Influenza A Virus (H7N9), 'Influenza A Virus / Hong Wong (H3N2), Norwalk Virus

Animal Viruses:
- Coronavirus (SARS) (cause of Severe Acute Respiratory Syndrome).
- Vancomycin Resistant - (VRSA) (NARSA VRS1),

Viruses: 'Hepatitis B Virus (HBV), 'Hepatitis C Virus (HCV), *Herpes Simplex Virus Type I, *Herpes Simplex Virus Type 2, 'HIV-1 (AIDS Virus), *Human Coronavirus, *Human Positive,

Note: Do not use on unpainted wood, natural marble or brass.

To CLEAN and DISINFECT:
Wipe surface with wipe. Let air dry. Dispose used wipe in trash.

To CLEAN and DISINFECT / VORICIDE® DIRECTIONS:
Wipe hard, non-porous surface with wipe until surface is visibly wet. Allow surface to remain wet for 5 minutes. For Norwalk Virus, treated surfaces must remain wet for 10 minutes. If surfaces are extremely soiled, clean first with another wipe before disinfecting. Dispose used wipe in trash.

Use food contact surfaces with clean, potable water after disinfecting. Do not use to disinfect drives, plateaus or ceiling.
Fungi For Candida albicans control, follow disinfection directions.
This product is not for use on medical device surfaces.

**PULLS 99.9% of HIV and HBV on pre-cleaned environmental surfaces / objects previously exposed to blood / bodily fluids or health care settings or other settings in which there is an expected bleed rate of one to two drops of visible blood per surface / objects with blood or body fluids. This product is designed to be used on or in contact with hard non-porous surfaces, objects with blood or body fluids, and in which the surfaces / objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus type 1 (HIV-1) (HIV-2) associated with 45% or Hepatitis B Virus (HBV) or Hepatitis C Virus (HCV) or Hepatitis E Virus (HVE).

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 or HBV or HCV on Surfaces Contaminated with Blood.
- Personal protective equipment (PPE) clean-up must always be done wearing protective gloves, gowns, and eye protection.
- Disinfection procedure: Blood and other body fluids containing HIV or HBV or HCV must be thoroughly decontaminated from surfaces and objects before application of product. This product can be used to clean and disinfect non-porous personal protection equipment, protective headgear, hard hats, half mask respirators, full face breathing apparatus, gas masks, goggles, spectacles, face shields, silicone rubber or PVC hearing protectors and protective clothing, gowns, and non-porous medical device surfaces, Examining Tables, Resuscitators, Scales, Equipment Tables, Faucets, Floors, Garbage Cans, Glass, Steel and Upholstery - vinyl and plastic.

**STORAGE AND DISPOSAL
Store in original container in a secure manner. Keep securely closed. Non-refillable container. Do not reuse or refill this container. Dispose empty container in trash or recycle if available.
