Timbertreat® T

FOR THE PRESERVATION OF WOOD-BASED COMPOSITE PRODUCTS, WOOD PRODUCTS INTENDED FOR ABOVE GROUND AND IN-GROUND CONTACT

KEEP OUT OF REACH OF CHILDREN

WARNING

Do not use this product for the preservation of wood intended for above-ground and/or in-ground contact, such as: waferboard, fiberboard, particleboard, plywood and oriented-strand board to prevent the growth of mildew, blue stain and wood destroying fungi on the composite product. These products are used in the following applications: millwork, including door and window frames; exterior siding; construction lumber; and exterior wood. Composite wood treated with Timbertreat® T does not change in appearance and may be painted when dry.

The method of incorporation of Timbertreat® T will depend on the specific treating process and additional active ingredients (to protect against fungi and/or insects, including termites), such as: water and/or organic solvents, emulsifiers, fixating agents, paraffin wax or resins, etc. Timbertreat® T may be applied to wood by dissolving in a suitable solvent and adding auxiliaries does not change in appearance and may be painted when dry.

The suggested use level is 0.01 to 0.03 lbs. Timbertreat® T per cubic foot of wood, or 0.025 to 0.075% Timbertreat® T, based on dry board weight. Wood preserved with Timbertreat® T alone does not change in appearance and may be painted when dry.

Wood Products Intended for Above Ground and In-Ground Contact

GENERAL: Timbertreat® T may be used for the preservation of wood intended for above-ground and/or in-ground contact, such as: waferboard, fiberboard, particleboard, plywood and oriented-strand board to prevent the growth of mildew, blue stain and wood destroying fungi on the composite product. These products are used in the following applications: millwork, including door and window frames; exterior siding; construction lumber; and exterior wood. Composite wood treated with Timbertreat® T does not change in appearance and may be painted when dry.

The suggested use level is 0.01 to 0.03 lbs. Timbertreat® T per cubic foot of wood, or 0.025 to 0.075% Timbertreat® T, based on dry board weight. Wood preserved with Timbertreat® T alone does not change in appearance and may be painted when dry.

Wood Treatment for Wood Products Intended for Above Ground and In-Ground Contact

For the preservation of wood products intended for above-ground and in-ground contact, the suggested use level is 0.003 to 0.05 pcf (lbs/ft³). The method of incorporation of Timbertreat® T will depend on the specific treating process and additional active ingredients (to protect against fungi and/or insects, including termites), such as: water and/or organic solvents, emulsifiers, fixating agents, paraffin wax or resins, etc. Timbertreat® T may be applied to wood by dissolving in a suitable solvent and adding auxiliaries

The suggested use level is 0.01 to 0.03 lbs. Timbertreat® T per cubic foot of wood, or 0.025 to 0.075% Timbertreat® T, based on dry board weight. Wood preserved with Timbertreat® T alone does not change in appearance and may be painted when dry.

FIRST AID

INHALATION

• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
• Call a poison control center or doctor for further treatment advice.

EYES

• Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

SWALLOWED

• IN CASE OF AN EMERGENCY, CALL CHEMTREC 800-424-9300.
• Do not induce vomiting unless told to do so by the poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN

• No specific antidote is available. Treat symptomatically.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING! May be fatal if inhaled. Harmful if swallowed. Causes moderate eye irritation. Do not breathe dust and avoid contact with eyes or clothing. Wear a mask or respirator jointly approved by the Mine Safety and Health Administration and the National Institute for Occupational Safety and Health. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash before reuse.

NOTE TO USER: For worker protection during mixing, loading and during application, wear a hat, long sleeved shirt, and long legged trousers or overalls. In addition, during mixing and loading, wear rubber or neoprene gloves. Protective clothing should be laundered separately following application.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to estuarine invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to the discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in original container and out of the reach of children, preferably in a locked storage area.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to the label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container.

Complete empty bag into application equipment by shaking and tapping sides and bottom to loosen clinging particles. If not emptied in this manner, the bag may be considered an acute hazardous waste and must be disposed in accordance with local, state and federal regulations. When completely empty, offer for recycling if available or dispose of empty bag in a sanitary landfill or by incineration or, if allowed by State and Local authorities, by burning. If burned, stay out of smoke. If fume box is contaminated and cannot be reused, dispose of it as required for the inner bag. Do not use container in connection with food, feed, or drinking water.

RESTRICTIONS: Do not package Timbertreat® T in metal containers.
