PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Harmful if swallowed. Avoid contact with eyes or clothing. Do not reuse applicator equipment.

Personal Protective Equipment (PPE)

Some materials that are chemical-resistant to this product are natural rubber. If you want more options follow the instructions for category A on an EPA chemical resistance category selection chart.

All loaders, applicators, and other handlers must wear:

- long-sleeved shirt and long pants,
- shoes plus socks
- chemical-resistant gloves

User Safety Requirements

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product's concentrates. Do not reuse them.

User Safety Recommendations

Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.

If swallowed:

Do not induce vomiting unless told to do so by the poison control center or doctor.

If skin exposed:

Call a poison control center or doctor for treatment advice.

Environmental Hazards

This pesticide is toxic to fish and aquatic invertebrates and may adversely affect non-target plants. Do not apply directly to water bodies, to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in water bodies adjacent to treated areas. Do not contaminate water when disposing of equipment wash waters or rinsates.

This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable particularly where the water table is shallow may result in groundwater contamination. Application around a stream or well may result in contamination of drinking water or groundwater.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

PRECAUTIONS AND RESTRICTIONS:

Do not enter or allow people (or pets) to contact the treated area until dusts have settled. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

WHERE TO USE:

SitePro Fertilizer with Surge® Broadleaf Herbicide is a Surge® broadleaf herbicide containing 2,4-D, mecoprop-p, dicamba and sulfentrazone. This granular weed and feed provides plant nutrients and contains a broad spectrum of broadleaf weeds in turfgrass. Supplemental nitrogen, phosphorus, and potassium should be applied according to soil tests or State Extension Service recommendations.

SitePro Fertilizer with Surge® Broadleaf Herbicide is intended to be applied by noncommercial users, lawn care operators, and landscape personnel. Cool season and warm season grasses established in institutional, ornamental, and residential sites may be treated. Institutional sites are defined as turf areas around properties or facilities providing a service to public or private organizations: for example: hospitals, nursing homes, schools, museums, libraries, sport facilities (including golf courses), and office buildings may be treated. Ornamental sites include turfgrass established around residences, parks, streets, retail outlets, cemeteries, and institutional buildings. Finally, residential sites are defined as areas associated with the household or home life including, but not limited to apartment complexes, condominiums, and patient care areas of nursing homes, mental institutions, hospitals, or convalescent homes.

SitePro Fertilizer with Surge® Broadleaf Herbicide may be applied to newly established warm season turfgrass. Treatments should be delayed until 3 to 4 weeks after the sodding, sprigging, or plugging operations, and low application rates (1/2 of the recommendation for established turfgrass) are suggested.

SitePro Fertilizer with Surge® Broadleaf Herbicide may be applied to newly established warm season turfgrass. Treatments should be delayed until 3 to 4 weeks after the sodding, sprigging, or plugging operations, and low application rates (1/2 of the recommendation for established turfgrass) are suggested.

SitePro Fertilizer with Surge® Broadleaf Herbicide may be applied to newly established warm season turfgrass. Treatments should be delayed until 3 to 4 weeks after the sodding, sprigging, or plugging operations, and low application rates (1/2 of the recommendation for established turfgrass) are suggested.
A uniform broadcast distribution of product on the treated area is essential. Do not exceed the specified application rate for any area. Do not apply product to bare ground. Do not use this product on dichondra, carpetgrass, creeping bentgrass, or turf containing desirable clovers.

California: Make broadcast applications only between March 1 and September 1. While irrigation is necessary and important for plant growth, apply irrigation water efficiently so that no more than 125% of the irrigation requirement is applied for any irrigation event. Apply efficient irrigations for six months following application of substances containing products.

New York: Only one application per year of this product is allowed. This product is not allowed to be sold or used in Nassau or Suffolk Counties.

HOW MUCH TO APPLY:

For Kentucky bluegrass, fescue spp., perennial ryegrass, common bermudagrass, and zoysia:

Apply 130 to 174 pounds of SitePro Fertilizer with Surgr-g Broadleaf Herbicide per acre of established turfgrass. Or, the equivalent application rates are 3.0 to 4.0 pounds of product per 1,000 square feet of turfgrass.

For New York State only:

Apply 130 to 166 pounds of SitePro Fertilizer with Surgr-g Broadleaf Herbicide per acre of established turfgrass. Or, the equivalent application rates are 3.0 to 3.8 pounds of product per 1,000 square feet of turfgrass.

