosed spaces to immediately start controlling your mouse problem and enjoy the results for 60 days.

Before Use:
Remove plastic wrap from pouch. Do not place directly on furniture or finished surfaces as product may stain.

How to Use:
For preventative use in non-infested areas, simply place one pouch for every 125 sq. feet; scent lasts up to 60 days. For use in currently infested areas, increase use to 1 pouch per 25 sq. feet of floor space and replace when scent has diminished. Place anywhere mice or mice droppings are noticed - basements, pantries, closets, attics, crawl spaces, or places you would like to prevent them from entering.

Warranty: Money Back Guarantee (if purchased from an authorized retailer)
If this product does not perform to claims when used as directed, send cash register receipt, UPC code on bottom of box and reasons for dissatisfaction to: EarthKind Customer Service Dept., 2910 E Broadway, #19, Bismarck, ND 58501 USA

Storage & Disposal:
Store and transport in an upright position. Store in original container, in a dry place inaccessible to children and pets. Do not reuse empty container—discard in trash.

I wish to personally thank you for purchasing EarthKind products. Not only are you keeping pests away from spaces where you and your family live, work and play—with our farm-grown ingredients, you're also supporting American farmers and our precious planet.