For St. Augustinex grass, centipedegrass, hybrid bermudagrass, bentgrass, and colonial bentgrass:

Apply 87 to 109 pounds of SitePro Fertilizer with Surgr-g Broadleaf Herbicide per acre of established turfgrass. Or, the equivalent application rates are 2.0 to 2.5 pounds of product per 1,000 square feet of turfgrass.

Limitations on broadcast applications to ornamental turfgrass:

- Do not exceed the maximum seasonal rate of 348 pounds per acre per season, excluding spot treatments.

Sequential or follow-up applications may be required for dense infestations of perennial and biennial weeds. Also, adverse environmental conditions prior to or after application may reduce the effectiveness. If required, the treatment interval between the first and second applications should be at least 30 days.

Drop spreaders, rotary spreaders, and other granular equipment should be calibrated for accurate and uniform applications of this product. Calibrate the equipment by applying the product over a measured or known area and adjust the equipment according to the recommendations of the equipment manufacturer. Refer to the table for the appropriate bag size and the area to be treated.

APPLICATION DIRECTIONS:

1. Spring and fall applications are suitable for the best control. However, SitePro Fertilizer with Surgr-g Broadleaf Herbicide can be applied any time broadleaf weeds are present and actively growing.

2. Mow the turfgrass 1 to 2 days before application.

3. Water the turfgrass thoroughly (>1/2 inch) at least 1 to 2 days before application.

4. Schedule applications in the morning when dew is present. Or, sprinkle or irrigate lightly (<1/4 inch) before application to provide maximum control.

5. Rainfall or irrigation within 24 hours after application may reduce the effectiveness. Do not irrigate or water the turfgrass within 24 hours after application.

APPLICATION PATTERNS:

1. Spring and fall applications are suitable for the best control. However, SitePro Fertilizer with Surgr-g Broadleaf Herbicide can be applied any time broadleaf weeds are present and actively growing.

2. Mow the turfgrass 1 to 2 days before application.

3. Water the turfgrass thoroughly (>1/2 inch) at least 1 to 2 days before application.

4. Schedule applications in the morning when dew is present. Or, sprinkle or irrigate lightly (<1/4 inch) before application to provide maximum control.

5. Rainfall or irrigation within 24 hours after application may reduce the effectiveness. Do not irrigate or water the turfgrass within 24 hours after application.

APPLICATION RATES:

To determine how much you need to apply, multiply the length of your lawn by its width. This equals your total square footage. Deduct any non-lawn areas (house, gardens, etc.). One 50 pound bag covers 12,500 to 25,000 square feet.

USE PRECAUTIONS:

Do not use this product on dichondra, carpetgrass, creeping bentgrass, or turf containing desirable clovers.

Do not use this product to newly seeded grasses until well-established or after the third mowing.

Do not use this product on flowers, vegetables, groundcovers, gardens or landscape plantings including shrubs and trees. Do not exceed specified dosage for any area.

Do not use this product on 'Floratam' SL Augustinegrass.

Do not use this product on or near desirable plants, including within the drip line of the roots of desirable trees and shrubs, since injury may result.

WEEDS CONTROLLED:

- Daisy, English
- Pepperweed
- Bloodflower
- Buttercup
- Catchweed bedstraw
- Knotweed
- Smallflower galinsoga
- Yarrow

STORAGE AND DISPOSAL:

Do not contaminate water, food, or anything by cleaning, handling, or disposing of empty plastic or metal containers. Do not burn the material. Do not incinerate. Do not incinerate or burn. Do not puncture or incinerate. Do not reuse or refill this container.

CONTAINER HANDLING:

Nonrefillable container: Do not reuse or refill this container. Completely empty bag into application equipment. Then offer for recycling if available or dispose of empty bag in a sanitary landfill, or by burning. If burned, stay out of smoke.

LIMITED WARRANTY AND DISCLAIMER:

FOR USE ONLY AS DIRECTED. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, THE MANUFACTURER NEITHER MAKES NOR INTENDS ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WHICH ARE HEREBY EXPRESSLY DISCLAIMED. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, IN NO CASE SHALL THE MANUFACTURER BE LIABLE FOR INCIDENTAL, CONSEQUENTIAL, OR SPECIAL DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. If these terms are not acceptable, return this product to your point of purchase, and the purchase price will be refunded in full. The terms of this LIMITED WARRANTY AND DISCLAIMER cannot be varied by any written or verbal statements or agreements at the point of sale or elsewhere.
